HEY BRO!

HAVE A KILLER SUMMER AND
TERRORIZE MANHATTEN WHEN
THAT NORTH HITS IT. DON'T
PARTY TOO HARD OR YOUR
BANKS WILL FAH OFF. (OM
JUST KIDDING—I DON'T THINK
THEY WILL FAH OFF, THEY
MIGHT JUST SAG)—HA HA!

PS—THANKS FOR
THE HISTORY ANSWERS
BRO!

YOUR SURE BUD
STEVE

))))))))))

Red,
It was such a pleasure
sitting by you in English. do
seriously thanks for the answers
I needed them. Don't you hate people
that say don't party too hard so I
won't say it. But I will see you this
summer when we play football to the B

Erk
Hagge

Will be in Hartford,
you seem to be somewhat
reluctant in your preparation.
Perhaps if you prepare your
Hartford for the summer you
will see you will see your
2000 Hartford will see your
see you next fall.
Chris

Hey John—
I thought that you wouldn't
be a cool dude, the last time
I saw you this year. Well
I think you are way cool!
Take Care & Reproduce
Markus Klein

Have a great summer in
Panorama City. Never
leave your house without
your bullet proof vest.
Have a good summer,
Dana Carson

John

Have a great summer!!!
"LA IS THE PLACE 2 BE"
NOT SAN FRANCISCO (JK)

Oliver V. Scott

Hey Rec,

Don't forget your 5-2 and 4-4
and Remember: In 1852 in
trains the brakes did not use
a 5-2. Now don't get any
fiddle tans and Sun burn
your hair until it sets on fire.
I suppose I will see you at
Club St. Francis Next year.

Never forget my wise maxim,

Thirteen doors do not as a matter
of fact represent the manner my
reproduce itself into the order of
classification whereby it is reverbated."

QUEST

S.F. Students Demonstrate True Loyalty to the Knight

by Bill Moran

The "Modern Armor of the Knights"; Seniors; Joseph Garofalo, Stephen Brady, James Moore, Richard Guerra, and George Hurley; bring a new dimension to spirit.

Never in the history of the world has there ever been a group of men who were dedicated and diverse as were the knights in medieval history. These were men who spent their entire lives preparing for the chance to defend their beliefs or people. A chance to protect the honor of a king or lady was a task accepted without question.

In 1946 such men again were brought back to the world, not in England or Scotland but in a land called La Canada Flintridge. The loyalty of these men has not depleted over the centuries. The pride in the institution which they represent and the people for which they fight, in the classroom as well as on the playing field, is as strong as it can be.

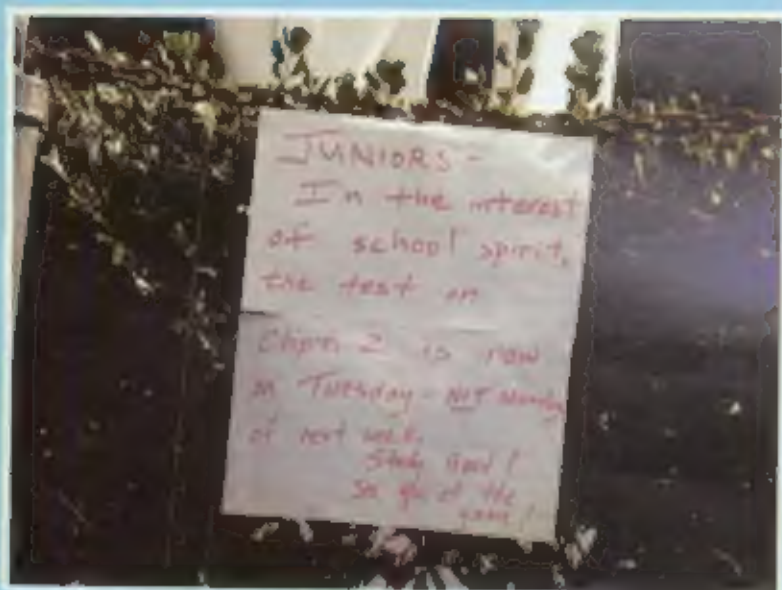

Together these men call themselves Golden Knights of St. Francis High School. The Knights are very proud of this bond, and they prove this loyalty to the institution every day. In athletics the Knights play with a greater amount of discipline and heart than all of the opposition. It is here where the Knights find the edge over the enemy, overcome the situation, and come out victorious.

On the campus the men of St. Francis show their loyalty every day through the way they dress and the way they act toward other students and faculty members. Even when a group of men leave the campus together they show what it means to be a Knight. To be able to say that you are a Knight means that four years of your life was spent attending the greatest high school in the kingdom. Receiving a diploma means that you have been crowned with the highest honor: you are a Golden Knight.

Only through patience will students succeed. Discipline and loyalty must also never be questioned by the student. On the campus the Golden Knights continue to grow mentally, physically, and spiritually, for an education at St. Francis is all of these things. There is no other high school in the land that can boast such a claim.

The feeling of victory was in the air early in the day before the PHS game, and the Knights justified it with their victory.

In Everyday Life, Our Knights Show Bravery Through Action

by Steve Brady

The aspect of Bravery in St. Francis is something most of us take for granted. The average student does not usually begin to examine his or her high school until senior year. Once you realize that you are leaving, you look back. At this point you see qualities in the school and the people that you may have never noticed before. St. Francis has many positive qualities, and one of these is bravery.

Bravery can be defined in several ways. The meaning which applies here concerns the individual. To be more specific, it is the bravery in the ability to retain our individuality. High school is a battleground for teenagers. Some overcome while some conform to the guidelines of what others want them to be. As a result, they sacrifice the qualities in their personalities which make them an individual. This is a very common occurrence; the strong dominate the weak. There are boys' schools where all the students dress, talk, act, and even cut their hair alike. One is able to say with almost certainty, "Oh, that guy goes to L . . ."

Of course, SF is not completely exempt from this reality, but the pressure's level of intensity is quite lower than others. Here, you are able to be yourself and still excel. In fact, because of the fact that you are allowed to express yourself, you are enabled to actually expand and grow more than if you were in the other situation. This will better equip you for the future because you will be comfortable with yourself knowing that you have not compromised your ideals. Let the spirit and pride of the Golden Knights live on.

Two SF Freshmen doing homework will experience the struggles of living up to reputation of being a Knight

Through human interaction, the Knights encounter Spiritual Growth

by Wilfredo Hernandez

David Beaudet and Danny Huang go over physics during the athletic study hall.

Brian Lucken helps distribute food to the needy at the Union Station soup kitchen in Pasadena.

Let the tale of our past be recalled. Roughly nine hundred years ago, the dawn of our society began. Our race thrived for almost 450 years. We were called knights. We lived in Western Europe during the feudal age. Our society developed and lived by a code of conduct called chivalry. From then on, our roots expanded and we prospered.

Our chivalry was most unique. It combined Christian values and the virtues of being a true warrior. Even though our lords competed fiercely with their enemies, we were one in spirit and honor. We were expected to be brave, generous, and loyal, and indeed we were. We respected and protected our women as well as defended our family honor. Fear was unknown — courage prevailed. For four centuries we triumphed and ruled Western Europe with a firm hand. We were the fittest, we were Knights.

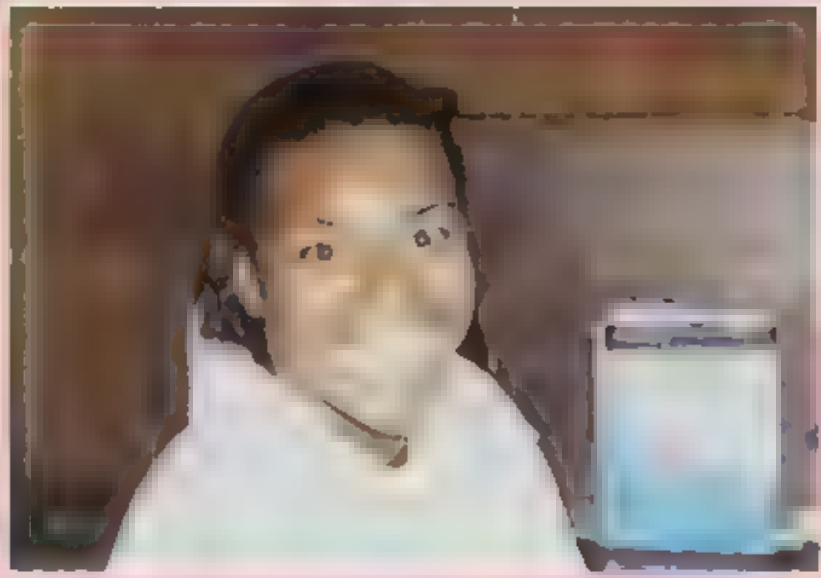

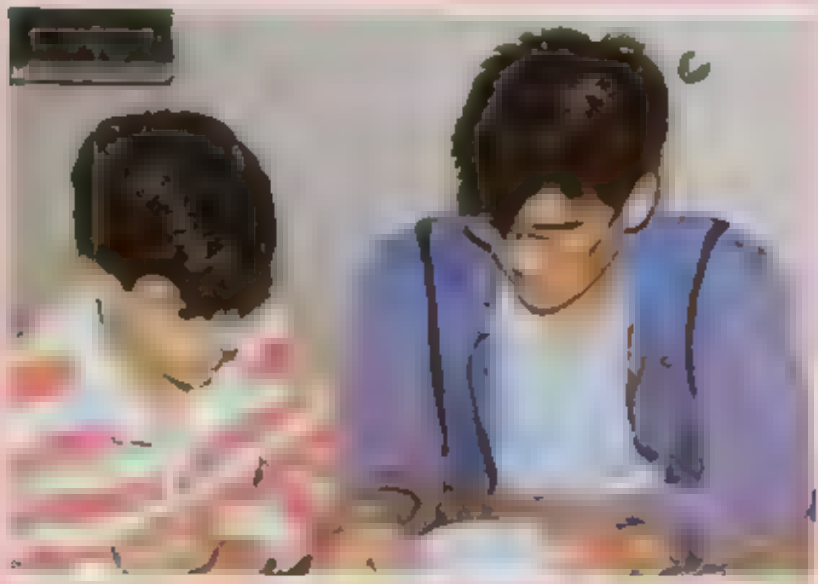

Then, the age of nation — building and modernization commenced. Many of us grew restless, others deserted. We lost hope as the people lost faith in us. Our society was crushed as monarchs seized our enormous tracts of land. The ideals of chivalry were plundered by a new generation of mechanism and materialism who obtained their power from inorganic and artificial strength.

Then, forty — one years ago, a new breed of knights, Golden Knights, emerged. They were the Lord's special choice to go out into the world and conquer a people for Him. The Golden Knights were small in number but strong in spirit and will. Warfare, however, had changed, and the new breed sought out different measures of serving the Lord's name. Not surprisingly, the Knights prospered. Many came in small numbers to pick up the call of modern chivalry. Their stronghold was a fortress high atop La Canada Flintridge. In the name of the new breed's founder, St. Francis, the Knight of Assisi, the young Knights amassed a technology and force far superior to the previous one and spread the new Christian ideals throughout the world.

This new order, now called the St. Francis Golden Knights, still exists today. We are growing at an enormous rate. Members of the new Christian militia help disabled children and the hungry. We emphasize the elements of charity and love as we visit the jailed and the sick, clothe the naked, and feed the hungry. It is no wonder we are now a great threat to the elements of society which promote evil.

We are united, one family fighting for peace and justice in Christ's name. We strive to fulfill the needs of our fellow humans by donating time and money.

In order to promote this peace we are educated at the school of modern chivalry, discipline, and academics. The lords, or brothers, and other lords who educate us strive to do so in the utmost manner, working both spiritually and mentally. As our new golden age appears on the horizon, we are determined to win back the Holy Land we once lost and promote justice. This time Golden Knight chivalry will triumph and live forever.

The Tradition Continues . . . HOMECOMING 1987

by Steve Brady

As the spectacular fireworks exploded in the sky, there must have been many sighs of relief from Mr. Rodgers and the Homecoming committees. The Homecoming that almost never was went off without a hitch and impressed everyone. For those who had practically lived at St. Francis for the week before the event, this was the awesome compilation of hours and hours of work, sweat, and STRESS! After Homecoming was moved back a week due to weather, the tension mounted. Now we were playing our arch — rivals, Loyola. For that next week we ran around like madmen, trying to get all the work done, but on November 13, it all came together. First came the opening procession of the floats with a display of fireworks. Then the crowd was entertained by a pregame performance of "God Bless the USA." Fifty girls from Mayfield, Sacred Heart, Alverno, and Ramona came together and executed a whole routine choreographed by our own Janice Aguilar, who was crowned 1987 Homecoming Queen. Next, each Senior team member was announced with an exploding tribute in the sky. At halftime, the girls again performed, under Janice's direction, "Yankee Doodle Dandy." An incredible fireworks display again dazzled the audience. Loyola defeated the Knights, but it was a night to remember nonetheless. Many compliments were given, even by the Loyola side. It was an incredible event, and we pulled it off! Thank you, Mr. Rodgers, the Student Council, Rogues Gallery, Mr. Lund, Ms. Jacoy, the Pep Club, and the Student Body for making it all possible. As the Golden Knights go full steam into the playoffs, this Homecoming will remain in our memories in the years to come.

The 1987 Saint Francis Homecoming Court

by Steve Brady

This year's Lettermen's Club had a difficult task. They were confronted by a large group of beautiful girls who all wanted to be the 1987 St. Francis Homecoming Queen. The guys had to make a choice, either choose them purely on looks or by looks and their devotion to SF. Luckily, they choose the latter. The result was a court of gorgeous young women all contending for the crown. They were Janice Aguilar (Holy Family), Jennifer Cisneros (Flintridge Sacred Heart), Maria Gonzalez (Flintridge Sacred Heart), Linda Hauser (Holy Family), Lindsay McKellar (Flintridge Sacred Heart), and Darleen Schuster (Mayfield Senior School). The tension mounted as the court and their escorts lined up on the field, and Mr. Rodgers prepared to announce the new queen. Then everyone screamed and clapped as Janice Aguilar was crowned by the 1986 queen, Diana Vasily. Janice deserved the crown, as she has wholeheartedly supported St. Francis since her freshman year. She has been involved in everything under the sun and is a familiar face to our student body. She would like to congratulate all of the girls and wish you success in the future. A special gragratulations to you, Janice. We all love you.

In Dedication . . .

“Whadda Ya Want?!”

by Ted Ferrara

The 1988 Alvernian Staff is dedicating *Knighquest* to Mr. Ben Varona. Mr. Varona has been at St. Francis for eight years as our Attendance Officer. In his years here, he has called literally thousands of men out of class, whether it be for Mr. Brang, to the Counseling Center, or just because Junior left his lunch at home, and Mommy brought it to the office.

You can find him every day behind the office window, eagerly awaiting someone he can ask, “Whadda ya want?”

He has this drill sergeant type facade he puts forth as a front, but once you get to know him or if you just visit with him for five minutes, you realize that he is just as gentle as a teddy bear.

He is as sharp as a tack. He can see a five or ten dollar bill coming from a mile away. As you walk up to the window, he has the exact amount of change waiting for you.

He may not converse much with the students, but he does have much school spirit and dedication. He is here every morning at 6:45 A.M., ready to take phone calls from parents explaining why Peewee won't be in school today and taking notes of readmittance from students. You can see him at every home football game, selling admission tickets at the visitors' gate.

The St. Francis graduating class of 1988 would therefore like to dedicate this edition of the Alvernian to Mr. Varona. He is very important to us, and without him the school would cease to function.

Mr. Varona talking to student

Young man at desk

EARTHQUAKE!

SHOCKTOBER 1, 1987, 7:42 A.M.

by Willy Hernandez

It was Thursday, October 1, 1987, a bright and sunny day with big, white, puffy clouds and a temperature of 75°. It was also a day to remember. An earthquake, recorded at 5.9 on the Richter Scale, shook L.A., including St. Francis High School. Because of good construction and a strong foundation, the school suffered only minor damage: a cracked chimney and some roof damage. However, the memory of the quake remains to this day.

Panic around Los Angeles and Southern California was at a minimum, but the shock of the earthquake could be seen everywhere. St. Francis students displayed no bravado as they honestly spoke of the incident. "What if ... ?" and "Where were you at 7:42?" could be heard throughout the upper campus. That day, school was dismissed early. This decision was accepted without question by the students as they waited for their rides.

A number of SF students, in the true Good Samaritan spirit, aided victims of the quake on their own time and initiative, throwing out rubble and helping individual families to recover. Scientists say the big one is still coming. It could be a day, an hour, or even a second away.

Mr. McCabe and Ric Arthur talk about the physics of an earthquake.

Stand back, the chimney's about to go!

Terror still lives in the eyes of underclassmen.

SHAKE & RATTLE!

set.

Expressed in Sound

by Allan Hong

For the first time in many years, St. Francis organized a school band. Under the leadership of moderator Mr. Manuel Salono, a group of about sixteen musically talented students were gathered from St. Francis and our sister schools to help the tradition of Golden Knight spirit. Playing cheers, fight songs, anthems, and the Alma Mater at football and basketball games, the band helped to motivate the crowds and cheer the team to achieve their best. Although the band was "too small and needs more people to create more sound," members consider the band to be "fun and exciting." All in all, the band had an excellent first year and played above expectations. Hopes for next year's band are even higher.

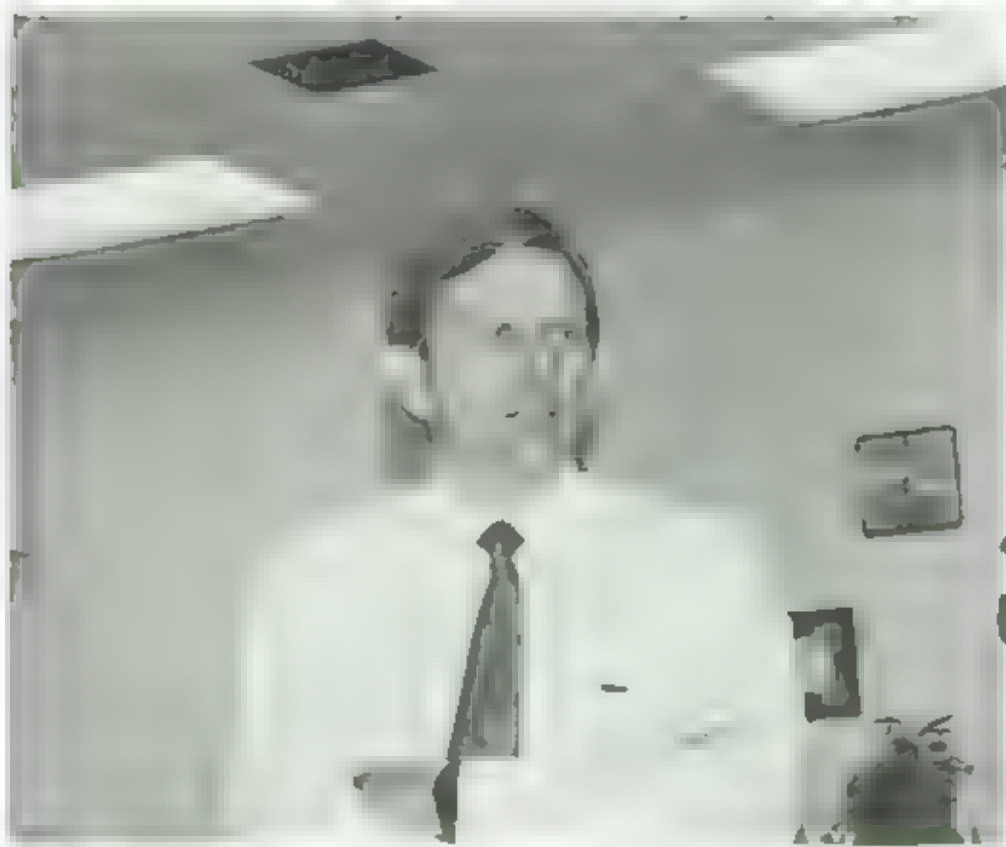

Edward Contreras and Chris Henry pose for a photo.

The same people again with Steve Suanar, David Sutherland, and Frank Lagattuta take a break.

Ulcers in High School? —

by Bill Moran

TOP: Before a game, the mental preparation is just as important as the physical preparation and can be agonizing and stressful. ABOVE: Warning: The Surgeon General has found that this man causes stress in laboratory students.

One of the joys of high school is learning to deal with pressure situations. For example, in one week one must take exams, do term papers and labs, fill out college applications, participate in extracurricular activities (which could include yearbook, newspaper, CSF, or NHS), finish a marriage project, do an in class presentation, etc. All of this adds up to one simple thing: *Ssttreesss!!!*

By the time you are a senior you will experience many times the problem of not enough time. While you are not getting enough sleep you get sick and the domino effect takes over. Each problem compounds the others until you either end up with poor grades or death.

To overcome this situation, one must approach each day with a new perspective. That being, the longer I am sick and the more work I do, the more tolerance I have to help fight stress. Of course, this is not true, but until a three day weekend, you are in a hole to catch up.

So, keep a good strong mind and body, eat all of your vegetables, and drink lots of fresh orange juice so that in preparation for that great big week of the most intense madness and frustration before the end of the semester you can fight through it. Pray to St. Joseph of Cupertino and for all of the R.E.M. sleep you can get, and everything will be all right. Don't bug out and get mad, this is what life is about. Without stress, a good time would be that much less enjoyable.

Hmmm . . . Could it be . . .

“STRESS”

Let's Go Shopping in the St. Francis Student Store

by Staff Writer

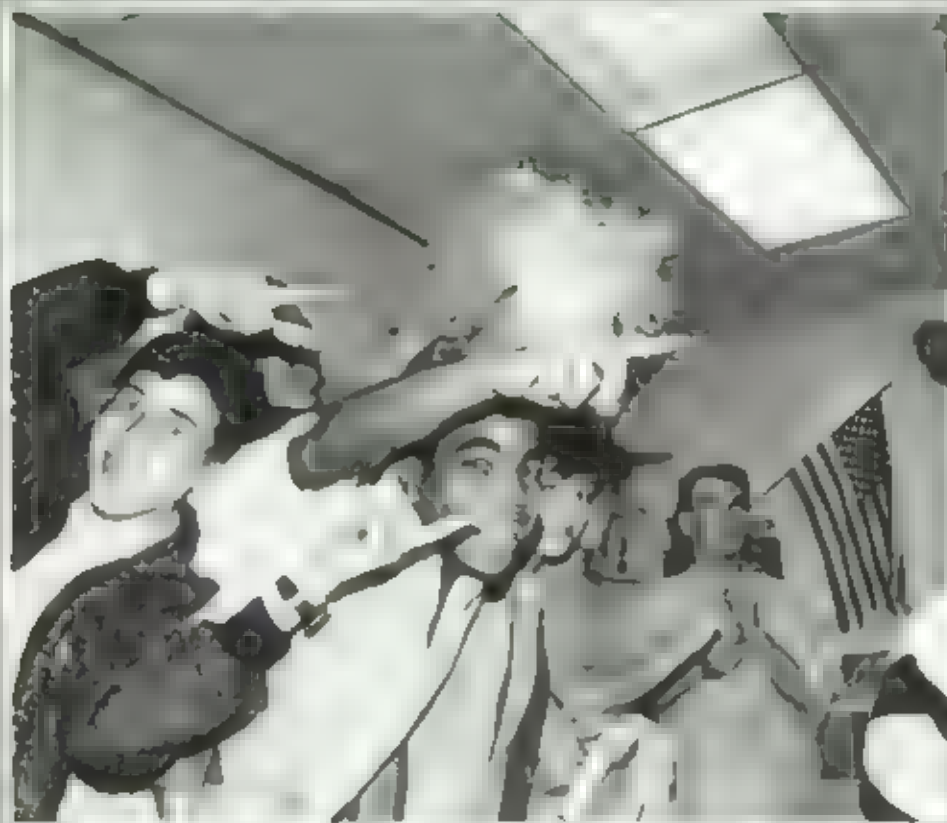

New this year at St. Francis High School is the Student Store located in the tiny Room 200. Manned by ASB officers during break and lunch, the store supplies students with a wide variety of items. In the SF Student Store, one can get such things as school buttons and bumper stickers as well as supplies, pens, pencils, binders, White Out, and markers. Students can also purchase a multitude of clothes from rugby shirts to sweats. In order to raise money for the computer room, the store also sells computers.

Mr. Rodgers, the Director of Student Activities, thought up the idea for a Student store at St. Francis in order to raise money for the Associated Student Body. The proceeds from the St. Francis Student Store will go toward future ASB activities.

All of the St. Francis student body is strongly encouraged to pay a visit and buy some of the many items available at bargain prices. Make sure that over the summer you are able to demonstrate your Golden Knight spirit by proudly displaying your collection of St. Francis memorabilia.

Thomas Gregory and David Gelfon help out St. Francis here in the store.

Underclassmen see a good buy in the store.

Thomas Gregory makes a sale, while Stephen Brady checks a price.

ABOVE: Stephen Brady holds off Mark Griffin. LEFT: John Cusimano and Patrick Zalamea both spot the deal of the century.

The Indispensable S.F. Mothers' Guild

Few associations related to St. Francis are as distinguished as the St. Francis Mothers' Guild. This year, the guild was headed by the president, Mrs. Joanne Hawkins. Under her leadership, the guild made progress through leaps and bounds.

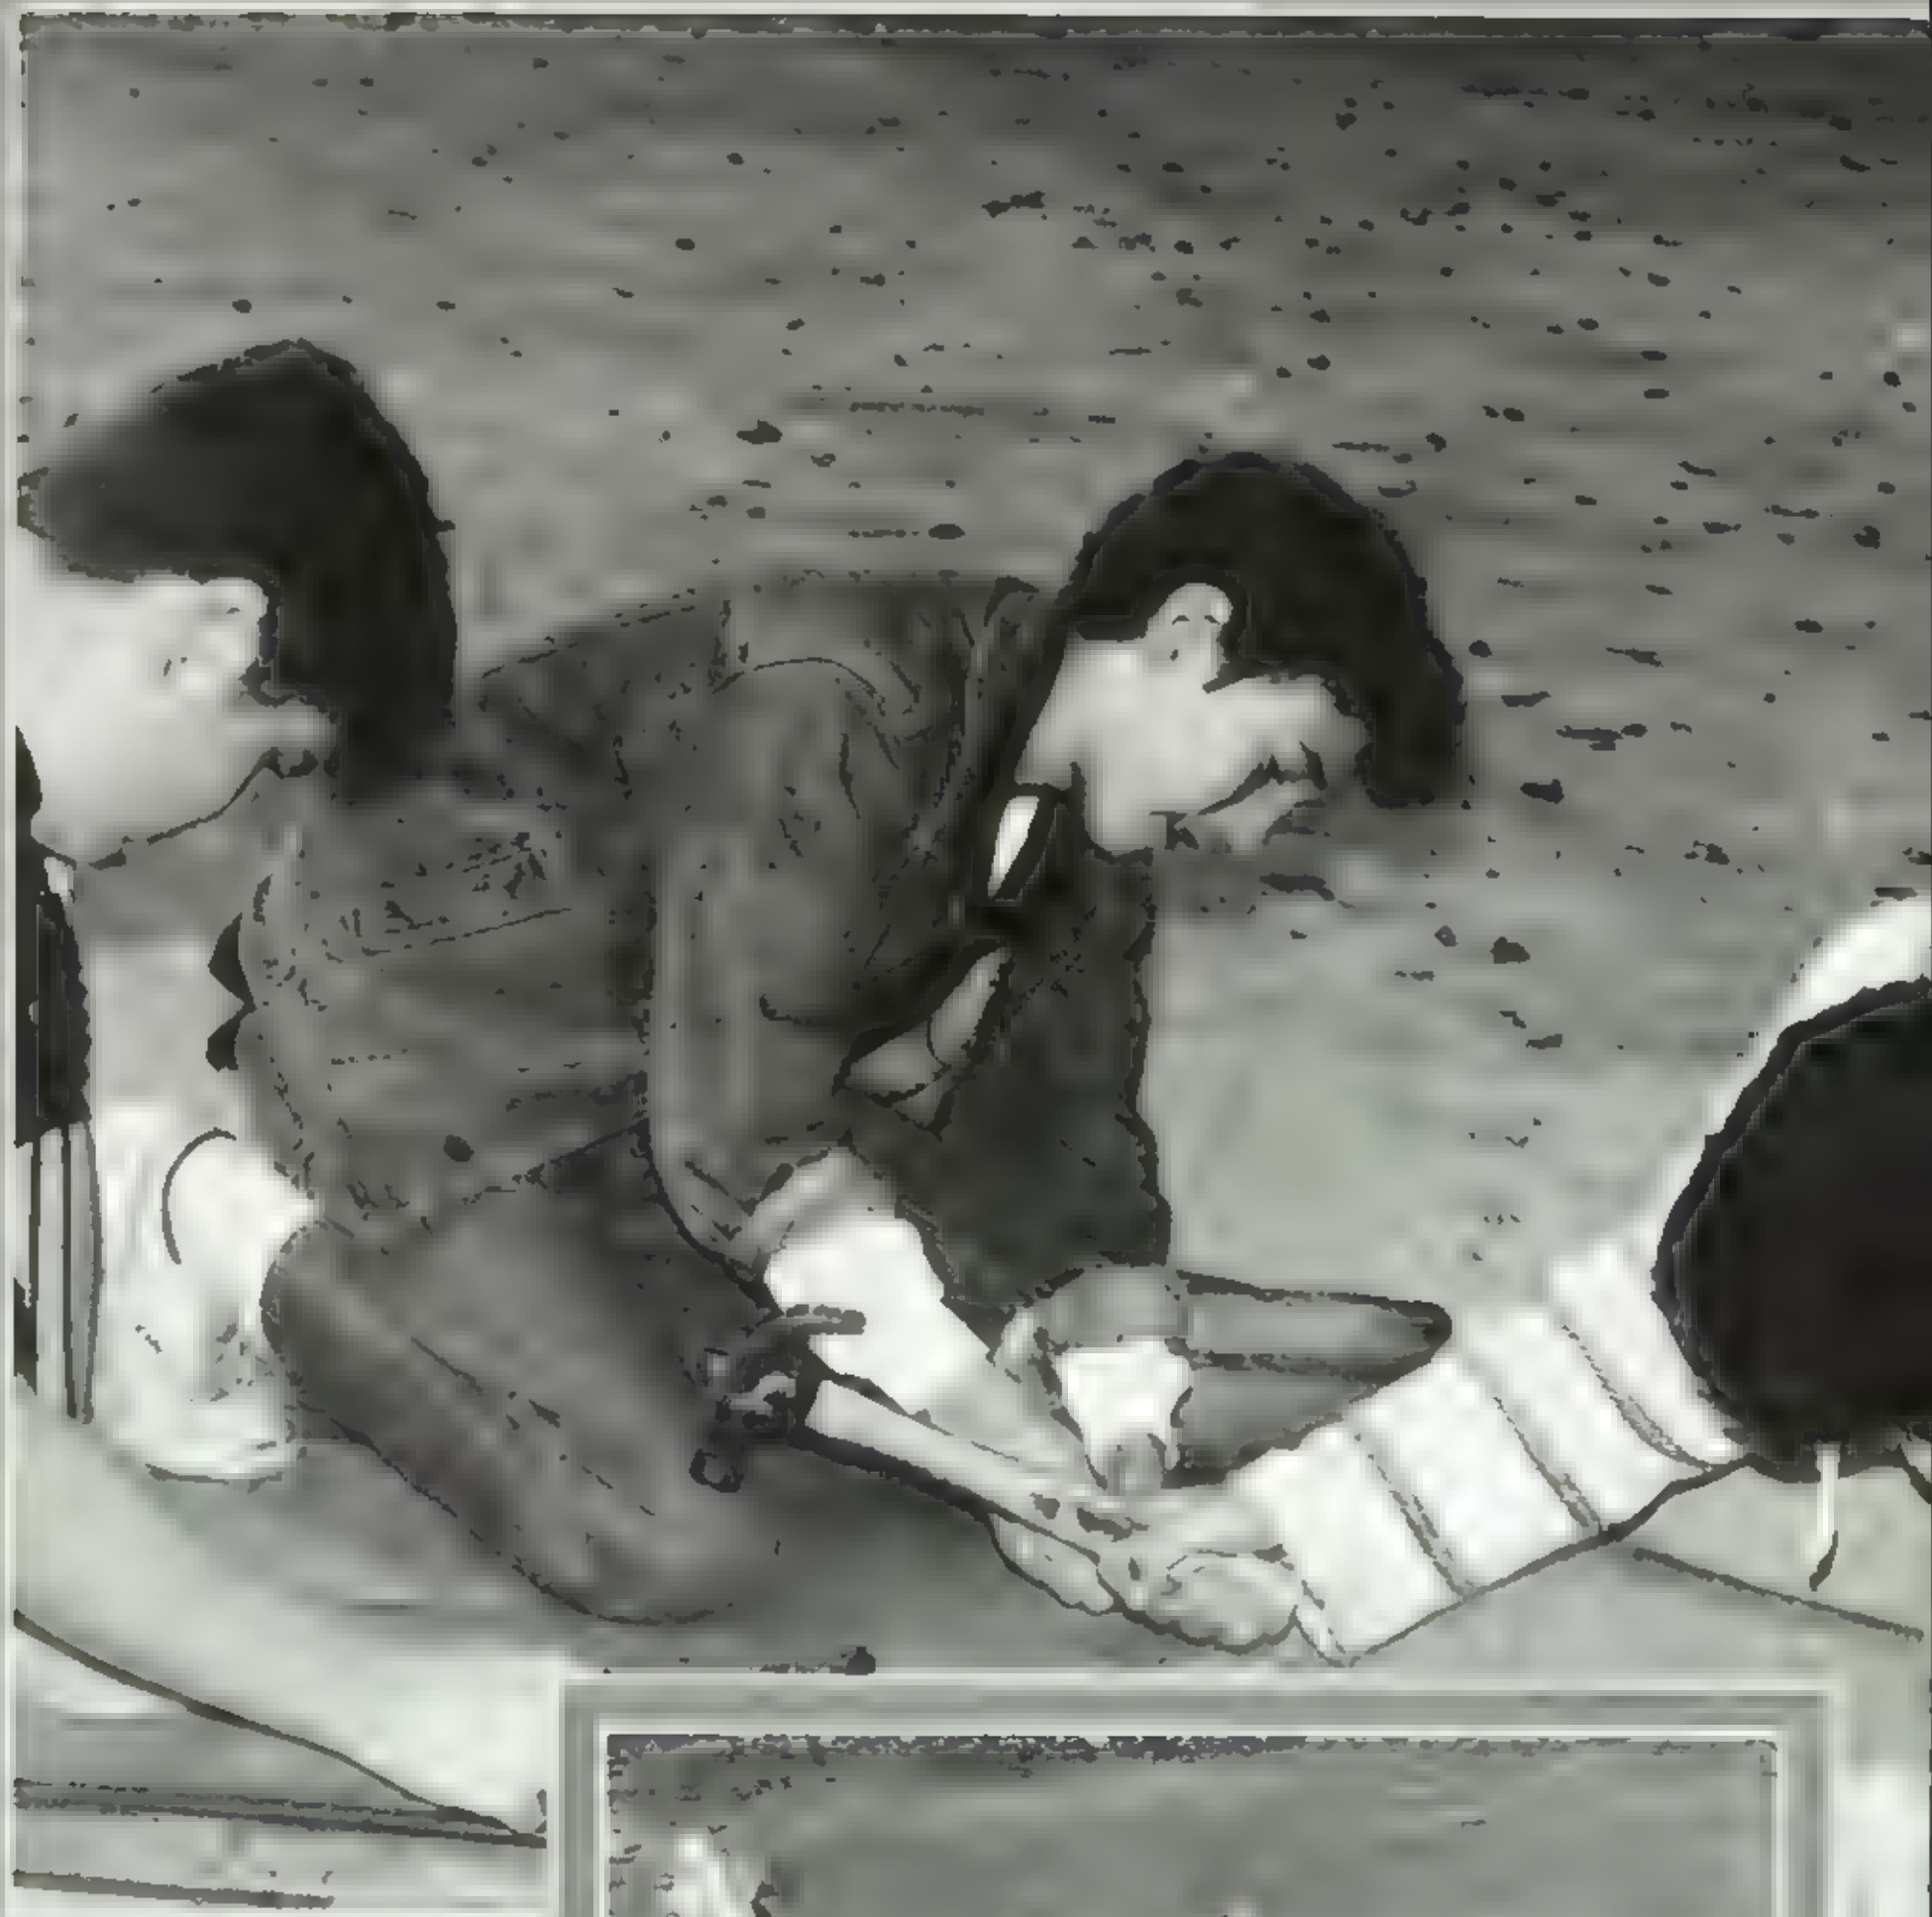

The guild, in cooperation with St. Francis mothers, exemplified themselves at an extraordinary boutique held November 17, 1987. The boutique was an experiment which turned out to be a success. A five person committee chosen by the guild directed the activity. The committee consisted of Gemma Urioste, Patricia Boyett, Angela Ferraro, Maria Torres, and Donna Woolard, all of whom performed a magnificent job in setting up the holiday boutique, which was held in the St. Francis gym. Items at the boutique, over seven hundred of them, were domestic products for the Thanksgiving and Christmas seasons. They ranged from bows and plants to fine woodwork. The boutique's purpose was to send the proceeds, estimated at fifteen thousand dollars, directly to the school to finance fifteen computer programers to the school.

Many other activities, similar to the 1987 November boutique have been sponsored by the Mothers' Guild. Mrs. Hawkins's leadership and generosity have allowed many students to freely participate in activities such as retreats. The Mothers' Guild has aided the school through deep involvement and service.

Rose Parade Beware! Here Comes the KNIGHTS' FLOATS

by Phil Bonoli

What is Homecoming without class floats? Last year, St. Francis started a tradition by creating floats for each class. The response by the parents and alumni was enormous, and so everyone figured that class floats should parade around Friedman Field during Homecoming '87.

This year, the Pep Club wanted to get into the float making craze, so they made the Pep Mobile, in which the members of the Rogues Gallery wore miters and blessed the crowd. The senior class followed the Pep Mobile with their creation, a chuckwagon with radical/Knight cowboys. The junior class float was a huge paper mache dragon which won first place. The sophomore float was a Golden Knight football helmet, and the freshman float was a wall with the Golden Knight coat of arms. The Homecoming Float carrying the princesses and their escorts brought up the rear. (This float was created in five hours on Friday, the day of Homecoming.)

In order to save the floats against Loyola attacks, many St. Francis Pep Club members remained overnight to watch over them. The floats were preserved, and the result was a successful Homecoming Float Parade.

GAMES

Even With the Toughest Schedule St. Francis Still Makes the Playoffs

by Darryl Banta and Allan Hong

This year's football team has not only proven its ability to perform exceptionally, but has also surprised many of its opponents, who believed the Knights were doomed from the start. St. Francis, which has the toughest schedules in the CIF, lost to three of its opponents by less than four points, two of which were decided by last second field goals, and played seven top ranked teams. Despite its record, the Knights played hard and never gave up.

The season opened with a 42 — 28 loss against Burroughs, who were ranked second in the CIF Northwestern Conference. William Stavropoulos led the rushing attack with 94 yards and a touchdown. The Knights' defense played a major role in the game against Pasadena. Ironically, they emerged victorious without a single first down. Although the team did not perform well offensively, they did take advantage of every opportunity and showed great character.

The Knights' next three games ended in defeats. Plagued by turnovers and poor defense, St. Francis suffered a 30 — 7 loss to Damien. Bishop Amat barely slipped by to beat SF on a last second field goal with a final score of 10 — 7. Gerry McGee led an inspired defense with an interception and many tackles. The Knights closed the preseason with a 16 — 14 loss to Muir, the CIF Northwestern champions.

"After facing two CIF champs, we get to face a runner — up. There are simply no breathers for us," said Coach Terry Terrazone as his team went on to St. John Bosco, the Del Rey League champs, where they were beaten 24 — 21. Again the margin of victory was a field goal. Outstanding performance were given by Bill Morris, who completed 14 of 17 passes for 140 yards and rushed for 110 yards. Jeffrey Dyrek and David Woolard also performed exceptionally well.

St. Francis gave a valiant effort and defeated Notre Dame

17 — 16. Gerry McGee and Louis Patino both scored a TD. Playoff hopes were improved with a 14 — 6 victory over Alemany, who were ranked in the Big 5 top ten.

The final game of the regular season ended with a loss to undefeated Loyola, the Del Rey League champs. With two victories in league play, the Knights still made the playoffs. St. Francis finished strong with many impressive efforts. They showed the determination and spirit common only in the tradition of the Golden Knights.

Richard Wheeler leads the pack in a 220 yard run during fall training.

Club Saint Francis

by William Stavropoulos

Otherwise known as Hell Week, Club SF has been a part of St. Francis football for many years. Its goal is to whip the team into shape. That it did this year! Hell Week was very intense due to a poor performance in the conditioning test consisting of fifteen 220 yard sprints (with about two minutes between each lap). Only sixteen players passed the first time. Surprisingly, most of these players were linemen, who are otherwise known as Buffalo Soldiers. The players who failed had to return each day until they passed. By the end of the week, most of the players had passed, only to look forward to the first morning of Hell Week the following Monday. Sessions lasted anywhere from two to three hours each morning and afternoon. The only break was the Sunday before school started. However, when Club SF was closed, the team was in shape and ready to play.

Mr. Terrazone

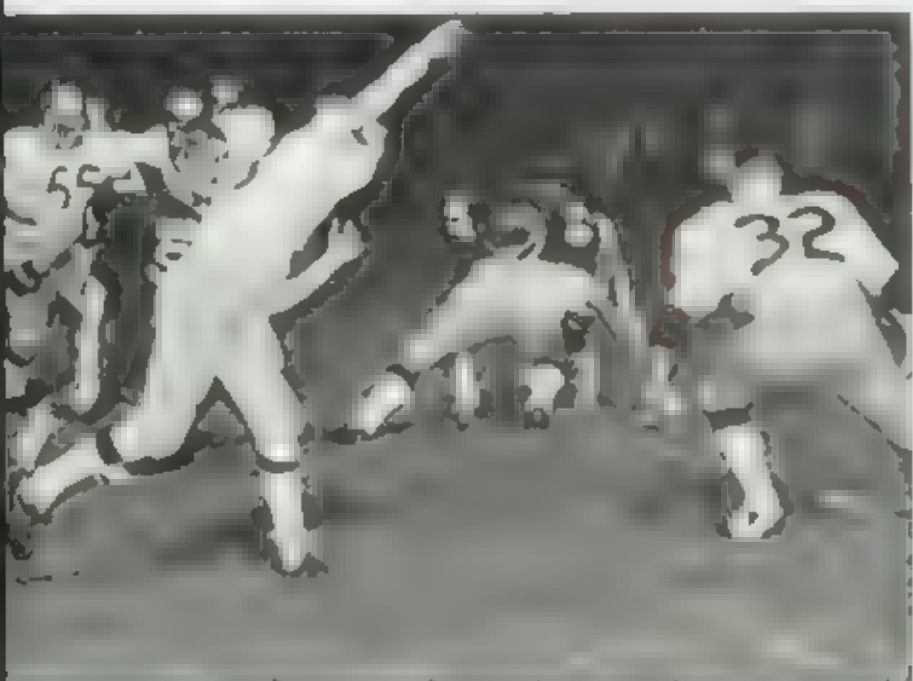

More Than Just a Coach

by Bradley Wheeler

Mr. Terry Terrazone has served St. Francis faithfully for the last several years as more than just an excellent football coach. He has been the Athletic Director, a history teacher, and a driving instructor. Coach Terrazone feels that the 1987 Varsity squad has "excellent talent" and "has played to the best of their ability all season . . . Their hard work has definitely paid off this season since they are going to the CIF playoffs. Mr. Terrazone also believes that the student body deserves a part of the thanks for their support at the games. They have really helped bring back the SF spirit," he added. Lastly, he said that the biggest factor to SF is not winning but the caliber of the teams we played. "When we look at the teams we played, we cannot be embarrassed by our record." We salute you and thank you for an excellent season, Mr. Terrazone.

Manager's View

by Willy Hernandez

Aside from the menial and time consuming jobs associated with managing; like washing towels, supervising equipment, and cleaning up the locker room; Dominic Lazzaretto is the light that boosts life into the football team. Dom sets up the objects needed on the field, takes care of flags and headphones, supplies the team with water, and takes stats. Dom's job is a rigorous one which requires much devotion.

The depression that sets in after a defeat in the locker room is great, and the team naturally looks for a scapegoat. Dom is someone to admire. He works four to five hours daily with the team. On game days, he is at school for sixteen hours, preparing for the game. He intends to play varsity soccer, a most difficult task, as well as run track again. "It has shown me comradery, a keen sense of unity, responsibility, and deep — rooted pride in my school." We are most honored to have such a devoted and well — rounded student as Dom Lazzaretto. He is one of those people behind the scenes who provides spirit at St. Francis HS.

Sophomore Football Show Promise for Future Years

by Mark Fellingner

The Sophomore football team had quite an impressive list of opponents this season. Although they went through a series of ups and downs during the course of the year, the team worked hard in an effort to achieve success.

The sophs this year had more size, speed, and talent than previous sophomore teams. On many occasions, the individual members proved themselves to be a great value to the team unit while at the same time showing their fine athletic skills.

As their record of 3 — 7 — 0 shows, the sophomores did not quite have the season they would have hoped for.

However, their future looks bright if they can put this year behind them and start the '88 season with a clean slate. The team's motto of "going all the way" can help them overcome adverse situations and become a powerful force in the De Rey League next year. For instance, they have an impressive knowledge of their plays with twenty — two different formations per play and a wide variety of talents, with many players playing on both offense and defense.

"Sometimes we were our own worst enemies," was one player's comment, "if we can concentrate on our game and have a good mental attitude, our possibilities as a team are practically limitless."

Under extreme pressure, Thomas Pescatello still makes the punt.

Freshmen have a Roller Coaster Year

by Paul Kieffaber

This year, our Freshmen Football team had been working like a "Roller coaster," as Coach Radenberg put it. In the beginning, the team looked good against Clairmont, but they turned right around and played poorly when they were up against Pasadena. Overall, Coach Radenberg said that he had seen superb improvement from this year's players.

The MVP for the season, in the minds of the coaches, is John Willis, the quarterback. "Willis is a good player, a good athlete, and a leader." If there is anyone who can "fire the team up" before a game, it is John Willis and Lenny Lenas. These two players have the encouragement to get the team going and lighten their spirits.

Coach hopes that all of these fine players will "stick it out" and go on to become the varsity team. All of the guys that go out for the team next year

will show guaranteed improvement. The reason for this guarantee is that, since a great majority of the frosh football players had never played tackle football before, it is always difficult to adjust. Once this adjustment has been completed, improvement is bound to show.

Coach Radenberg said, "I was very impressed this year. From my past experience, many teams that lose a majority of their games tend to become less enthusiastic about their team, and they lose their spirit, but this team really has potential. I know that the true talent of the team will be acknowledged next year when they play on the Sophomore or JV team."

Golden Knight Harriers

Embark on a New Tradition

by Rogers N. Carpenter

Our St. Francis Cross Country Harriers set out this year to prove they were a force to be reckoned with in the Del Rey League. In his third year as head coach, Mark Mitchell, again set high goals for his runners. Along with assistant coach Geoff Noonan, they proceeded to shape, mold, and harden the rookies as well as condition the seasoned veterans. This year's varsity squad consisted of a strong core of veterans along with many new faces among the varsity ranks.

Making up the varsity squad were seniors David Beaudet and David Sutherland who were the co — captains and juniors Allen Freemon, James Mc Gehee, and Christopher Reyes as well as sophomore Michael Paulicano with JV runners Brian Maple, John Michelena, David Davis, and Marko Kalaba competing for the number seven spot on the team. They can be described as a pressure team, winning every race they had to win and upsetting heavily favored Crespi along with St. John Bosco. This year's team had a better attitude and was more serious about winning, and it showed in the team's second place showing at the Del Rey League finals, one of the most competitive leagues in the state. They also went to the CIF prelims and came in an impressive sixteenth place, in spite of the fact that they were placed in the most difficult heat along with Arroyo, the number one cross country team in the state.

Senior David Beaudet and junior Allen Freemon, the main staple of the varsity squad for the past two years, again showed why they are number one and two on the team by continually turning in exceptional performances throughout the

season. Allen, holding the number one spot on the team, proved that he deserved this honor by winning the Dana Hills Invitational and by coming in second in the Del Rey League finals. David, on the varsity squad for three years, again had an impressive showing during this year, especially at Dana Hills and at the Mt. SAC Invitational, where he took second place.

The varsity squad had an exceptional year, and they will continue to prosper in the future as they again attempt to regain the Del Rey League crown.

Frosh — Soph Cross Country Shows Great Potential

by Roger N. Carpenter

This year's Frosh — Soph cross country team showed real talent and guaranteed St. Francis' ability to compete with our Del Rey League opponents for the next two years. While having a rather inconsistent year overall, the team, consisting of Sophs Marcos Arias, Eric Franken, Brian Uballez, and Bart Sumner, along with freshmen Mark

Aguilar, Alex Clark, Marc Sutton, Deepak Sonthalia, and John Surprenaut, had many impressive individual performances. They came in third in the Del Rey League finals against much larger teams.

With the graduation of two varsity runners, the task of filling these positions fall upon the Frosh — Soph team. Mark Aguilar, who joined the team mid

— season, turned out an outstanding eighth place finish in the Frosh — Soph division of league finals. Marcos Arias and Eric Franken turned in very promising years and great things are expected of them in the future. There is a large quantity of ability in these runners, and St. Francis hopes to harness it in the next few years.

Varsity Basketball

A Year With Many Challenges

by Allan Hong

This year's varsity basketball team had many obstacles to overcome. Under rookie head coach Mr. John Jordan, this young team faced many tough opponents with very few experienced players. With only three returning players, much leadership fell upon veterans Thomas Fell, Frank Lagattuta, and junior Jeffrey Dyrek. A disappointing factor to the team was the loss of Ernesto Gritzewsky due to injury. Another disadvantage is the lack of height on the team. With an average of less than six feet, the opponents usually have a towering height advantage.

"But what we lack in height and experience, we compensated for with much hard work and dedication," stated Coach Jordan. With many talented players, such as Frank Lagattuta, Tom Fell, Jeff Dyrek, and Aaron Villegas, this team is still a competitive and skilled squad. Other key players include Allan Freemon and Dominick Mumolo. They show a promising future with their shooting and rebounding abilities. Despite the losing record, this team still showcased a skilled and talented team. The Golden Knights can still be proud of a dedicated and competitive squad of true athletes.

In a fast break, Jeff Dyrek passes between two Crespi players on the way for two points.

J.V. Basketball

A Year of Adjustment

by Eric Echeverry

This 1987-88 J.V. basketball team, led by Coach Paul Radenburg, began the season playing tough. Winning five of its first six games really fired up the team. Within these six games, the JV basketball team brought home a third place trophy in the San Gabriel tournament out of a total of sixteen teams. The team continued a good preseason by taking in a few more wins.

As league set in, the Knights were hurt by the loss of Chris Escamilla, a key player on the team, who unfortunately was out for the rest of the season. Showing the true spirit of a good team, the Knights quickly adjusted to this loss. This gave a chance to backup center Brian Dease to come into the lineup and put the Knights right back into the fray.

The team's intensity on defense was what kept the team alive, not its size. Speed was a part of the team's main strategy. Working the fast paced offense were some very talented players, including George Valenzuela, Matthew Vitti, Jason Smith, Brian Dease, Eric Echeverry, and Steve Murphy (a transfer from Arcadia). The Knights had a changing lineup almost every week, showing some intense playing from everyone on the team with two of the team's fastest guards, Louis Patino and Brendan Kavanagh, and a hard working backup forward and center Sean Crawford. The Knights fought hard in league, suffering some losses in crucial games, but not enough to dampen the spirits of this determined team, whose main motto was "never say die."

Stephen Murphy attempts to find a man open.

Sophomore Basketball Never Say Die

by Daryl Banta

This year's sophomore basketball team experienced several setbacks. Three of its seven preleague games were cancelled, two of the original eleven members left the team, and the team suffered from the cold and flu epidemic. However, with careful adaptation and a winning attitude, the sophomores demonstrated exceptional offensive and defensive skills. According to the coach, Mr. McCabe, the team possessed good basketball sense, intelligence, quickness, and shooting ability. He also stated that "although the record does not show it, the team worked hard and played well. I am not disappointed with their performances."

The sophomores exhibited inspiring determination and a "never say die" attitude. They came very close to some of the best teams in the league. Each member gave his very best and contributed to the team effort in one way or another. Unfortunately, their record does not reflect this. The team benefited offensively from the skills of Chris Mendoza, James Hopkins, and Daryl Banta. Help on the boards was given by Derek Duran and Scott Jackson.

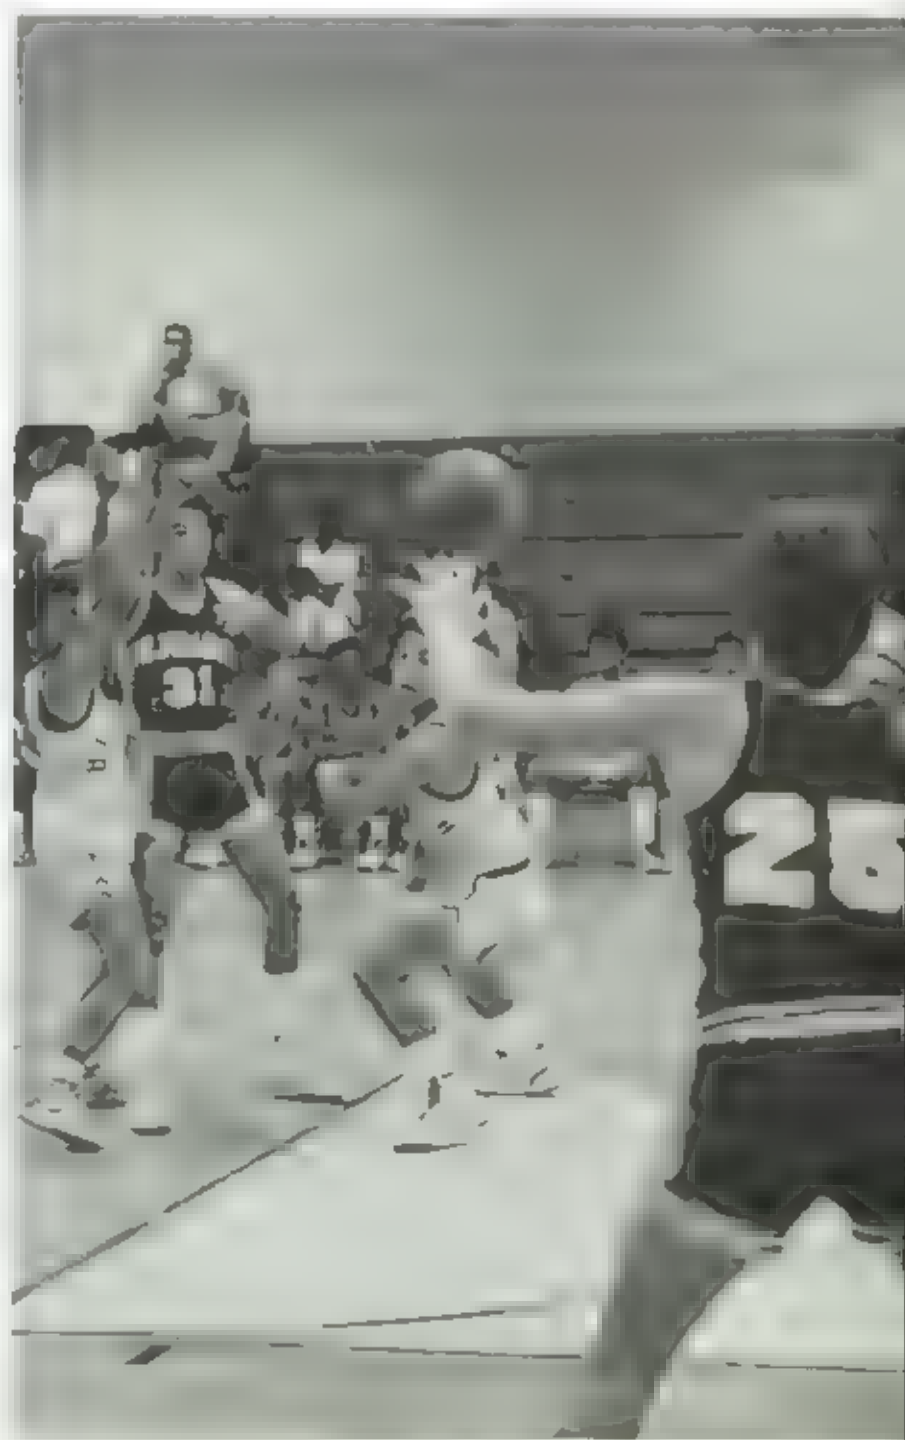

Christopher Mendoza, Daryl Banta, Ruben Prisciauto, Scott Jackson, Matthew Schlotman, Derek Duran, James Hopkins, Leonard Contreras, Warren Banta, and Coach Tom McCabe — the 1987-88 Soph squad

Frosh Basketball Quest of Champions

by Shaun Hong

TOP ROW: Manager Jamie Jasso, Lawrence Duenas, Timothy Mathy, Joseph Rossi, John Willis, Michael Meyer, Martin Konrad, Leonard Duenas, Kyle Barrett, and Coach Kenneth Gorman. BOTTOM ROW: Mark Smart, David Landa, Martin Pasquai, Fabio Soto, Eric Lee, and Patrick Escamilla.

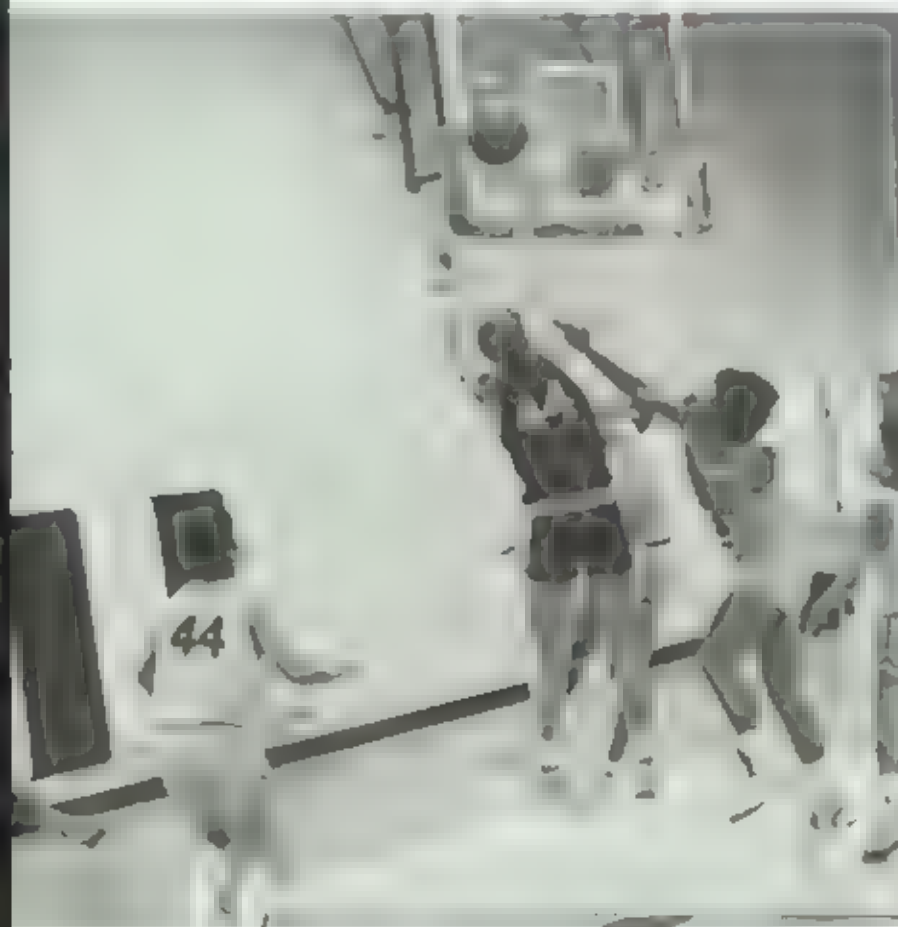

The freshman basketball team has completed another season. There was a large turnout to participate in this program. From a large pool of participants, only a limited dozen was chosen to be on the squad. This is Mr. Gorman's second year as the head coach. Under his directions, the team had a successful season.

The team had won all five preseason games. It gave them such confidence for Del Rey League action. However, the Golden Knights came up short. They chalked up a 7-5 league record. In one particular game, Coach Gorman lost five players due to illness. The result was a disappointing loss. Coach Gorman felt the season was good, but he wished it could have been a little better.

There were a few standouts on the squad. John Willis, the center, was needed for pounding the boards. Kyle Barrett and David Lander are two guards following a St. Francis tradition of good ball handlers.

The five games that the frosh team lost were the result of poor shooting. Coach Gorman pointed out that the team shot an average of 47% but only 30% in the lost games. This team was primarily a good running and passing team. "When we run and pass well, then we're really good," said Coach Gorman.

The frosh hoopers are off to a good start. Most players will be moved onto the sophomore team. A few may even be promoted by JV or varsity. They will build on their skills and help make the Golden Knights to continue their winning tradition.

Under tight coverage, John Willis is still able to shoot over two Bosco Tech opponents.

Eric Lee (21) scores an unbelievable shot even though he is bombarded by an opponent.

Varsity Soccer

The Real Football

by Willy Hernandez

As the football and cross country seasons came to an end, St. Francis varsity soccer jumped into the limelight. The knowledgeable Coach Cherif Zein resumed his long position as coach of varsity soccer and proceeded to cause damage to all opposition.

During preseason, the team showed extraordinary talent and ability, one which Coach Cerif had been developing since the summer of 1987. The team finished preseason with a commendable record, partly due to the talents of players such as Robert Guerrero, David Beall, and Carlo Casella. The success of preseason was crystallized in the conquest of the La Canada Tournament, which the Golden Knights took for the second consecutive year. The team seemed most optimistic as preseason ended and the season began.

Varsity's performance in the first half of the season should be considered second to none. With finesse, speed, and agility, the team outmaneuvered others to the ball and extinguished their hope to win. A magnificent job was displayed by varsity's three skilled goalies, Alejandro Poli, Martin Boskovich, and veteran player Leo Dragecevic.

But human nature played a factor in the second half. Where the first half had been played nothing short of perfectly, the second half resulted in a disappointment for the Knights. When one takes a lead, his intensity usually slacks off. Apparently, such was the case with this year's squad.

Nonetheless, the team's previous achievement was enough to boost them to the playoffs, as well as a second place standing in the Del Rey League. Coach Cherif's talents did not go to waste. With his coaching ability and the talents of i

JV Soccer: Not Just Another Season

by Willy Hernandez

As the 1987-88 soccer season ends, new hopes of titles for the junior varsity squad appear. The season commenced in November with conquest after conquest as the Knights plowed their way through preseason with only one defeat.

Team after team fell with utter devastation as the team put the ball in the back of the net. Ironically, and unfortunately, the squad's effort slacked off in the same fashion as the year before.

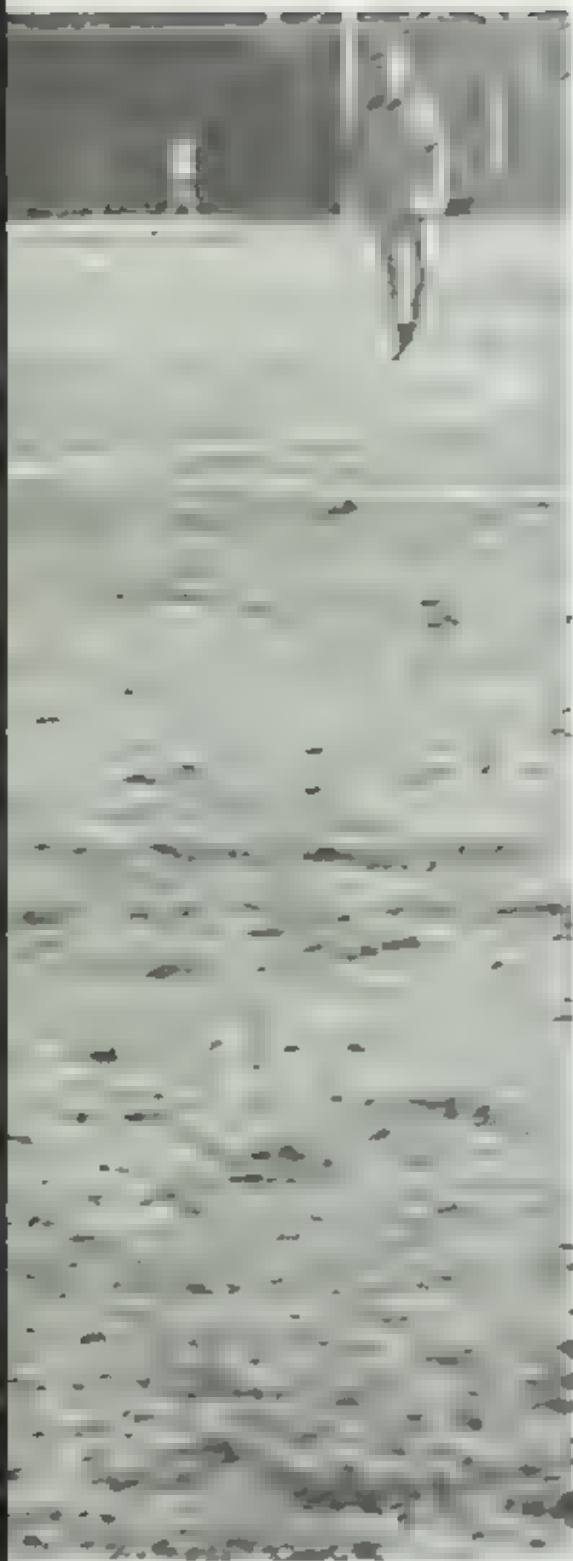

Second year coach Greg Tilson led the JV crusade for the Del Rey League Title. After an impressive preseason record of seven and one, Coach Tilson took the JV team to Del Rey. Victories in preseason included the conquest of Pasadena Poly (11-0), the advance against Oxnard (6-0), and the defeat of Flintridge Prep (8-2).

Coach Tilson and his skilled team came unbearably close to taking the league crown as Loyola became enough of an obstacle to stop the Golden advance. The team ended the season with a 6-3-2 record, ending the entire soccer season with an overall 13-4-2, a commendable feat.

The intensity of practice accounted for much of the success of the team. Success must also be credited to the admirable talents of the individual players. With six veterans and eleven newcomers, the team attained a second place standing on the charts.

ABOVE: Michael Paulicano dribbles past opponents in an attempt to score. LEFT: Juan Alfonso uses Knight speed to beat his opponent to the ball.

"Hoping to strengthen the picting staff, John Farkas works on his pitching."

Varsity Baseball

The Quest for Victory

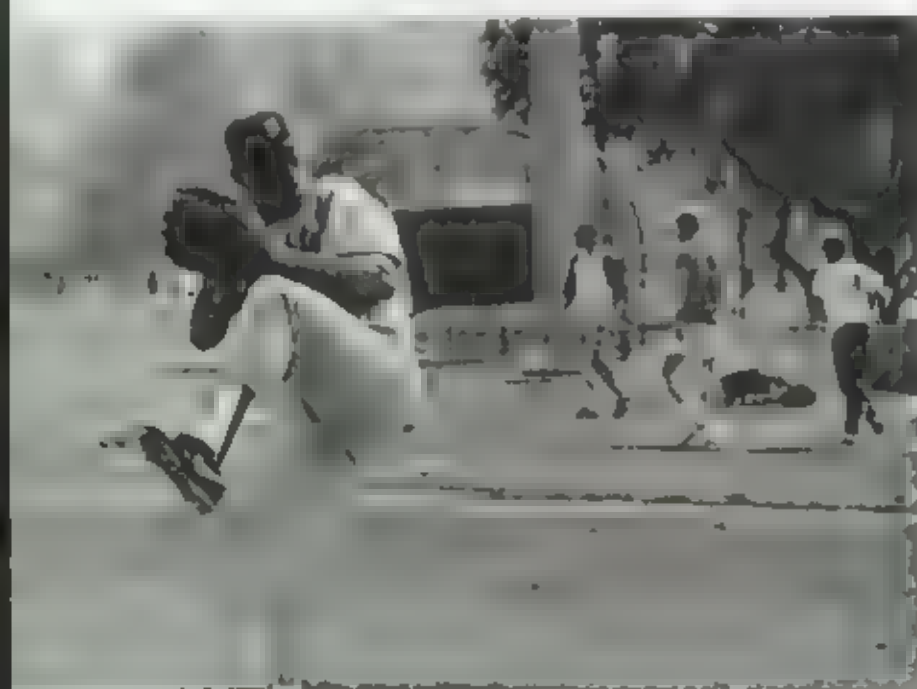

by Daryl Banta

Spring marks the beginning of warm, sunny days and blooming flowers. Spring also marks the beginning of baseball. This year's varsity baseball team presented excellent performances, dedication, and quality play. They brought home the victories and kept the St. Francis winning tradition alive.

Coach Cly, Coach Holmes, and Coach Witeside each worked hard to develop the talents of every player. They directed

and trained their players wisely and prepared them to become the best they could be. Hitting, catching, and throwing all became second nature to these hardworking athletes.

Through the exceptional skills of Billy Morris at shortstop, Mark Loretta at second base, Greg Zaun as catcher, and many others, St. Francis continued to excel and demonstrate potential for upcoming years.

Paul Walleck improves his pitching technique.

Gregory Zaun makes an awesome backhand save at the plate.

Ivano Franceschini makes a long throw from third base.

At shortstop, Billy Morris stops a hard shot.

J.V. Baseball

The Quest for the Crown

by Shaun Hong

With the arrival of spring, baseball, an American tradition begins another season. At Oak Grove Park, the home of Golden Knights baseball, JV coach Ken Lund works with his squad in preparation for the 1988 season.

The JV team is coming off a disappointing season, and talented players are usually moved up the the varsity squad, but Coach Lund believes he has a strong team. Speed and pitching are the keys for the Knights. This JV team will have six pitchers, and they will be exposed to varsity action to gain some experience.

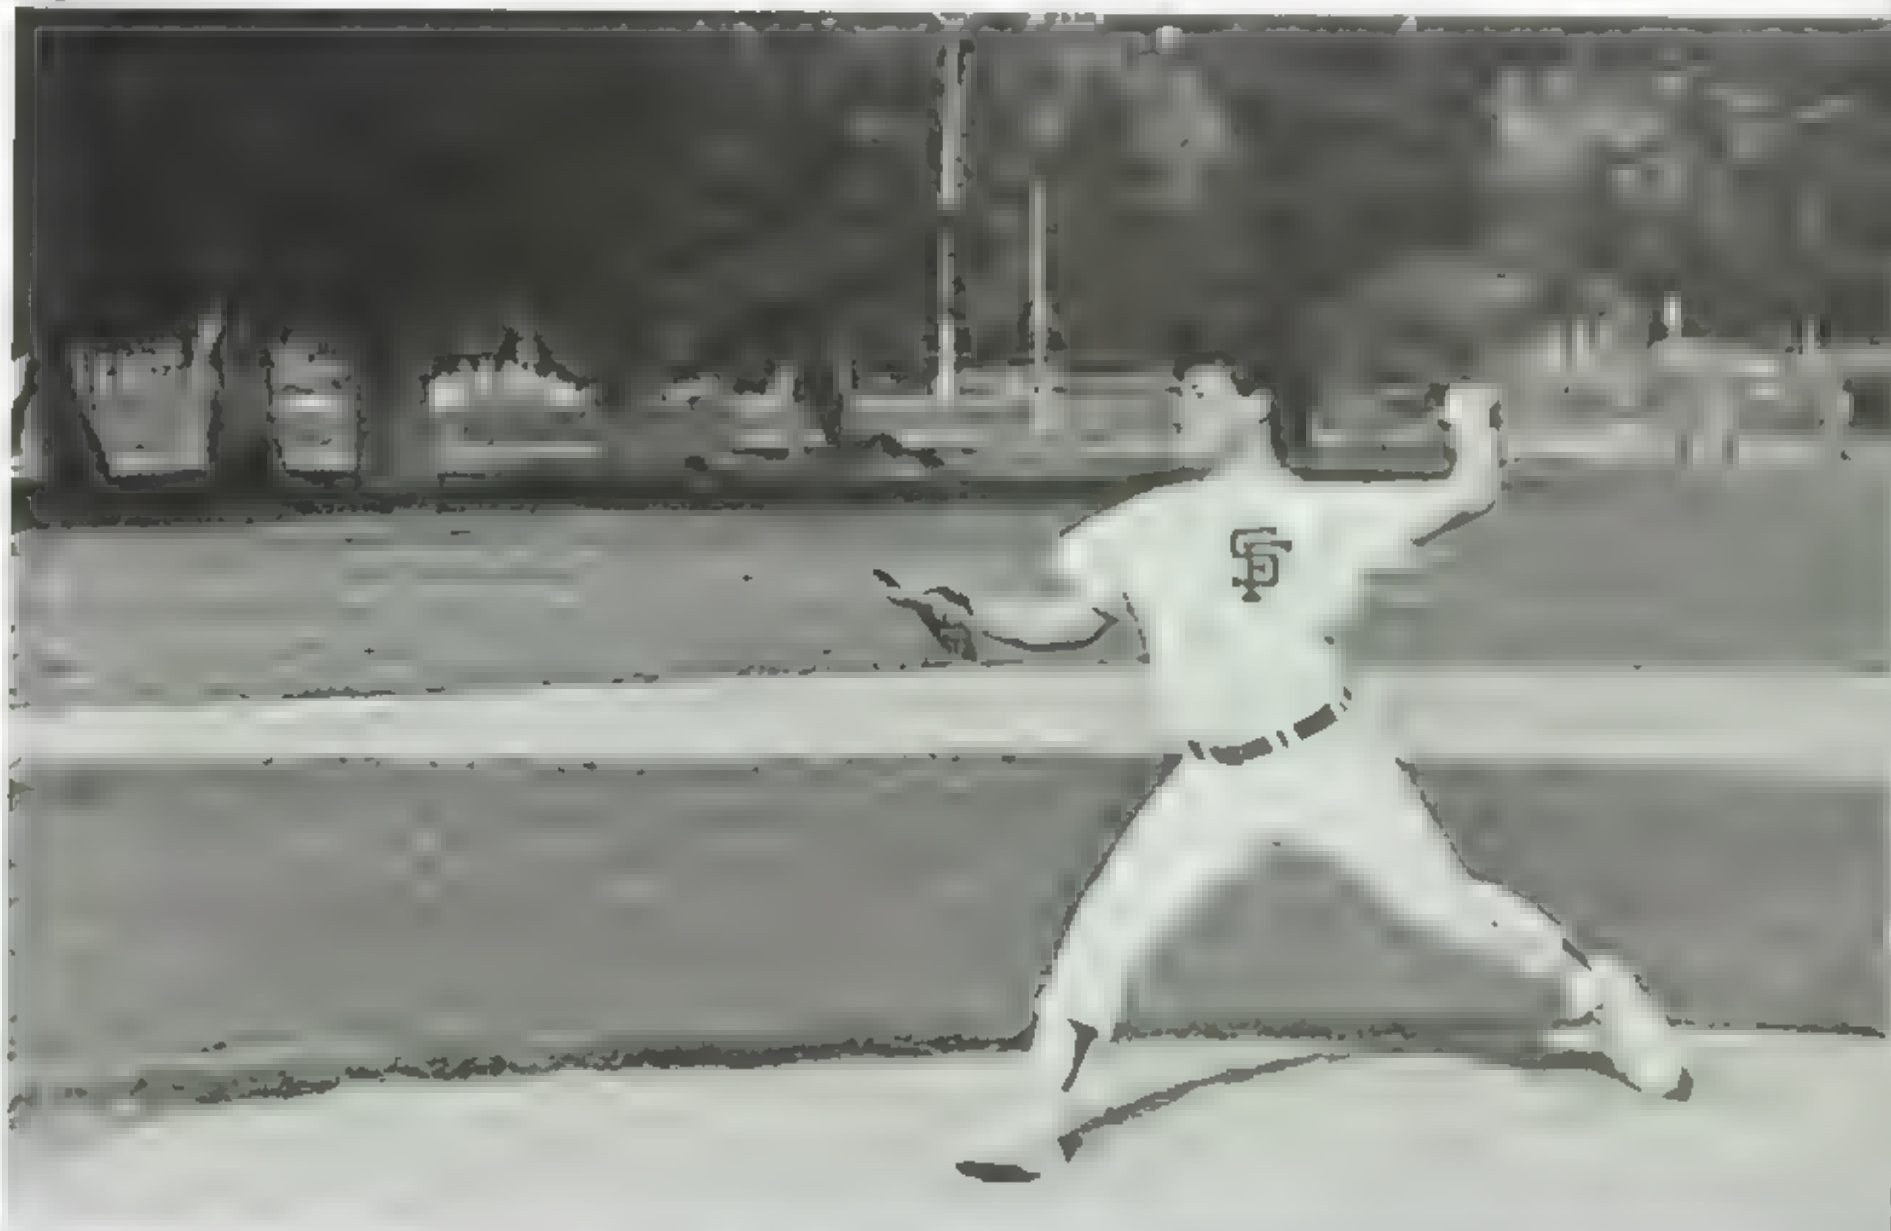

With the addition of period seven classes, baseball players are able to work out during the fall and winter seasons to stay in shape. All three teams will practice together more often this year. This is an attempt by the coaching staff to improve the baseball program at St. Francis. Coach Lund believes his team will benefit by working out with the varsity team.

The club is filled with players off of the frosh/soph team, and the veteran infielders must fight for their position on the starting lineup. However, he will be looking to Thomas Pescatello, Timothy Pescatello, Manuel Fernandez, and Matt Jones to lead the club.

As the season begins, he believes Alemany and St. John Bosco will be their chief opposition, but the Golden Knights will be up for the challenge. Coach Lund and his crew will be out playing for the Del Rey League title. "With the talent we have, we shall capture the league crown."

Shortstop John Roberge feeds Stephen Murphy the ball to begin a double play.

Thomas Pescatello fires a fastball in for a strike.

Frosh/Soph Baseball Promising Potentials

by Daryl and Warren Banta

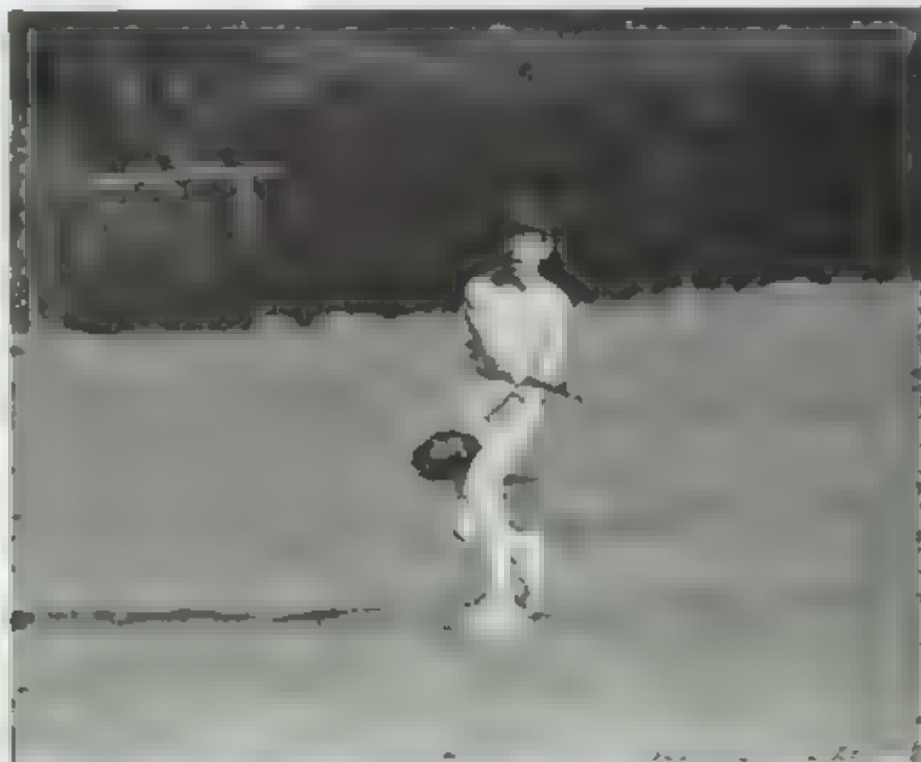

The Frosh/Soph baseball team was composed of many promising players. The team learned to work with one another and developed a deep sense of unity. Each member expressed excellent leadership, determination, and admirable baseball skills. Hidden talents among the players were discovered as they gained the experience and confidence that comes with participating on the SF baseball team. The team had a tough and very competitive; however, they played hard and lived up to everyone's expectations. Hopefully, the team will continue to excel and provide potential varsity players for upcoming years.

Brady Polchow makes a great stop in the outfield.

Paul Gomez throws a shot to home

Varsity and JV Golf Always a Winning Tradition

by Michael Klaric

This year's golf team will have much to overcome. They have last year's amazing precedent of winning the league title with a nineteen win and two loss season. The team lost some key players to graduation, and it will face some strong teams on some rough courses this year. However, with some tough perseverance and the guidance of Br. Bernard, they can pull through with another spectacular year, and Br. Bernie can be thrown in the pool again.

As usual, the Del Rey League will be hard to conquer. Br. Bernie has coached the golf team for over twelve years and feels that the league is as tough as ever. Many courses are far away. Others are on private country clubs and are therefore not available for the team to practice upon.

Golf is the individual's sport. The player plays against the course and himself rather than against another player. Concentration is the key. He must make accurate predictions and be able to control himself to succeed. This is the winning combination.

Golf is an expensive sport, both in time and money. To excel in golf, one must commit oneself to practice almost every day. A basic set of clubs can cost over a hundred and fifty dollars. "Golf is not exactly a sport that favors the upper echelon, but with public courses and other such things now made available to the average person, it can be enjoyed by almost everyone," says Br. Bernie, who recommends that those who are interested in golf get a beginner's set and get out there and hit a few balls around the driving ranges.

The golf team is often overlooked, but it puts in countless hours of practice. The competition to make the team is very tough, and the practices and the matches are many. The game demands rigorous mental concentration. "People think that golf takes no talent," complained varsity player John Chung.

Some of the standouts on the varsity team are returning juniors Daniel Ingram, John Chung, Patrick Tarnay, and returning senior Patrick Caraher. Other players are seniors Brian Karadezian, and Austin Heberger, and junior Eric Henkels.

Br. Bernie has been grooming the JV team for the varsity level competition. The new hotshots are sophomores Brian Dotson and Terry Brice, and freshman Todd Jennison. Other students that are trying out for the JV squad are Chad Fuller, Matt Hydar, Scott Jackson, Joel Johnson, Kevin Kalaba, Andrew Pawlek, Andrew McDonald, and Anthony Blasi.

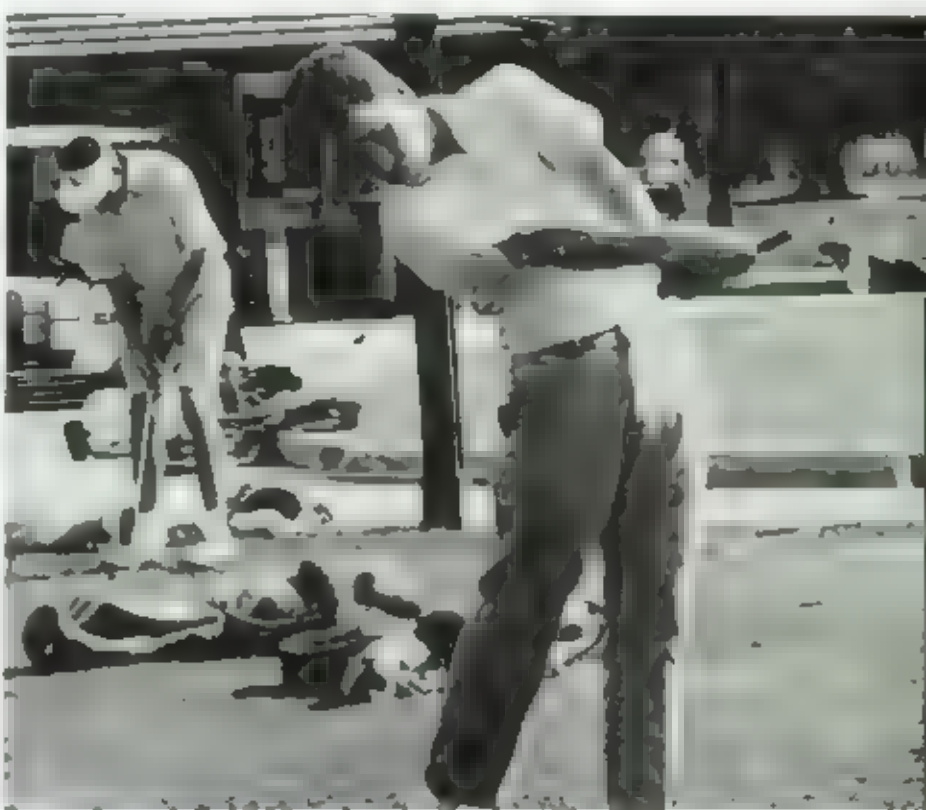

The outlook is bright for the golf team. "I think all in all, we should be pretty strong; we'll be respectable," quoth Br. Bernie. With the momentum of last year, a bunch of great players, and the inspired guidance of Brother Bernard, the teams will once again top the Del Rey League.

Varsity Track Able to Compete

by Robert Legare

The 1988 season was the first in a long time that the varsity track level has been able to compete. In past years, many events were forfeited because of low participation on the varsity level. This year's varsity squad was, however, last year's JV Del Rey League champions.

Coach Harris's attitude toward the varsity team this year was "enthusiasm." "It's been quite a while," says Coach Harris, "since varsity has been able to compete." Although all the pressure is on him and the varsity team, he says that he's not worried. However, he says that there will be tough competi-

tion against Crespi and Notre Dame.

He really could not say who was going to be the best in the varsity team, but Brian Rodriguez, David Beaudet, and Allen Freeman are expected to do well. There are many others, however, who will make a difference for the team. With the runners on our side, the Knights have an excellent chance.

Loyola has undoubtedly always put out a good team "because they never miss practice," laughs Coach Harris. But he is not worried about Loyola's team. He says that their runners will be surprised at how well the Knights will run.

Manuel Bravo looks ahead at the jumps he must complete as fast as possible.

Douglas Nilsen takes to the air as he exhibits his flawless form on the pommel horse vault.

Richard Wheeler displays his famous form in putting shot.

Benjamin Johnson strives to do his best in the long jump.

Defending Champions Show Their Pride

by Warren Banta

As the 1987-88 school year must come to an end, so too must the sports season. But this year's junior varsity track team kept the St. Francis school spirit alive on the track and in their hearts. Last year under the brilliant leadership of Coaches Harris, Johnson, and Mahedy, the JV squad was able to win the Del Rey League championship. This year, the dedicated team members fought hard to defend the highly sought after league crown. Every single athlete gave his utmost effort, whether he was running sprints, jumping into a sandpit, or flying high over a metal bar. The Knights strived for only the best at each meet and practice; the coaches could not be any prouder or any less happier with this team. It was no surprise that they were feared and respected by their opponents. All in all, the JV team showed outstanding efforts as team members, and they all kept the St. Francis pride alive once more

Varsity Tennis

Everything to Gain

by Gilbert Jurado

Coming back from an unsuccessful season, these Golden Knights have the talent and the pride to make the CIF playoffs this year. With last year's record of 3-12-1, the Knights have nothing to lose and everything to gain.

According to Coach Mercado, the team was basically beat last year. His hope for this year is to make the playoffs. With the incredible returning talents of Brian Davis and Morgan

Henderson, this goal should not be a hard one to reach.

As this year's team is about to get underway, most of the team is very young. Consisting of mostly underclassmen, the team has only one senior and two juniors. Even though one really has to be a talented player to be active in this sport, the average players in the lower classes should form a talented team that you should keep an eye out for in the future.

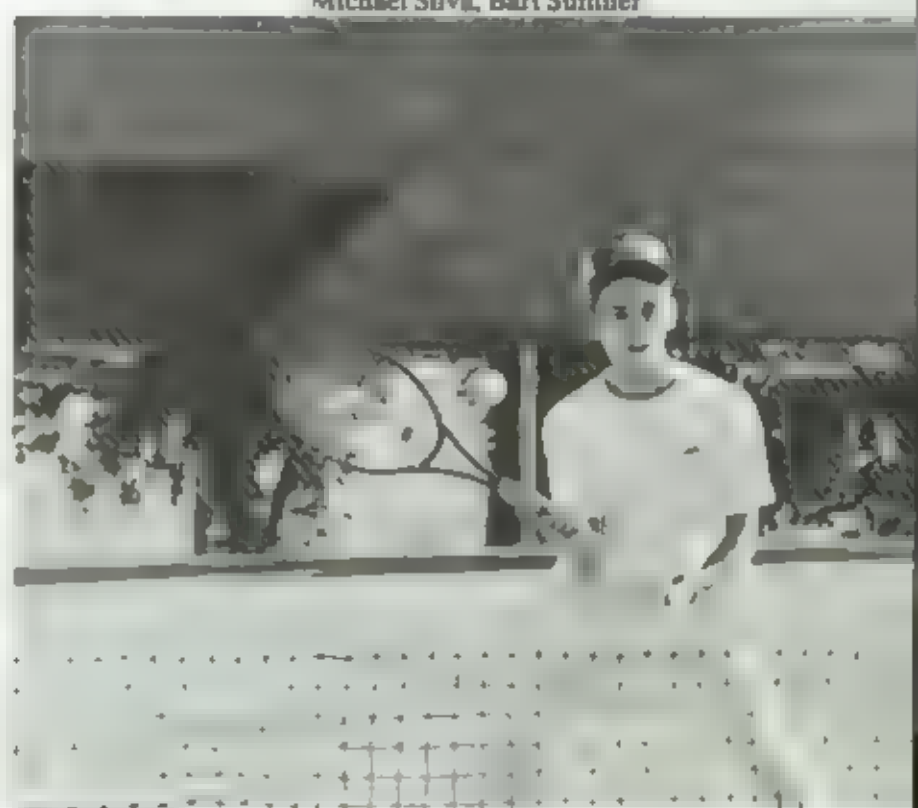

Brian Uballez makes a backhand during practice.

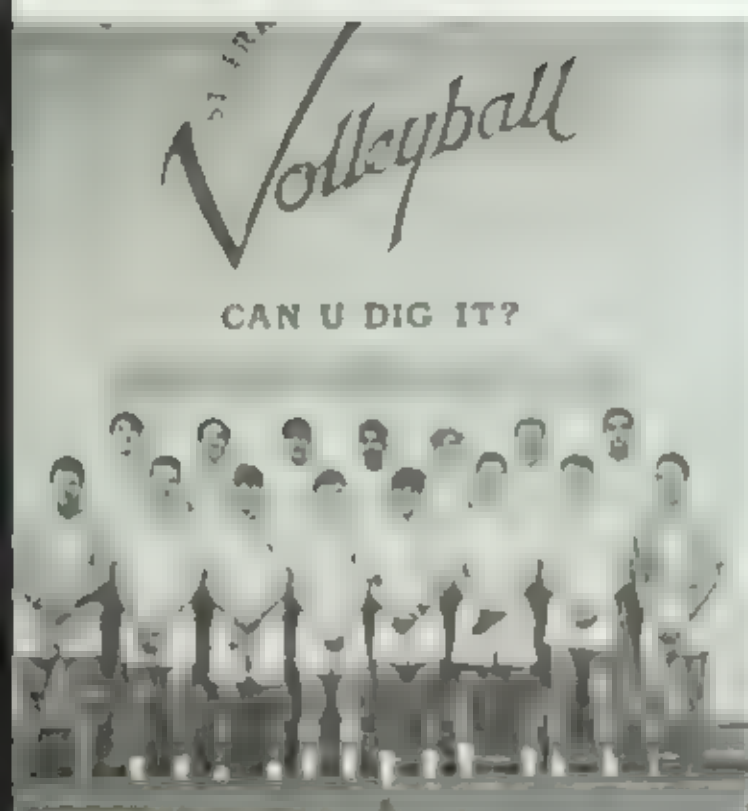

TOP-LEFT TO RIGHT: Morgan Henderson, Andrew Rivera, Brian Uballez, Mr. Mercado, Coach, Laszlo Muhl, Brian Davis, Pat Zalamea. BOTTOM-LEFT TO RIGHT: Santiago Torrijos, Vu Duong, Eric Gregory, Michael Silva, Bart Sumner

From the baseline, Vu Duong hits the ball to fake out his opponent.

Andrew Rivera completes a volley

TOP ROW: Brian McDermott, Jeff Polito, Steve Zadravec, Jay Pinto, Wesley Mann, Tom Dunn, Mike Soliman. BOTTOM ROW: Head coach Peter West, Tom Fell, Robb Havassy, Brendan Kavanagh, Aaron Villegas, Chris Escamilla, Matt Colborn, and assistant coach Mike Matthews

Can You Dig It?

by David Gelfuso

A new addition on the St. Francis agenda for athletic activities is the volleyball team. Thanks to a strong effort by Tom Preston, the Athletic Department, and the Booster Club in getting the program under way, the Golden Knights have another team to aid in the quest to conquer the Del Rey League.

The two men who can be given credit for leading this new team are Peter West and Mike Matthews. These coaches have the pleasure of working with and molding several young men into a competitive and thriving force. Mike Matthews is coaching the junior varsity team, consisting of freshmen and sophomores. Peter West, with the assistance of Matthews, is heading the varsity team of juniors and seniors.

It is true that the St. Francis volleyball team is new and relatively inexperienced, but most of the other Del Rey League teams are also young. With the exception of Loyola, which has been very active for several years, the other schools are in their first or second season. Taking this into consideration, SF has the potential of reaching great heights.

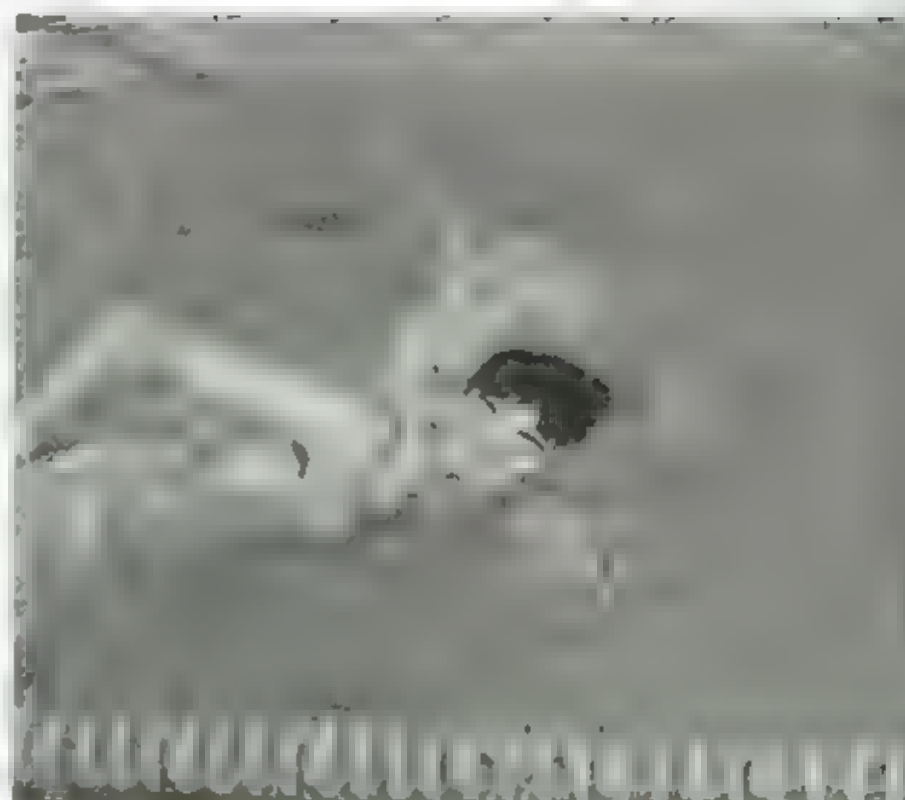

Even though the coaches are striving to do well in the Del Rey League, they are extremely concerned about building a solid foundation from which the volleyball program can grow in the near future. There is no doubt that this new team will excel and continue to bring new spirit to the SF Golden Knights.

Swimming Makes a Big Splash

by Orestes Martinez

Swimming returns with added depth and new talent. Developing the new talent was first year coach Matt Smith. Coach Smith was the most dedicated coach many of the swimmers had ever encountered. He was always there to work his swimmers into shape pushing them to unthinkable boundaries. The "Aquaknights" had a CIF crown in their destiny. Returning stars from last year were Del Rey Medalist Todd Yench and Tony Brown. They were joined by Ted Sivalon, Jeff Fiaola, and Walter Roman to lead the team toward medals and CIF playoffs. This year's team was so successful this season because of its new depth. Coach Smith felt that the strength came not only from the leaders but also from the many other workhorses on the team such as varsity seniors Jerry Neglia, Greg Krappman, Ric Arthur, and Ernie Gritzewsky, juniors John Castinera, Jason Downs, and Jason Sommers, sophomores Evan Foong Chong, Brad Wheeler, Brian Bell, Bart Sumner, and George Gund, and freshmen Brian Nichols, Alfonso Velasco, Chad Sommers, and Paul Natividad. The swimmers worked out in the morning at Blair High and for two to three hours in the afternoon in the indoor pool at their home facility, the Pasadena Boys Club. Dedication and hard work were the key to their success. The whole program was determined to match and even better last year's success. Vigorous training, combined with spirit and volunteer aid helped this year's team in strengthening the swimming program at St. Francis.

Waterpolo Comes to St. Francis

by Michael Klaric

Against great odds, waterpolo has come to St. Francis. With the leadership of senior Tony Brown, who really pushed the team into existence, they have established themselves as a tradition that will continue at St. Francis.

The season promised to be a challenge to the team, but under the guidance of their knowledgeable coach, Matt Smith, and perseverance and practice, the team had an impressive season.

The first games were hard on the players, who had had little practice. Nevertheless, they stuck it out and by the end of the season, the chalked up some impressive blowouts over teams like Salesian and Paramount.

The players and coach will go down in the annals of St. Francis history for their part in the establishment of another S.F. sport power, something of which they should be proud.

Steve Lewandowski swims past an opponent in an effort to gain position.

Alvernian Sportsman of the Year

The Man With Many Talents

by Todd Barnes

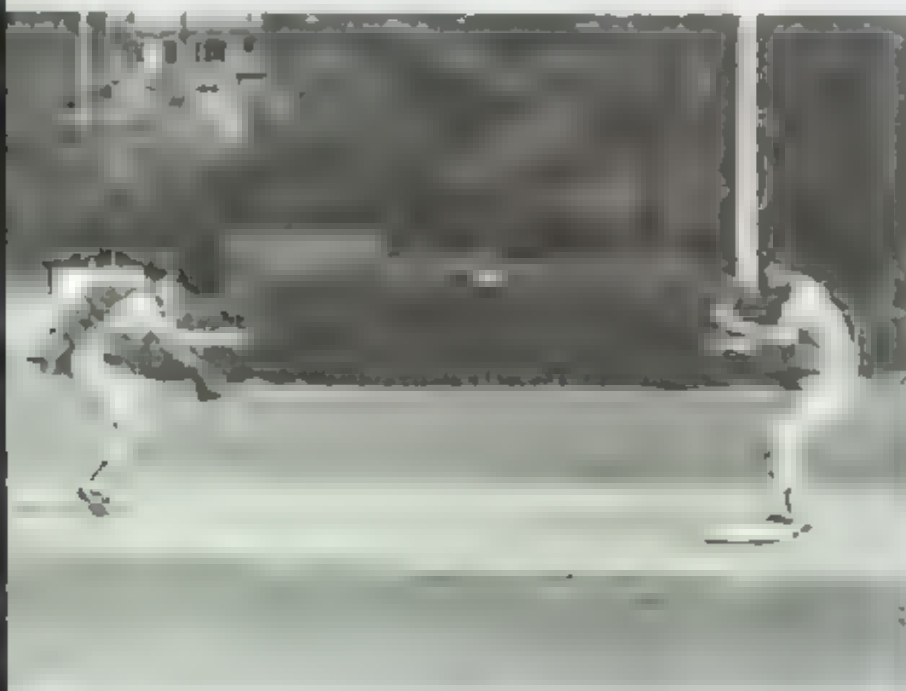

Bill Morris will be remembered here at St. Francis for many years to come as a senior, he lettered in three varsity sports: football, baseball, and track. Here are just a few of his major accomplishments when he played football at St. Francis. He was the MVP of the varsity football team, All League Back of the Year (even though he was quarterback), *Los Angeles Times* Offensive Player of the Year in the Glendale area, the *Glendale Leader* Offensive Player of the Year, and made the Del Rey League First Team. As a member of the football team, Bill started on both offense as a quarterback and on defense as a cornerback. He had nine rushing touchdowns for 350 yards and seven passing touchdowns for 1111 yards, for a total for sixteen touchdowns and 1461 yards. Bill stated, "Going into the season, I didn't expect to do half as well as I did." As a quarterback, Bill Morris became very confident in himself and his receivers. He said, "At first you were too scared to throw the ball, but in the Burroughs game, the fear didn't seem to be there, I had great confidence

in throwing to Jerry McGee and Tony Snow and knowing that they would catch the ball."

In Morris' junior year, he went out for the soccer team "just for the fun of it" and made the team as a fullback. Bill went out for track to condition for baseball.

However, even though Bill plays many sports, he is most famous in playing baseball. He said, "Baseball is my best sport by far." Last year as a junior, Morris started the varsity baseball team as a shortstop. He led the team in home runs with three, RBI's with 25, and batting average with .400. This year, he hopes to head the team again.

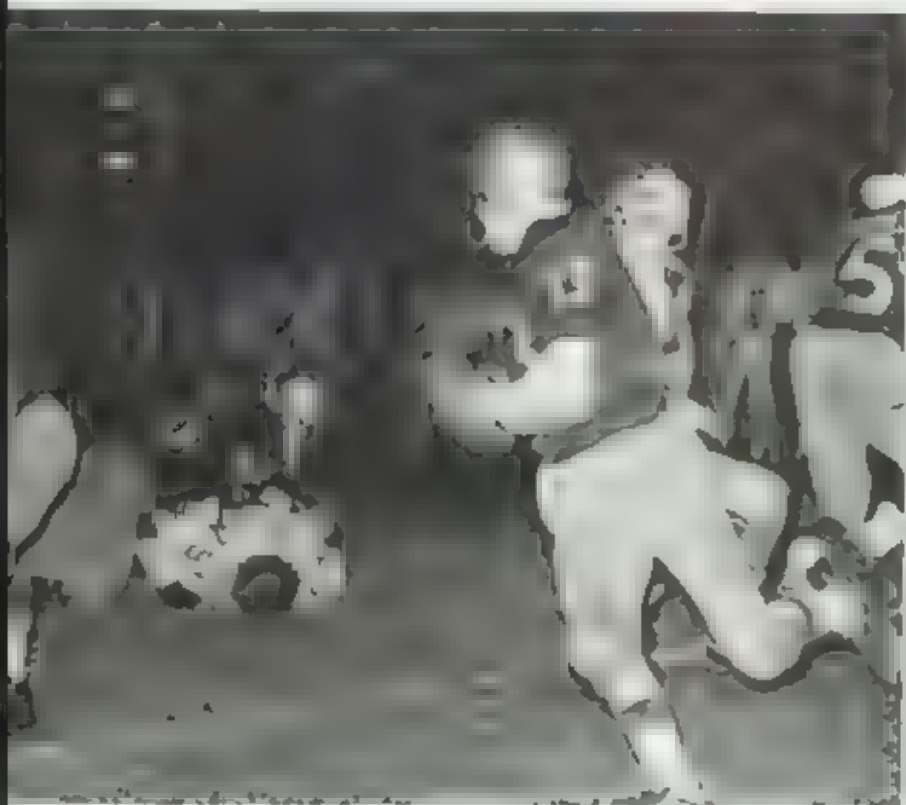

Bill hasn't applied to any colleges as of this deadline (February) however, he plans to go to either USC or LMU. His goal in life is to play professional baseball. Good luck, Bill! S.F.H.S. will be behind you.

Bill Morris flips the ball to Mark Loretta for a double play

After making a nice play at short, Bill completes the play by throwing to first.

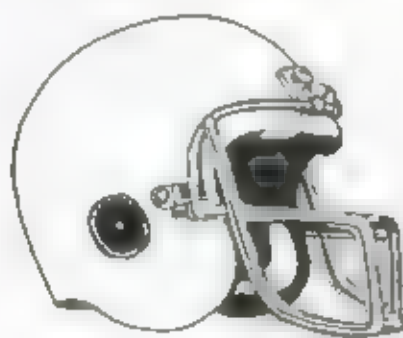

As quarterback, Morris scrambles to find an open receiver

Student Body Leaders Work for a Stronger Future

by Bill B. V. L.

When I'm in a meeting, I usually find myself thinking, "This is so predictable. But I can't help it. I'm just a hot shower, just a ready to go off too quickly, and when I'm in a meeting I could swear I hear, 'Steve, why can't we have these meetings in five minutes?' But the meeting is never over."

7:00 A.M., Tuesday Morning The Dead Rise!

by Phil Bonoli

My name is Detective Burns. The editors of the Knight Breeze created me last year. Yea, I had to interview Mr. Moran and Br. Bernard.

Anyway, I was asked by Philip Bonoli to take time off from my job and come to look to you about the Knight Breeze. Since I owe him my life, I said, "Sure, why not." So here I am.

Things are different now down in the Knight Breeze Alverman room. The walls aren't covered with Tarka the Otter posters or girls with fat thighs and ved low teeth. But

Post: "hey Burns!" a voice called out. "Look about the Knight Breeze staff and report the room you're in!"

Yea yea I was just coming to that, I said.

Well, as I was saying the room looks different.

It all started with the cancellation of the annual Big Bear trip during the summer. It was kind of sad — so many staff members began to cry when they found out about this. But their spirits were restored when all Knight Breeze members were required to take a journalism class during the school year. Yea, you should have seen the smiles on their faces! On Monday, and when they found out that class meetings were scheduled for period 6 on Tuesday mornings and the 7th period Friday after school, they couldn't stop their happiness. This class turned out to be beneficial since it taught us a lot about our latest writing. Together with the knowledge of our moderator, Mr. Paul Reed Aragon, the staff earned perfect rent.

Anyways, at the beginning of the 1987-88 school year, a

problem arose for the Knight Breeze editors — a very limited staff. Philip Bonoli, the editor-in-chief, came up to me on my first day of school and asked me, "Burns, I'm in trouble. I need staff members. What should I do?" Poor guy, I felt sorry for him.

Why don't you, ah, recruit some staff members," I answered him.

"Yea, that's it," he said as he shook my hand. "Thanks, Burns."

So Philip, along with his associate editor, Keiri Custodio, and the news editor, Steven Zadravec, issued applications for the Knight Breeze staff. As a result, twenty-five students applied for positions on the staff. All of them were accepted.

"Let them about the newspaper," the voice called out again.

Well, the paper has undergone some changes also. The most important one is the layout design. The editors developed a new design for the cover page that has received many praises. New article topics such as outstanding student athlete, volunteer of the month and a monthly poll have also been developed.

The goals for this year's Knight Breeze were to publish seven newspapers during the year and to train a large staff in order to continue the tradition of excellence that is a part of the Knight Breeze.

Well, that's it, bye!

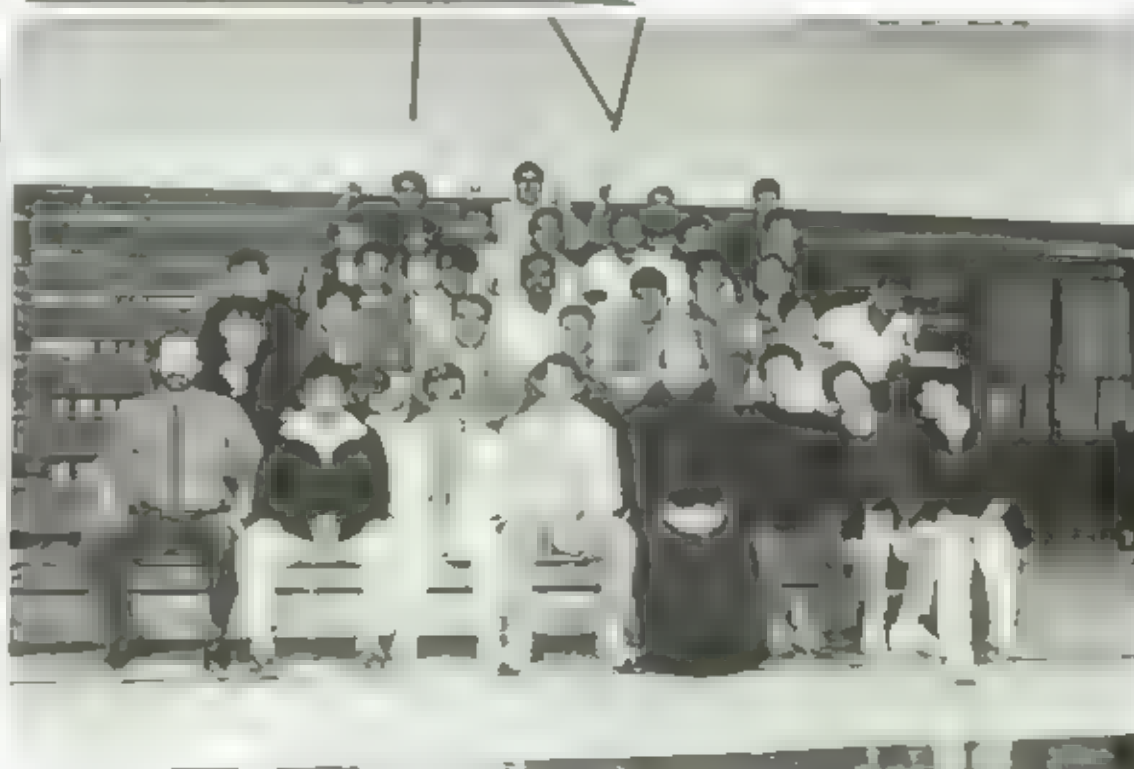

Editor-in-Chief Philip Bonoli hacks away at the IBM with warped enthusiasm. "Who wrote this article?"

Junior Class Cabinet: An Experiment And Success

The world lives off ideas, and experiments. In fact, they are needed to progress. Science and engineering of them there have been innovations and modifications. Such was attempted this year at St. Francis. The junior class created the French Class Cabinet, a student government, and a student council. The school

talk to

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. Next, it is important to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. Once the information is gathered, the next step is to develop a plan or strategy to address the problem. This may involve breaking the problem down into smaller, more manageable parts.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress along the way.

5. Finally, it is essential to evaluate the results and determine whether the problem has been successfully solved. If not, adjustments may need to be made to the plan.

"The name" of Jacksonville State Hospital

Habib Balian, Todd Yenche, and Edward Klem all catch air.

Club Close Up: Rowdy Rogues

Many students and faculty members often ask, "Who are those gold sweatshirted men on campus?" The answer is the prestigious members of the St. Francis Rogues Gallery. The Rogues Gallery, a distinct extension of the Pep Club, is exclusively for seniors who possess unique qualities and characteristics. A distinguished Rogues member must be chivalrous, daring, daring, ruthless, cunning, determined, dedicated, fearless, and sometimes a little insane, but always remain loyal to his Alma Mater, St. Francis High School.

For the 1987-1988 school year, Michael Williams is the president of this infamous and influential society of knightly men who insist on making their presence felt by all. Their charisma and unparalleled qualities are responsible for their individuality and success at all tasks undertaken. As many have noticed at football games and other sporting events, the Rogues have on occasion been forced to act contrary to popular opinion, but in the end they reign supreme. The Rogues Gallery has, and will continue to have, the blazing torch of St. Francis's almighty tradition.

by Habib Balian

This year's debate team definitely missed the expertise and finesse of Mr. Joe Brittain, their former moderator. However, in spite of this great loss, two veteran members, unwilling to accept the demise of the debate team, accepted the challenge of rebuilding the club. They first found a moderator, Mr. Rick Settle, who was ready and willing to give his all. They then sought out a team of fifteen zealous members, eager to spend long hours in preparation for competition. The 1987-1988 Mock Trial Team consisted of two juniors and thirteen seniors, seven of whom were veterans. Habib Balian and Mark Wynn led the defense while Michael Williams and Gregory Krappmann headed the prosecution. Witnesses were Benjamin Boychuk, Mark Valentine, Eric Hovland, Abe Recio, Ed Klem, James Ferro, David Sutherland, and Stephen Mao. Robert Brown was the faithful bailiff. Our legal advisors, criminal attorney Mike Udovic and the honorable Judge Ernest Williams devoted much time, effort, and priceless advice.

This year's team advanced to the finals and was ranked in the top ten in Los Angeles County. However, this did not satisfy the team because they knew that, although they had received some bad breaks, they were capable of going all the way. They seemed to miss that unknown key element that only Mr. Brittain had been able to offer. Nevertheless, all in well that ends well because in the process, team members gained much legal knowledge, experience, and had a lot of fun!

Quest to be Published . . . To hell and back!

by Bill Moran

Every year there are a few men at St. Francis who, by choice, raise their blood pressure and create stomach ulcers in order to publish the yearbook. This year's book, Knightquest, is no different. Everyone knows at the beginning of the year what they must do. Along the way, a few will be booted off the staff because of ignorance toward cooperation and lack of team work, and that's too bad. But this copy block is not going to tell you about those people.

Let's talk yearbook lingo. Right now you are reading ten point solid Times Roman type. Using TypeVision®, a mindless (and well appreciated) computer operator types in this copy while keeping in mind type styles, block size, spelling and grammar errors, index markers, copy fitting, and the fact that it is probably 1:03 in the morning.

Before this even happens, some other masochistic lunatic must create the layout for the page you are looking at. He must keep in mind captured white space, close registration, eye flow, caption space, and type size, but must also remember that form must follow function and make sure that it is still artistic and unique from the other designs in the book. All of this is done with the help of such things as a pica ruler, a Tech-Cropper, grease pencils, and Magic Bunny Juice on a 106 by 71 grid of little pica squares with a pen over multiple carbon copies — without making any mistakes!

This is all lots of fun and can take hours or even days. The really tough part of this is that we, the Alvernian staff, must take care not to offend anyone in words or in pictures for they might sue the school, the publisher, the moderator, Stephen, and yours truly.

With all of that out of the way, I would like to welcome anyone who wants to join next year's staff to not be afraid when sign ups come around. The only requirement is that you be capable of cropping a picture because Fish won't do it any more.

RY TOP: There he is, Bill, half of the Dynamic Duo. Where's Steve? (Writing this!) ABOVE: The ma Kosmic Crusaders, or the (part a) Alvernian staff. (Look, Gerry, no pictures of me on this ge. I can write anything I want in a caption as long as it no rude. So, over there on the right is Fish, Chris. He thinks he can dance — Ha! I'm probably gonna get busted for this but you only live ce and it's 12:30 a.m. and I have finals manana! What dedication! What drive! I'm destined for teess.

The Vampire Picnic

Knight Blood Drive Takes Off

by Joseph Molina

Brian Rodriguez bravely takes the needle.

Joseph Garofalo and William Morris feel woozy after a 'stressful' blood donation.

Blood, necessary to all. St. Francis High School once again had its annual blood drive. The plea went out once more for the life giving red substance. The student response to the drive was overwhelming. Nearly all of those eligible found it in their hearts to give what they could.

The administration made it possible for the students to get out of class to donate their blood. The high level of participation in the blood drive was not something new, however. As in years past, the student body gave a record response. St. Francis holds the record for the highest percentage of students giving blood. The students' ability to give when it is needed is one of our strong points.

This tradition of giving will continue through the years. Some of the donors went into the gym and came out feeling better. Others went in and though feeling a little lightheaded, they still felt better for the experience. Many students came out lightheaded and enjoying it, walking back in class, showing off their bandages, and asking the fellow students why they were not giving blood well. Because of these people, another would be able to live longer.

It is not painful to give blood. In fact, it is even good for you. It makes your body make healthier and stronger blood cells. Contrary to many myths, it is impossible to contract any disease whatsoever from donating blood. You can only help by giving blood. Don't be scared or selfish. Give blood.

The Kairos Experience . . . Positively an Encounter

by Steve Brady

If one is going to write about Kairos, it has to be from a personal point of view because Kairos is a very personal experience. At first I was pessimistic, but then I was determined to make the best of it. I am not going to outline the methods and procedures here because that would only defeat the purpose of Kairos for future candidates. It seems to me that Kairos can be a very effective tool of remedy for young people. Many managers feel something is missing in their lives, and/or they do not know themselves well enough. Kairos can help in both of these areas. While I fortunately am not a victim of either of these, I am an excellent observer. I saw people become fulfilled and confident and feel good about themselves. For some, this was something they had not felt in a long time.

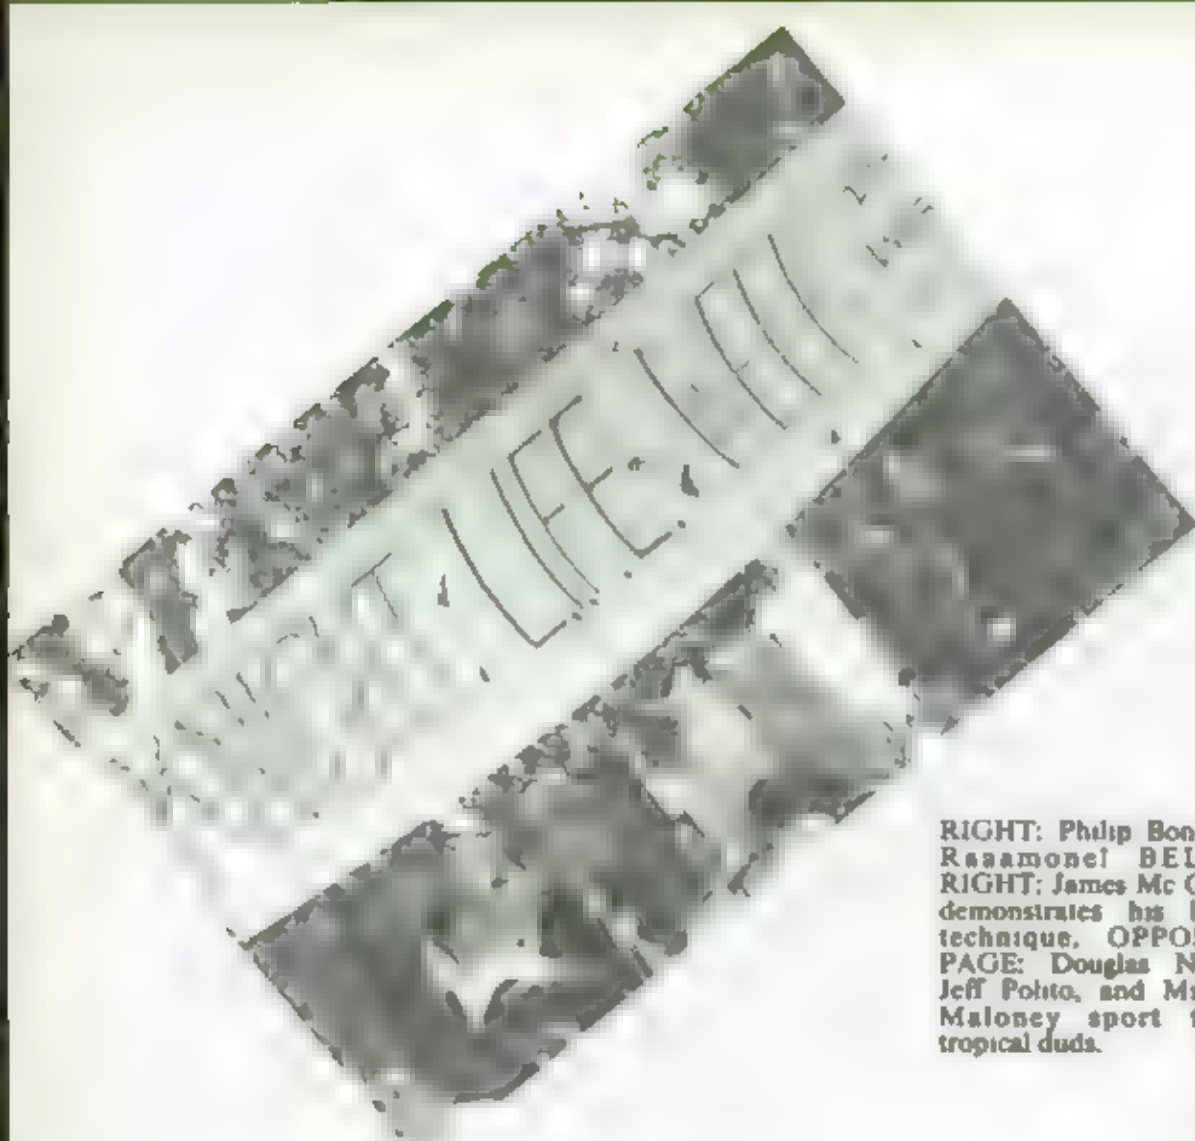

It is not entirely religious, but more on a human angle. Kairos centers on the individual and helps you to get a better understanding of yourself. It is very important to know yourself, and therefore Kairos is a valuable experience for those who need its direction.

Another definitely positive effect of Kairos is how we have changed toward one another. The people who make this retreat together form a special bond that can never be broken, and that is very special. These friendships will hopefully endure and live on forever.

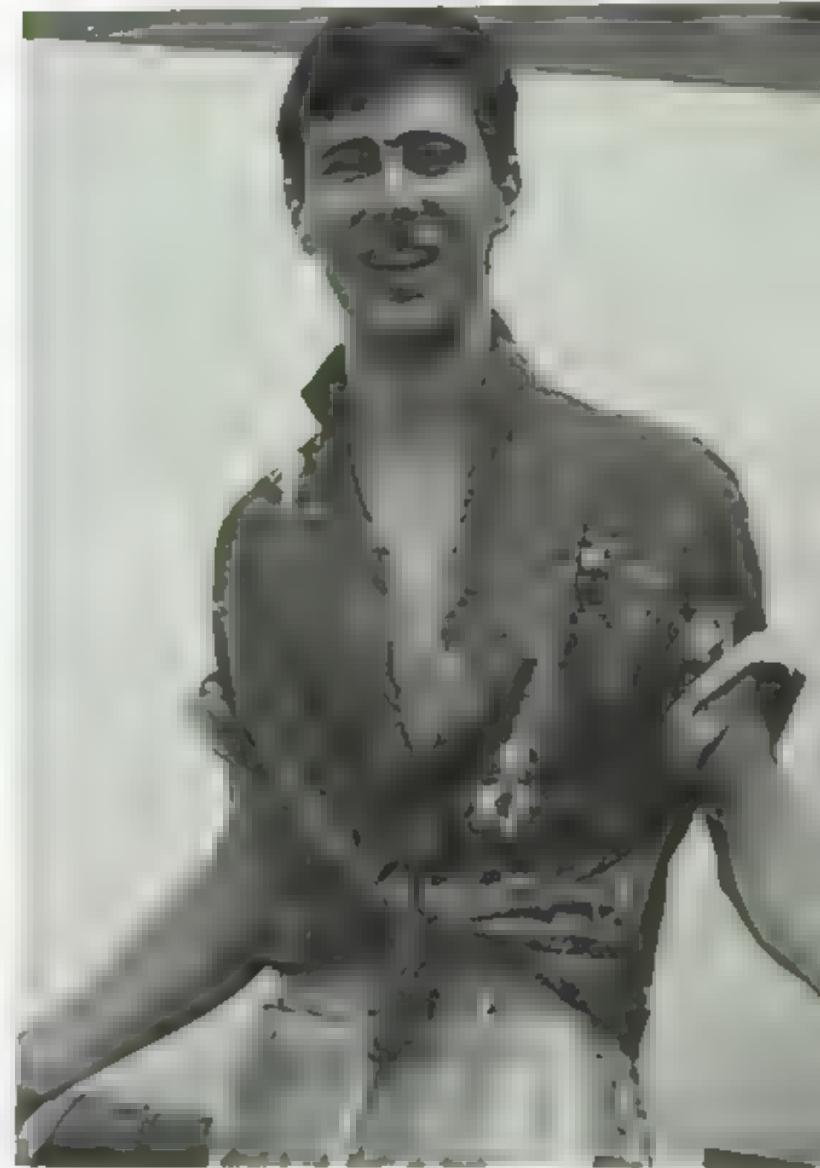

Not much more can be said without revealing details which would only hurt our Kairos experience by making it less effective. Just go and decide for yourself!

by Joseph Molina

The school was transported and transformed one autumn week. Transported to the Caribbean and the Hawaiian Islands, back in time to the old west when your gun was your voice. Transformed into the the SF faculty. Then, suddenly, not people but colors and emotions turned brown and gold.

Our first day out was one that showed our own expressions, our last blast of individuality. The school was not just a school but a gathering of individuals coming together. Evolving into difference, some the same but most not. Still others not knowing a theme and just waiting for it to hit them on the head. Everybody was waiting for the trip.

That night we all stepped into our transporters, set a course to the islands. The tropics entered our minds and took over. The sun and surf brainwashing our thoughts, the urge to dance and be happy became overwhelming. People felt the urge to walk backwards under sticks, risking injury to their backs, all in the name of fun. The colors of clothes were not grays and blacks but bright greens, reds, and yellows. But after a short day, our buzzer went off and we went back into our transporter.

This time we travel not only across space but time as well, back into the age of the gunfighters. We walked in with our vests of leather, our cowboy hats shading our eyes from the bright desert sun. No roundups or cattle drives but a showdown at high noon. The bell rang and the men went out to fight. After the smoke cleared, only one lonely man remained, turned into the hills and disappeared. Back into the transporter.

This time, the transporter alters our bodies and minds as we are transformed into the faculty, the people that prepare us for the future. Now we are them in many ways.

Then back into the transporter and we are changed again in emotions and feelings. Our eyes see only brown and gold. No words are needed. We are now one and yet still somehow retain our individuality.

Receive Honors at Banquet

Scholarships

by Chris Stelzer

Paul Yelich, George Hindman, Arthur J. Schwartz, and Jon DeVita may not be the most well known names on the SF campus, but to Anthony Brown, Terrence Mc Glynn, Warren Banta, and Francisco Rivera, these names mean a \$500 award. In case you're wondering what the connection is, these are the names of the four scholarships awarded to the most deserving students from each class. The select on committee takes into account each applicant's individual achievements (organizations, offices, sports, and honors) as well as the student's school spirit and any financial need. In addition to providing information on all these things, each applicant must type a one page essay explaining why he most deserves a scholarship. Although the winners are few, students, it is well worth the effort.

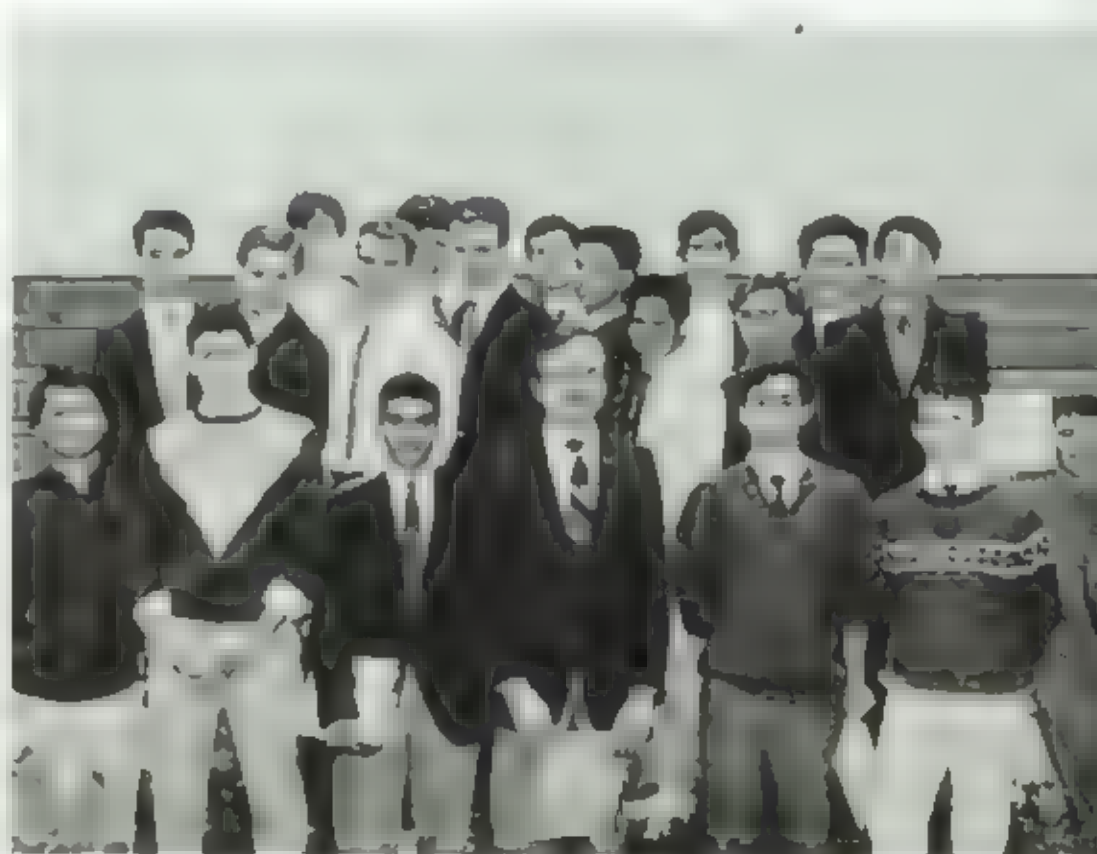

LEFT: Scholarship winners: freshman Francisco Rivera, sophomore Warren Banta, junior Terrence Mc Glynn, and senior Tony Brown.

by Chris Stelzer

A new institution was formally introduced at the Academic Awards Banquet this year by Mr. Neelan and the math department. Mu Alpha Theta, a national math honor society, is open to upperclassmen who have excelled in their math courses by achieving a 3.5 GPA. In addition to merely being honored, members of Mu Alpha Theta must also be members of the Math Club. They also compete in both the National Math League's and the California Math League's contests. With president Ed Klem and secretary Shaun Hong, Mu Alpha Theta promises to become one of SF's academic powerhouses.

Mu Alpha Theta charter members: Mills, Stelzer, Ferro, Klem, Paxual, Farkas, Hovland, Gelfuso, Krappman, Joya, Martin, McGlynn, Kiaro, Hong, Escamilla, Pinto, Mr. Neelan, Alvarez, and Lewendowski.

Mu Alpha Theta

Hall of Fame

Seniors: Michael Soliman, James Mills, Michael Williams, James Ferro, and Brian Rodriguez

Juniors: Todd Barnes, Michael Klaric, Vijay Pinto, and Chris Stelzer

Sophomores: Albert Amiana, Erik Franken, Allan Hong, Daryl Banta, Warren Banta, and Deepak Sonthalia

Freshmen: Francisco Rivera, Joseph Morris, Martin Pascual, Andrew Stires, John Anderson, and Alain Sison

by Chris Stelzer

The St. Francis Honor Roll is a testament to this school's commitment to giving its students a quality education. In spite of tough courses, each class consistently has over forty percent membership in the Honor Roll, which is open to any student with a 3.0 grade point average.

Again contradicting traditional human nature is the refusal of the majority of seniors to succumb to senioritis, the usual tendency of seniors to slack off during their final year. The highest class always has the highest percentage of membership. This year is no exception. Sixty-six percent of all seniors achieved a 3.0 or higher GPA. In comparison, forty-two percent of all juniors, forty-four percent of all the sophomores, and forty-seven of the freshmen achieved Honor Roll Status.

Another honor available to the students who rank in the top four in their class is the Hall of Fame. Because of ties in their averages, there may be more than four Hall of Famers in each class. In the senior class, James Ferro, James Mills, Brian Rodriguez, Michael Soliman, and Michael Williams achieved this distinguished honor. The junior class Hall of Famers were Todd Barnes, Michael Klaric, Vijay Pinto, and Christopher Stelzer. Sophomore Hall of Famers included Albert Amiana, Daryl Banta, Warren Banta, Erik Franken, Allan Hong, Brett Palluconi, and Deepak Sonthalia. A total of nine freshmen made the Hall of Fame after their first semester. These were John Anderson, Joseph Andreu, Donell Kelly, Joseph Morris, Martin Pascual, Francisco Rivera, Christopher Setti, Alain Sison, and Andrew Stires.

by Willy Hernandez

CSF, the California Scholarship Federation, is undoubtedly one of the most prestigious organizations on campus. St. Francis gives a new meaning to CSF. One difference of our chapter is that, as well as being an organization composed of academic achievers, the Franciscan chapter breeds students devoted to service.

As a group, the CSF, provides service which benefits faculty, fellow students, and the less fortunate. This year, as in the past, the St. Francis CSF helped in establishing the giving tree, a tree which enabled alumni and students to give gifts to less fortunate children. In addition, the organization aided in the wrapping and transportation of the gifts to the Watts community.

The CSF also spent time proctoring exams for prospective freshmen. But service is not all CSF is dedicated to. Barbeques and parties were held for CSF members, all ninety-four of them.

Mr. Neelan, chairman of the Mathematics Department, relieved Mr. Arigan, the NHS moderator, of managing the CSF this year, a prestigious job Mr. Arigan had handled for many years. Mr. Neelan firmly believes in the organization's excellence.

Being a member is no easy feat. Good grades and leadership are hard to come by. Fortunately, St. Francis has found it in the CSF.

The members of the National Honor Society pose gracefully for their Alvernian picture

by Chris Stelzer

The National Honor Society, or NHS as it is more commonly known, is perhaps the most active campus organization at St. Francis. It is also one of the most exclusive. Members are chosen on the basis of leadership, both on and off campus, and participation as well as grades (a minimum B average is required). But these are not the only requirements. Prospective members must also undergo an intense interview by members of each department (Theology, Math, etc.). Even after this interview, applicants must wait for what seems like an eternity to be told if they made it.

For those who manage to get accepted, the work has just begun. They now must participate in numerous

The National Honor Society:

A Step Above the Rest

community service activities, including a year end service project. These service projects, done by members working in pairs, may be any service designed to improve the school in some way.

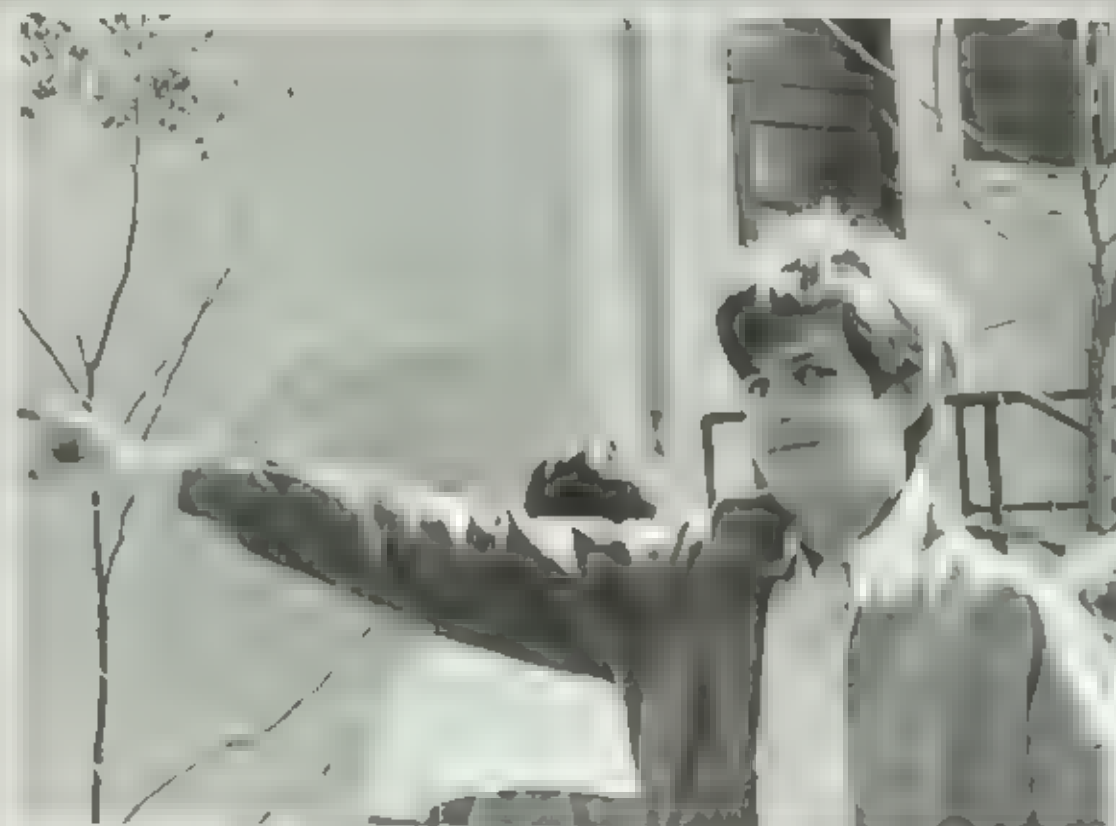

One of the highlights of an NHS member's career is the annual investiture. This highly ceremonial ritual is built into the liturgy to reflect the school's emphasis on the spiritual side of the St. Francis student. It is during this ceremony that members receive their NHS collars and pins.

While many campus organizations may be content to provide their members with only a good mention on their transcripts, the NHS, under the leadership of moderator Mr. Arigan, consistently maintains a position of leadership on campus — a shining example to the entire student body.

Gazilli, Brenner, Brady, Soliman, Stavropoulos, Polito, Knoell, Lemus, Joya, and Hong show their elation at the finish of the "exciting" NHS investiture

#1: The Valedictorian

James Mills

by Bill Moran

Every year there is a particular senior who academically stands alone. This year's senior is Jim Mills who also stands tall, about 6'3". Jim came to us in our sophomore year from the midwest. He is very proud of the fact that he was once a resident of the Lone Star State and will reply to the nickname "Texas."

On the first day of class each semester, it is a big day for Jim. Everyone in class wants to get to know him: "Sit in front of me, Jim!", "No, Jim, sit next to me."

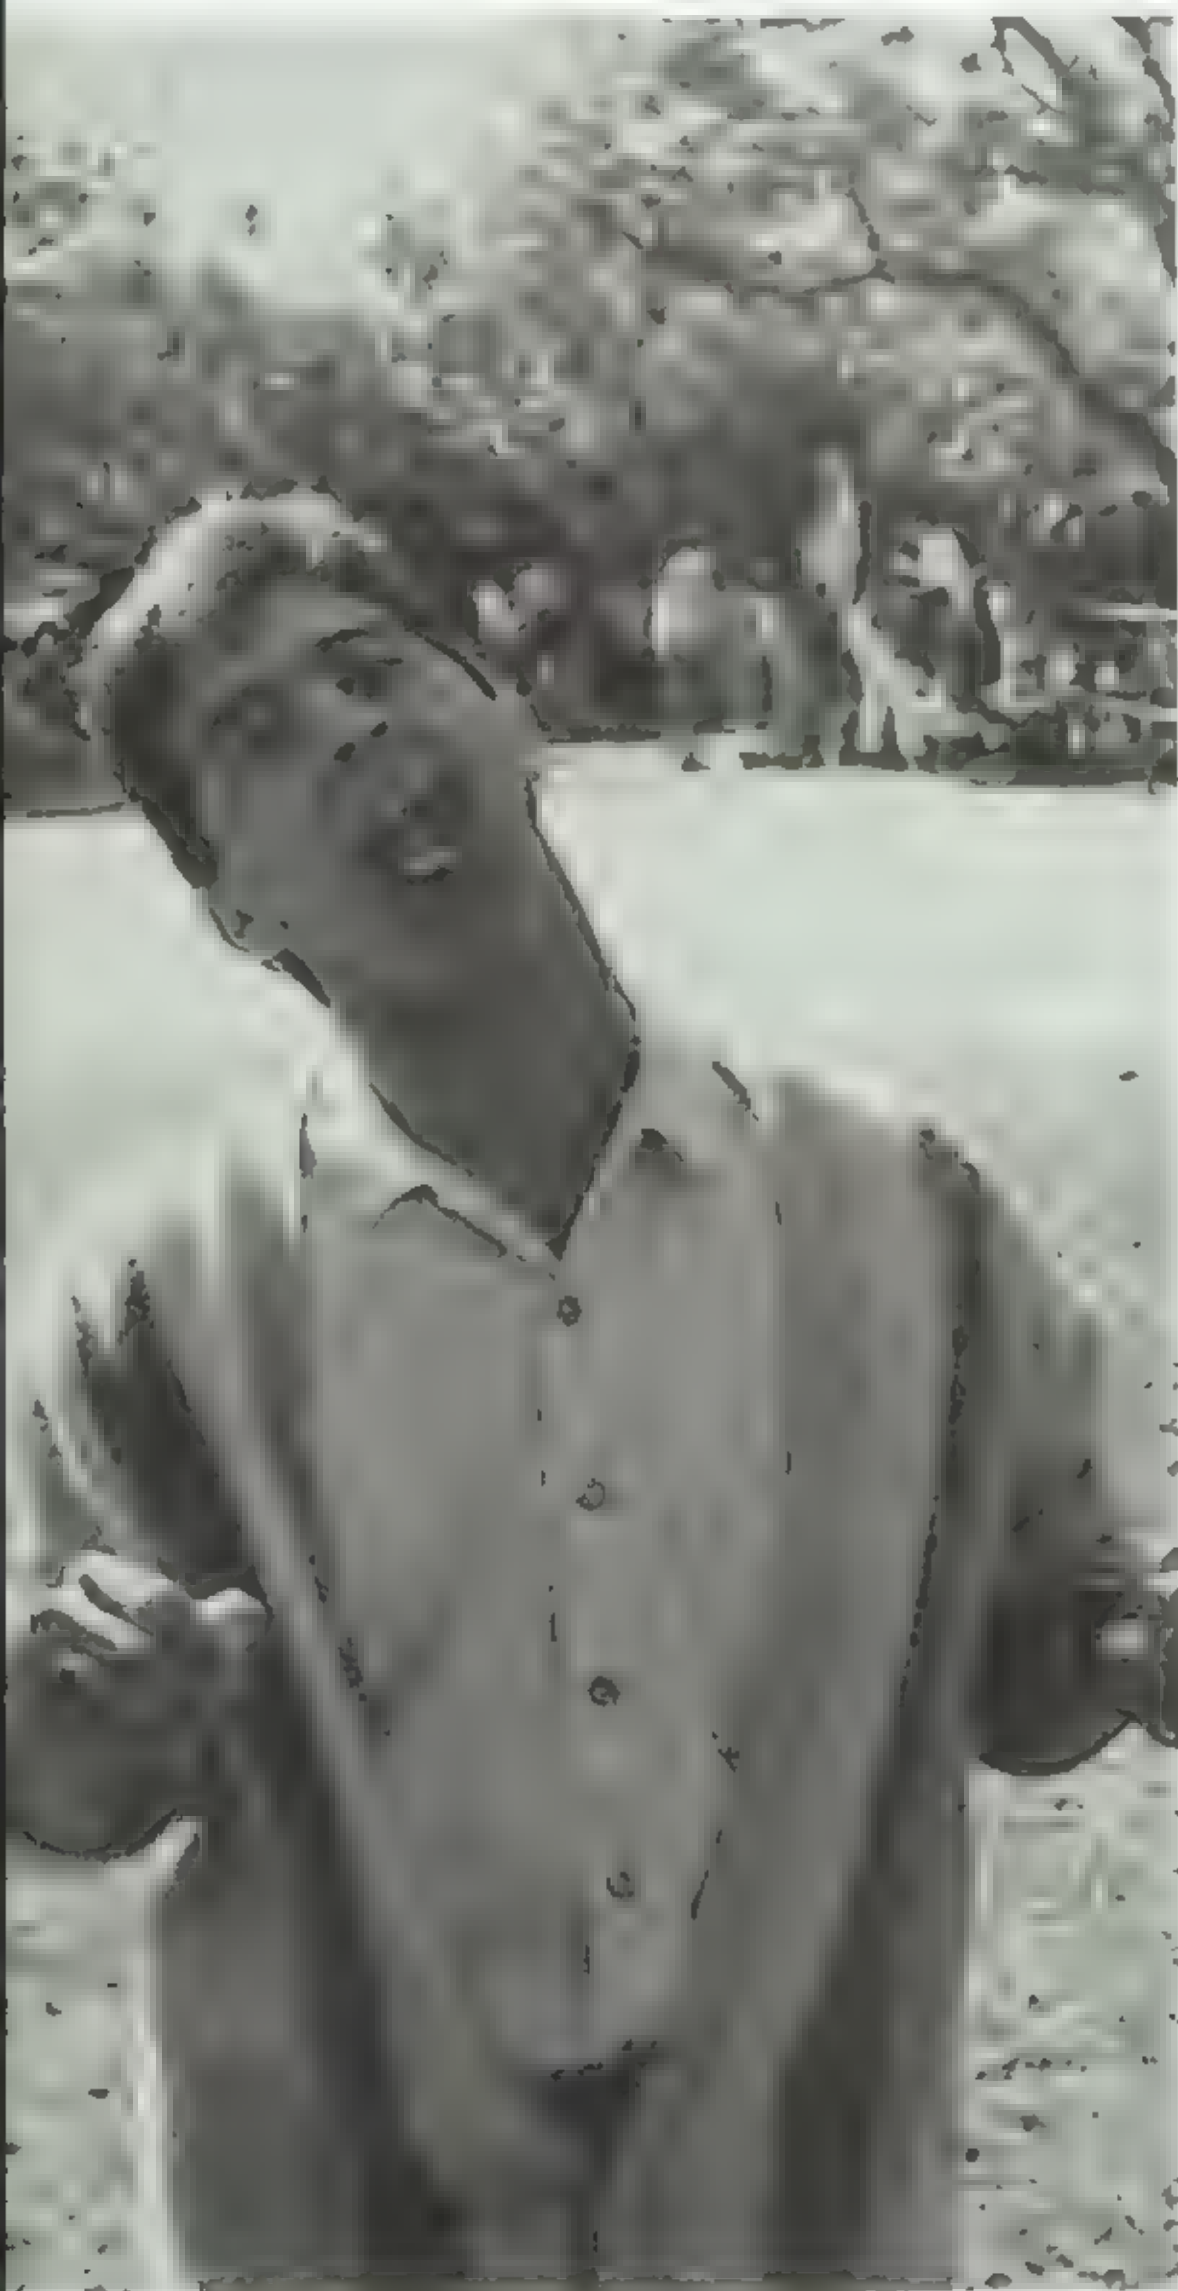

It is not easy being number one. Every day Jim is bombarded with questions of every subject: there is always a senior who does not understand something he must know for a test next period. Texas is always there with a full and complete answer, showing us what it takes to be a valedictorian.

Jim must sacrifice a great deal of his time to study after school. His classes are almost all Advanced Placement courses. Because of his consistency of scoring twenties on Mr. Moran's essays, he is strongly envied by his classmates.

On the top of the ladder in 1988 at St. Francis is Jim Mills, Brain, Golden Knight.

#2: The Salutatorian

Michael Williams

by Bill Moran

This year's runner up, coming in a very close second is a senior by the name of Michael Williams. Mike is not as tall as #1, but he can make up for this in many other areas. Mike is also known around campus, not for his grades, but for his personality and ability to cause a disturbance. A sanguine at heart, Mike is truly a fun loving guy.

Just go and ask the administration what they know about Mike, and they will give you a long, hardy answer. Both Mr. McCabe and Doc Sauter will confess that when Mike is in a good mood, the entire class knows it.

Mike, as do all other great spirits, has quite a following. The Williams' disciples, both men and women, are still being recruited. Mike is everybody's friend, both on and off campus, except of course at an away game.

Mike is extremely active on campus, not only in academic clubs, but he is also the president of the Rogues Gallery. He helped lead the mock trial participants to a strong finish after consecutive victories. Mike is also a valued writer on the Knight Breeze. To some people's surprise, outside of school, Mike studies Tae Kuan Do and has a brown belt.

He will never forgive me if I don't mention the fact that Mike is also the owner of one large pink beast of a car (aka Sheba).

Surprise! Surprise!

—NOBILITY—

OVERLORDS

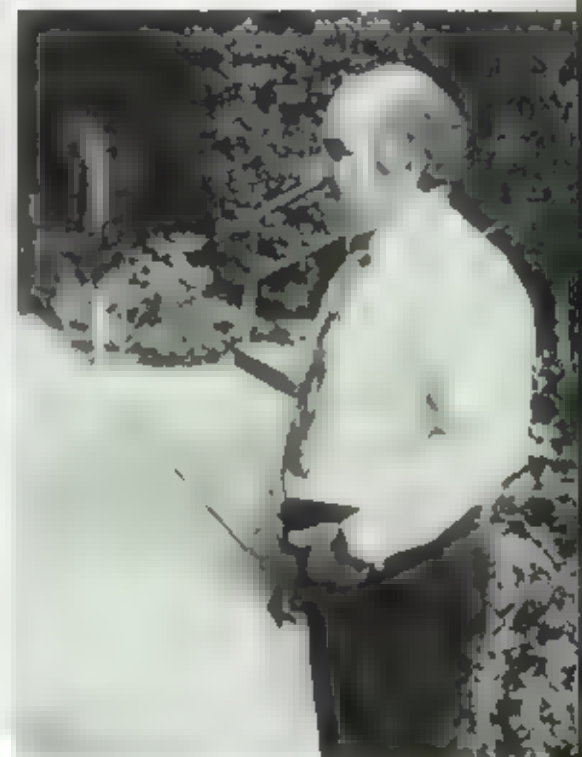

Fr. David Lapierre is the principal of St. Francis High School. This is his sixth and final year in this position.

Mr. Tom Moran is the Dean of Academics. Mr. Moran also teaches AP English to seniors.

Mr. Peter Brang is now serving his seventeen year as Vice Principal of Students. He is also responsible for teaching seniors AP History.

Mrs. Anne Morley is our new upperclassman guidance counselor. A big Trojan fan, she came from Chicago.

Mr. Leonard Rodriguez is the Executive Vice Principal at St. Francis. He also teaches biology and AP Biology.

Fr. Matthew Elshoff is in charge the Kairos Retreat, which is attended by seniors and juniors. Fr. Matt is also in charge of admissions.

New Teachers Join the Quest

by Chris Stelzer

Last year saw the departure of many teachers here at St. Francis, requiring the school to hire eight additional faculty members to fill the gap. These include two new guidance counselors, two new math teachers, a new U.S. History teacher, a new English teacher, two new science teachers.

Taking over for Mr. Sorenson is Mrs. Anne Morley, the head of the Guidance Department, who also teaches the guidance class. Mrs. Morley was born in Chicago and attended Southern Illinois University. After moving to California in 1979, she went to USC and earned her a Certificate of Professional Management. After this, Mrs. Morley taught for two years as a second grade teacher. "I'm really struck by how verbally intelligent the students at St. Francis are. There's a lot of ability shown and lots of school spirit," Mrs. Morley remarked.

In addition to Mrs. Morley, who is actually the perclassman counselor, we also have an perclassman counselor in the person of Ms. Anna Huckaby. Ms. Huckaby taught English, religion, and science at Louisville High School for 15 years. She was also the Community Service Director and Kairos Retreat Director at Crespi High for fifteen years. Ms. Huckaby was attracted to St. Francis when she met Ms. Jacoy and Fr. McGee at the 1986 Kairos Retreat. "Integrity is very

important to me, and I see a lot of that in Fr. Greg. I know I'd get along great with him, and I'd love working with him." After her first few weeks at SF, she said, "I think the school is wonderful and the kids are outstanding."

Another one of our new teachers is Mr. Claudio Amato, who teaches Algebra I and computer literacy. Born in Milan, Italy, Mr. Amato studied computer science at the Istituto Tecnico Feltrinelli, eventually earning a Bachelor of Science degree. Last year, Mr. Amato taught Algebra I and computer science at Bosco Tech.

Another new math teacher here at SF is Mr. Gallup, who teaches geometry and Algebra II. The possessor of a masters degree in religion and a BA in math, Mr. Gallup began teaching in 1976 and has since taught religion and math at Daniel Murphy High, Holy Family High, and Blessed Sacrament Elementary School. Mr. Gallup says the reason why he came to SF is because of the people, whom he calls friendly and supportive.

St. Francis' new American History teacher is Mr. Rick Settle. Born in Enid, Oklahoma, Mr. Settle attended college at UCSC to receive his bachelors degree and UCSD to receive his masters in history. Mr. Settle has had varied experiences in the teaching field, from teaching humanities at UCSD to teaching eighth grade history at Our Mother of Good Counsel. When asked why he chose SF, he answered, "I wanted to teach U.S.

History in a campus with a pleasant, controlled learning environment. The location was perfect, and the staff is excellent."

The juniors' new American Literature/American Dream teacher is Mr. James Schwartz. A native San Diegan, he attended SDSU, UCLA, and Cal State Dominguez Hills, earning degrees in both English and music/recording engineering. After deciding not to pursue a career in music engineering because of the lack of job openings, Mr. Schwartz began teaching English at Carson High before coming to St. Francis. He came to St. Francis because "The standards are a lot higher. I like the sense of a family community atmosphere."

Mr. Kevin Brooks, the new chemistry teacher, began his career at La Salle, teaching geometry and algebra as well as coaching cross country and track. After leaving La Salle, he came to teach at St. Francis because he wanted to teach chemistry and because "the faculty works really hard."

Mr. Michael Cannon, a graduate of LMU, taught laboratory science there but left to teach at the high school level until 1978 when he became the director of a medical corporation. He explained his decision to come to SF by saying, "The faculty is fantastic, the students want to learn, and the school has a good reputation."

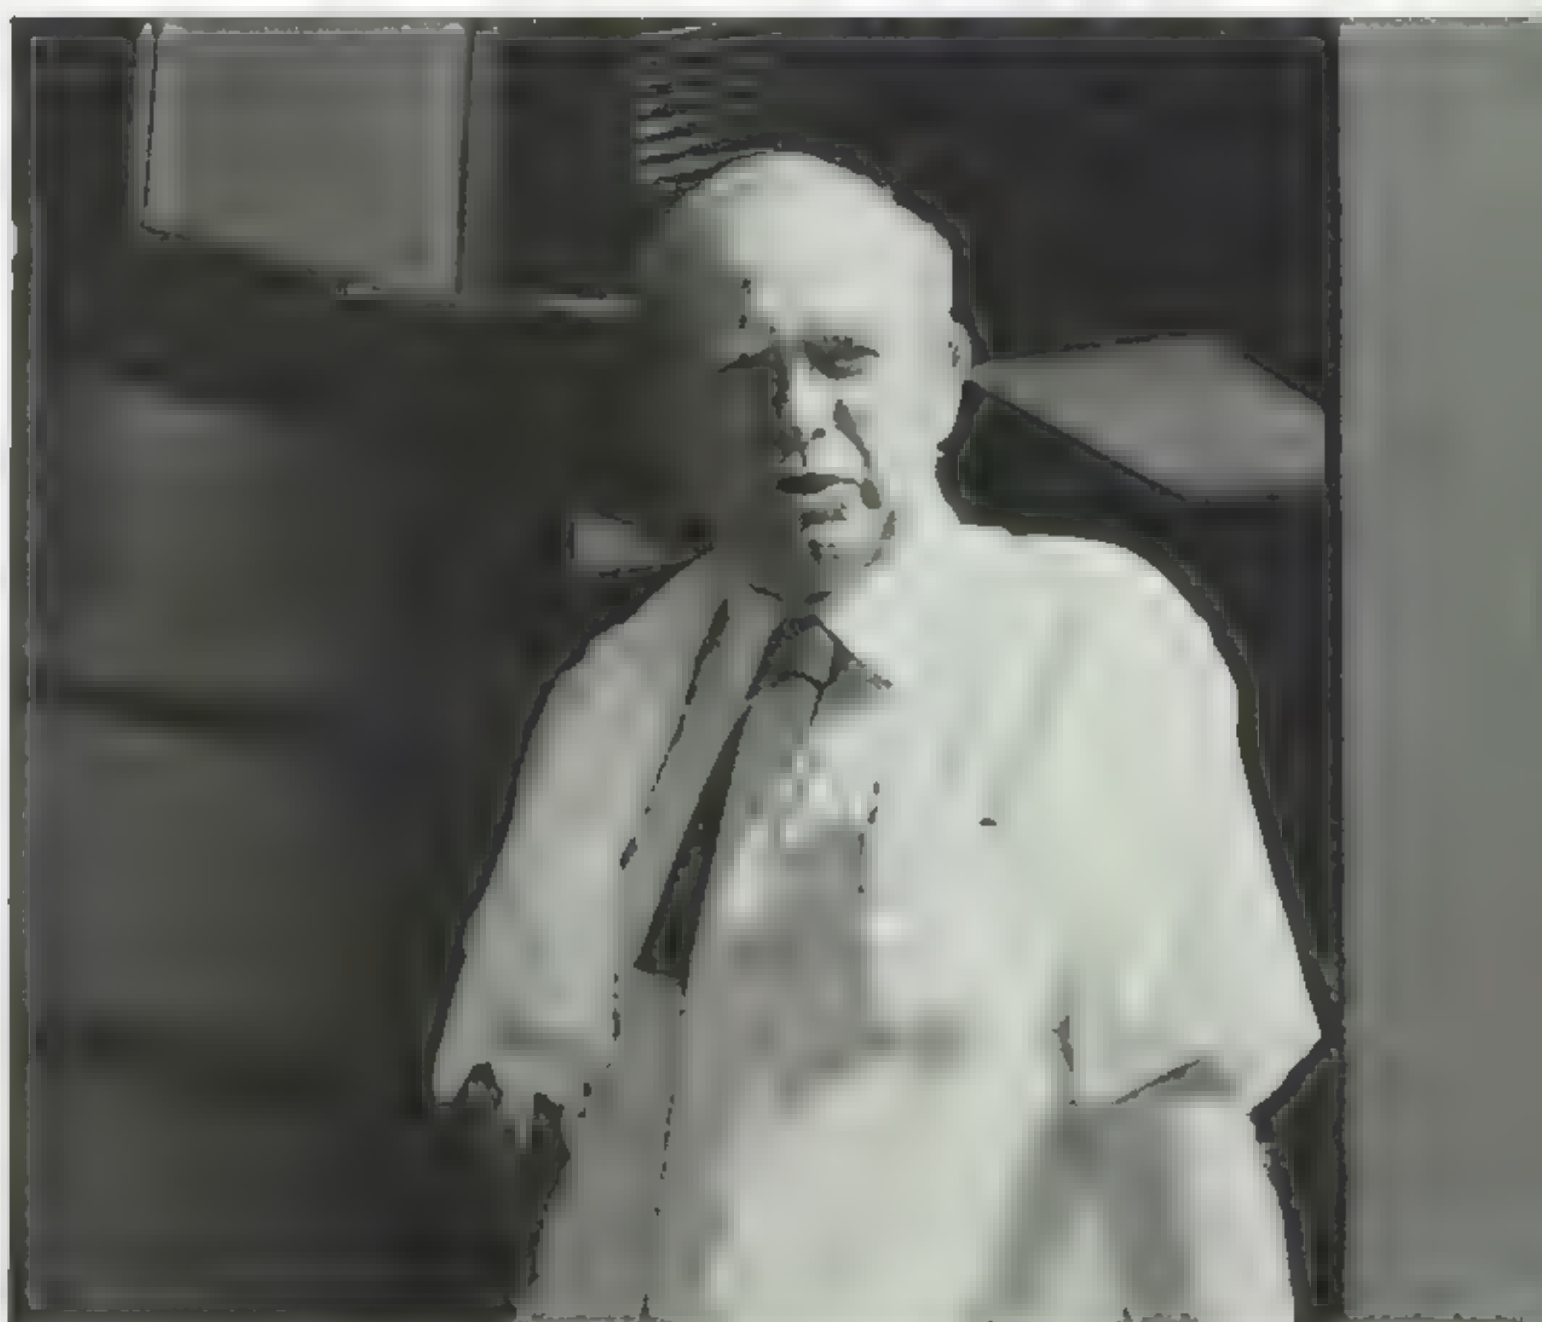

A native of Italy, Mr. Claudio Amato is Saint Francis' new Algebra I and computer literacy teacher. Before coming here, he taught at Don Bosco High.

Mr. Paul Reed Argan is currently teaching all four levels of French and a freshman English class. Mr. Argan is also teaches the newspaper production class after school.

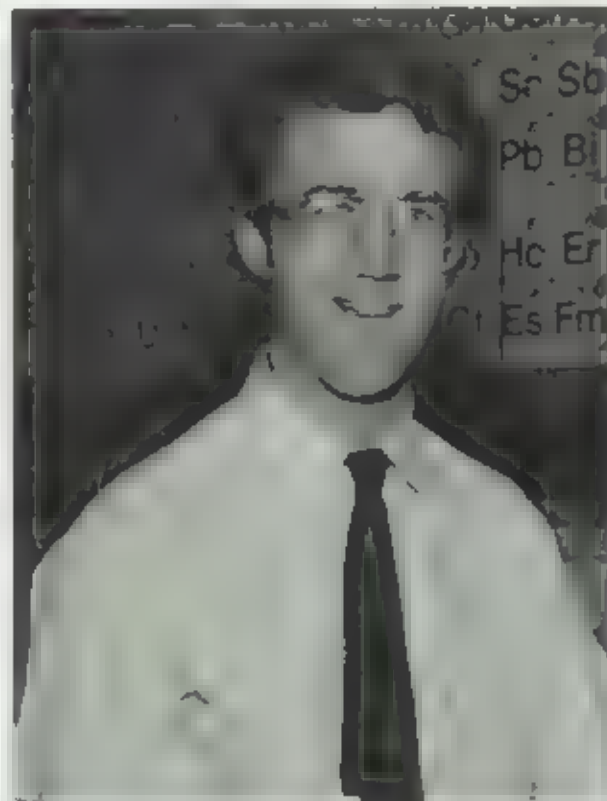

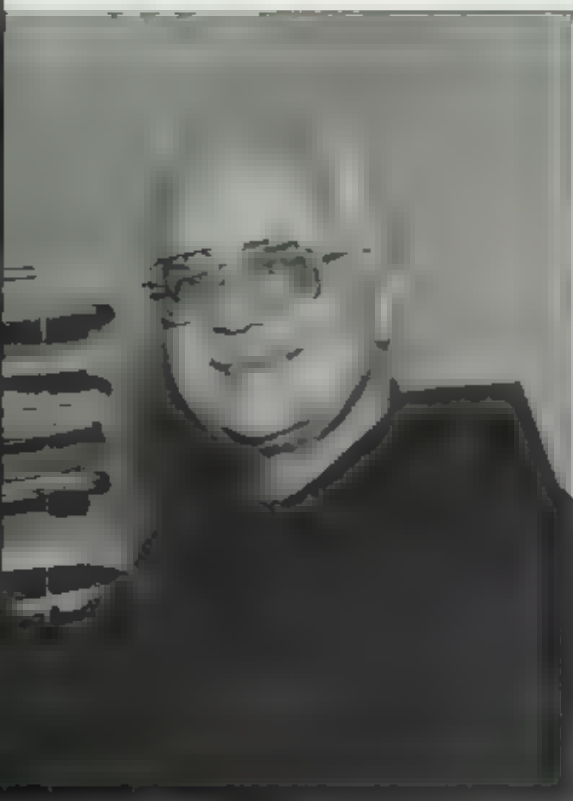

Mr. Christopher Bisett teaches Church, Social Justice, and Comparative Religions. He will be leaving us next year to join the Franciscans.

Fr. Thomas Blomberg is our Development Director. He heads up P.O.S.H., the gymnasium renovation, and Bingo.

Mr. Kevin Brucks is the new chemistry teacher this year. He comes to us from La Salle.

Mrs. Maria Elena Ceballos — Vargas is the Spanish I teacher. She also teaches Bilingual Spanish.

The Funniest Man in Athletics

Mr. Preston

by Daryl Banta

If you have had the good fortune of meeting Mr. Tom Preston or have had one of his classes, you would easily notice that he is a highly competent, interesting, and caring teacher. He takes pride in his profession and always tries to be fair. Whether be in education or in athletics, Mr. Preston is sure to give 100% more each year than the year before.

Mr. Preston went to Mount Carmel and attended college at Loyola Marymount. He has been teaching for eight satisfying years here at St. Francis. He believes that teaching at a school that stresses Christian education and the simple happiness he derives at St. Francis far outweigh a higher salary.

This year Mr. Preston became the Athletic Director of St. Francis. This job requires a great deal of responsibility

and personal attention. Among his many duties are supervising the interscholastic athletic programs, assisting the coaches, ordering all the needed uniforms, and scheduling athletic contests.

Mr. Preston appreciates the diversity and change of pace in his new position. It has allowed him to spend more time with the coaches and athletes. He urges the athletes to "realize that they are student — athletes" and should focus their attention on their education as well as sports. For this reason, Mr. Preston has developed a study hall for athletes who are falling behind in their studies. He says that the only drawback to the job is that "it may take me out of the classroom more than I want and that I will not be as involved in the teaching end of it." When asked what goals he

has as Athletic Director, he replied, "I'd just like to keep St. Francis competitive and do it with class. Winning's nice, but it's not the most important thing."

Mr. Preston is teaching the freshmen again. Many people wonder why he has taught Algebra I for so long. He believes that little things add up to big things and that by teaching the fundamentals of math now, his students will be able to use this knowledge and apply it later in their education.

Mr. Preston's final words address the single most important thing he has learned through teaching at St. Francis: "People do care." He also advises that students not dwell on the negative aspects of things. They should open their eyes to the goodness of people and see what this school has to offer them.

Fr. Greg Corro teaches Theology, Philosophy, and Social Justice to juniors and seniors. He is also the Senior class moderator, Director of Campus Ministry, and part of Kairos.

Mr. Mark Fredette teaches Biblical Literature to sophomores and Comparative Religions to juniors and seniors. He is also the moderator of the Cycling Club.

Yet another one of our new teachers this year is Mr. Daniel Gallup who teaches Geometry, Algebra II, and Algebra II/Trig. He also plays bass guitar during the student masses.

A Real Source of Wisdom

Mr. Arigan

by Mark Fellingner

For twelve years Mr. Paul Reed Arigan has served St. Francis High School as a teacher. He is also active in many other aspects of school life, including the FIS, the Knight Breeze, and the French Club.

In the year of 1976, Mr. Arigan became a member of the St. Francis staff. In years prior to his arrival at SF, he was an associate professor of French at a local university. During his high school years, he studied piano and music composition at the University of Michigan. He then went to other schools which included Notre Dame University

during summer sessions, Cal State Fullerton for his teaching credential, and the University of San Diego for his master's degree in French.

As far as teaching at St. Francis is concerned, Mr. Arigan says that he enjoys good students who are challenged during their stay here and who go on to do good things with their lives. He prefers the atmosphere of St. Francis to that of a public school for he is better able to spend more time with his students and to be closer with them.

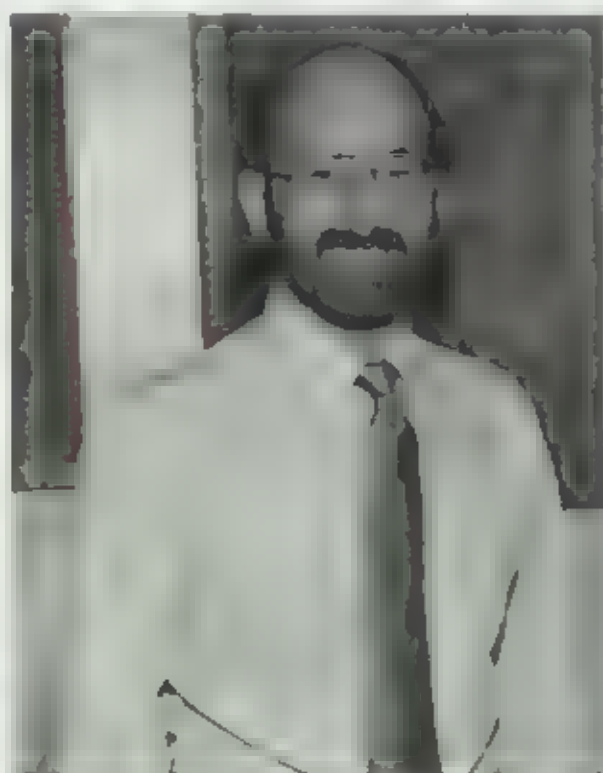

This year Mr. Arigan is teaching all levels of French as well as freshman English. He is also the moderator of the

French Club, the National Honor Society, and the Knight Breeze, our school newspaper. Mr. Arigan says that he enjoys moderating these groups if they are active. Furthermore, he does not regret having to give up much of his personal time for his pupils so long as the students are appreciative of his efforts.

In the future Mr. Arigan would like to see St. Francis become even more college preparatory. He feels that students should greater respect and appreciation for their school and its faculty members. He also believes they should give more respect to the leadership of others, especially fellow students.

Dr. Jorge Gelabert teaches Spanish 3, AP Spanish Language and AP Spanish Literature. He is also the chairman of the Foreign Language Department.

Mr. Ken Gorman is the sophomore English teacher. He also teaches Social Justice and Communications Media.

Mr. Martin Haggins is the Director of Foreign Ministry Funding here at St. Francis.

Derivatives Made as Easy as HI Dee HO with Mr. McCabe

by Wilfredo Hernandez

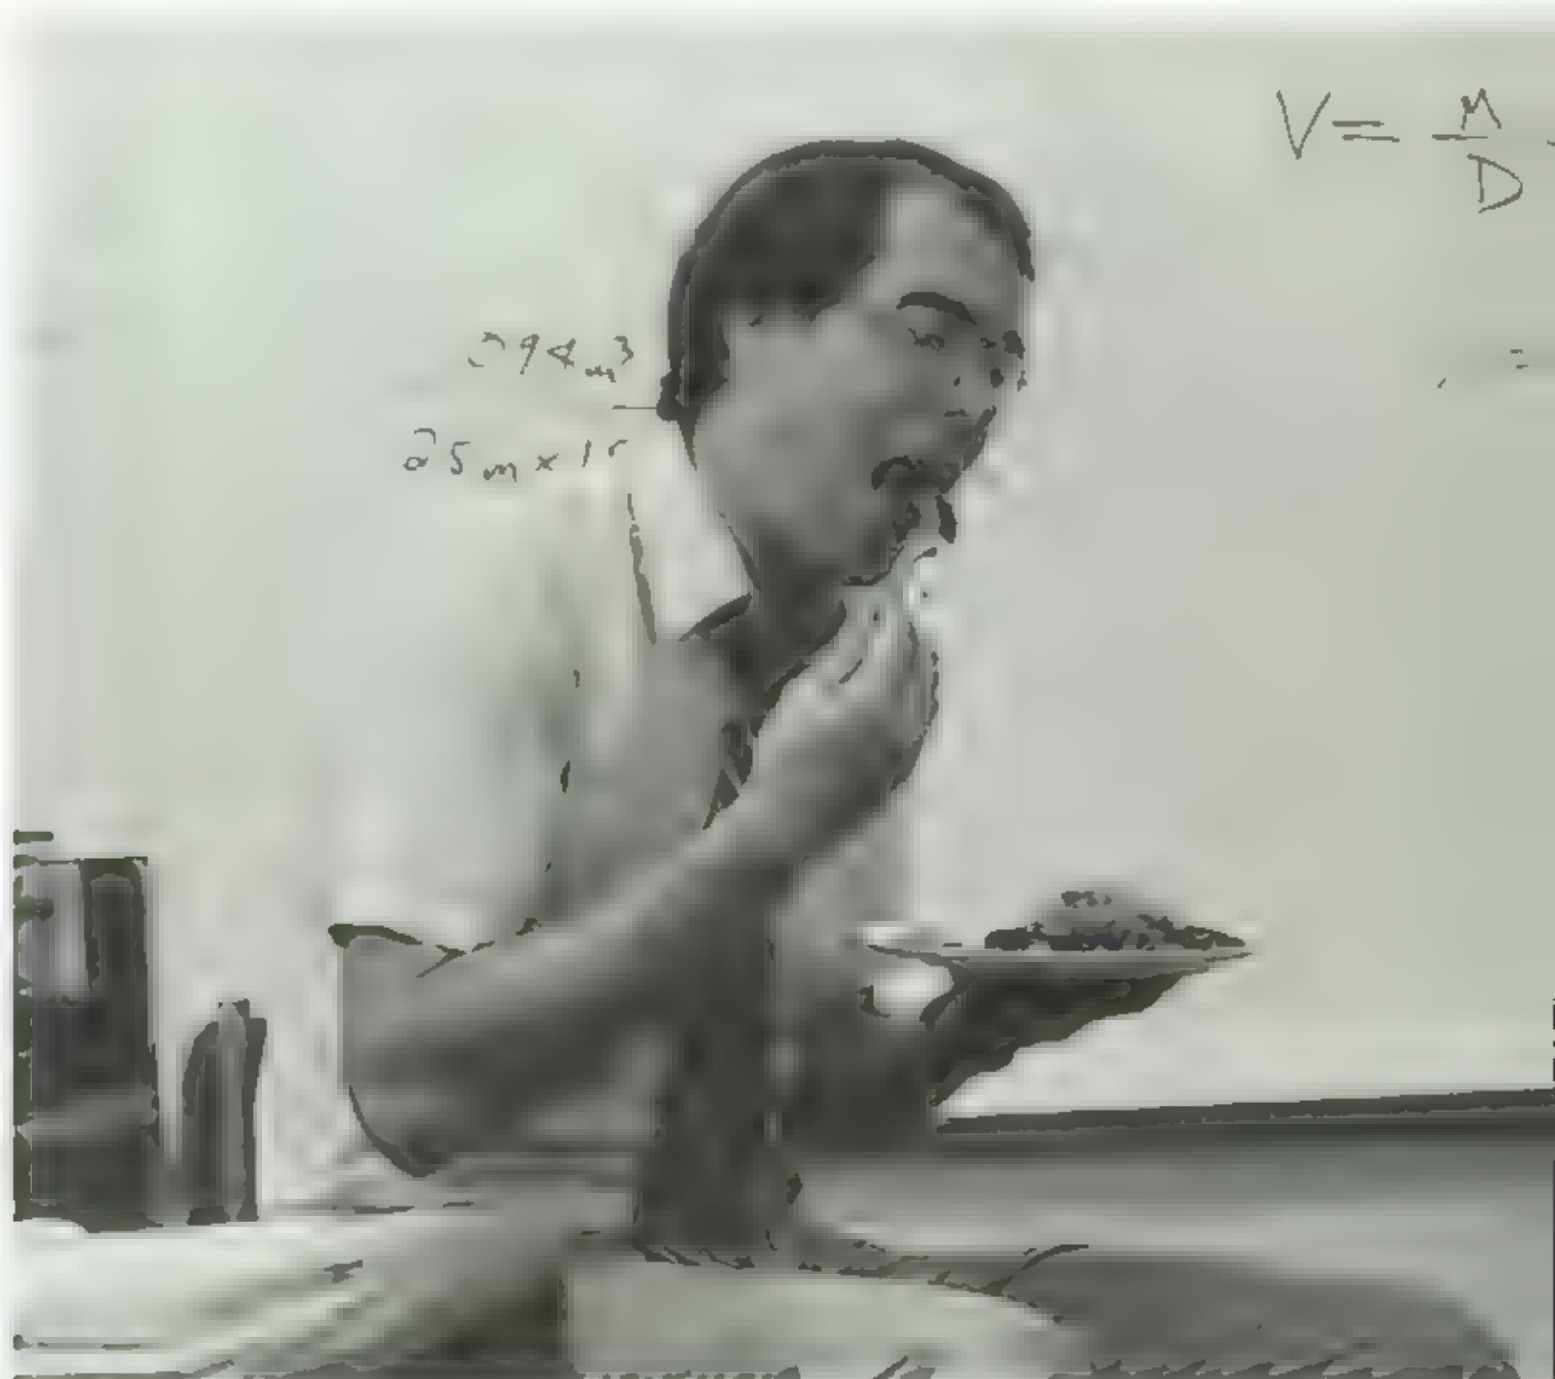

A California Institute of Technology graduate, Mr. Thomas McCabe is the current physics and calculus teacher. Mr. McCabe arrived four years ago and taught Algebra I to freshmen and physics to seniors. Last year, Mr. McCabe taught Algebra II/Trigonometry to juniors. This year, at St. Francis, Mr. McCabe teaches both calculus and physics to seniors. Mr. McCabe is very dedicated in his work at St. Francis, pushing his students to "top-notch" academics. "It (St. Francis) realizes the importance of academics and the spiritual dimension as well. I'm happy working here. I think it's a good

school."

Last year, Mr. McCabe moderated the backpacking club and organized numerous Science and English Club trips. In addition, he was a track coach. "I think we have a good competitive sports program that has good priorities," he commented. Ironically, when asked if he like math, he hesitated, then said humorously, he really is not inspired by math, even though he finds it relatively easy. His true interest is in the scientific world. "Math was always my weak point in college, believe it or not!" Besides his love of science, Mr. McCabe enjoys music. He plays the guitar at mass and selects the music for

school masses.

Although a teacher of rigorous academic courses, Mr. McCabe continues to further his education as a student. He currently takes classes at California State University at Los Angeles. He is also proud of his previous education at Caltech. His dedication and desire to progress in his field aided him in obtaining a Professional Engineer License in mechanical engineering. St. Francis is very fortunate to have such a brilliant and multi-talented teacher.

Mr. Michael Cannon teaches the new Principles of Science class to freshmen.

Mr. Claude Johnson is our Business Law, World History I, Sociology, and California History teacher. He also coaches varsity track.

Mr. Duane Harris is a varsity football and track coach. Mr. Harris is also responsible for maintenance on campus.

Mr. John Jordan teaches World History II and the seventh period basketball class. Mr. Jordan is also our new head varsity basketball coach.

Ms. Enedina Jacoy teaches Spanish 2 to sophomores. She is also in charge of the yell and cheer squads.

Fr. Chris Kearny is our world — famous Biology teacher and laboratory mad — man. He also helps with the execution of those holding detention slips.

“Give Me a Copy of the Postulates”

Mr. Neelan

by Ferdinand Pascual

Now with us for four years as a math teacher, Mr. James Neelan has had “a lot of fun” at St. Francis. He likes teaching students who are eager to learn. This year, in addition to teaching trig/precalculus to seniors, geometry to sophomores, and discrete math, he is the moderator of the CSF, the Math Club, and the Asian — American Club.

As the CSF's new moderator, Mr. Neelan plans for it to be more involved with Campus Ministry. In addition,

Mrs. Morley would like to use many of the CSF's members for tutoring. Mr. Neelan hopes this year's CSF will be a major force in the Christian service community.

Mr. Neelan is also the Math Club moderator. This year he wants to go further than his monthly National Math League contests to the Math Olympics held in 1988 in Hungary. He is hoping that some of SF's math whizzes can at least qualify for the preliminaries. He is also introducing a national math socie-

ty, Mu Alpha Theta, to St. Francis.

Last but not least, he is happy to be part of the Asian — American Club. He hopes that, in addition to the usual trip to Magic Mountain and the Filipino food sales, the club will pursue other cultural activities, such as visits to the Pacific Asian Museum.

Underneath that silent exterior is content but determined teacher. We hope that he teaches at St. Francis as long as the students are there to learn.

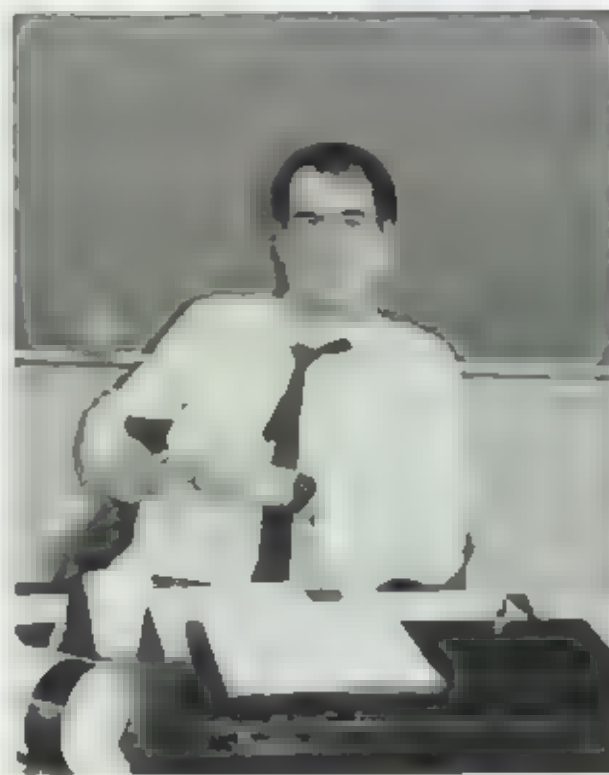

Mrs. Valerie Larsen is our freshman English teacher. She is also our new yearbook moderator.

Fr. Richard Lopez is our Director of Vocations and our chaplain.

Mr. Kenneth Lund teaches Typing, Accounting, Business Law, and Introduction to Business this year as well as coaching basketball.

Sister Margaret Mary has been the St. Francis librarian for seven years.

Br. Bernard McAllister teaches a thing or two to freshmen in his Christianity class. He is also in charge of the golf program, bringing his team to a league championship last year.

This year Mr. Tom McCabe teaches Calculus and Physics as well as leading our liturgy singers during student masses.

The Long Arm of the Law

Mr. Brang

by Mark Fellingner

The face of Mr. Peter Brang has been a familiar one to St. Francis students for seventeen years. Mr. Brang is a graduate of the University of Nebraska where he majored in history and minored in English.

He arrived on the campus of SF as a teacher in September of 1971, and taught history classes for three years. The principal at the time, Fr. Lawrence, asked Mr. Brang in 1974 to become Vice Principal of Students. He accepted.

Mr. Brang has not only been a teacher and a student here but a coach as well.

For fourteen years he coached varsity cross country. His teams won several Del Rey League championships at all levels of competition. Mr. Brang also had the privilege of coaching two school record holders in the sport, Jim Emme in 1974 and Patrick Mitchell in 1984.

He says that he enjoys working at St. Francis very much because the students are fun to be with. He also likes to see SF alumni return and praise the school for helping them to live successful lives.

During the sixteen years that Mr. Brang has been at our school, he has seen many changes: new buildings, new

teachers, the addition of computers, etc. Aside from all these things, he feels that the relationships between the students and the faculty have changed as well. He says the faculty has become more in tune with the needs of the students. They have become more human in this sense. Mr. Brang also feels that the students realize more now than in the past that their teachers are there to help and support them.

We thank Mr. Brang for all the fine work he has done here at St. Francis and we hope that he continues to do the same in the future.

Mr. John Mercado teaches British Literature, English 10, and Copy Adviser to the Alvernian.

Mr. Jim Neelan is the head of the Math Department, teaching Geometry, AP Geometry, Pre Calculus, and the new Discrete Math courses and moderating the CSF.

Mr. Mark Ortega is our Economics, Psychology, Human Development, and Contemporary Issues teacher. He also is the Social Studies Department head.

Mr. Tom Preston is our new Athletic Director. He also teaches Algebra I and AP Algebra I to freshmen.

Mr. Paul Radenberg teaches Phys. Ed. to freshmen and sophomores.

Mrs. Jenni Reiz is our Art teacher and moderates the Art Club. She also is the faculty art advisor for the Alverman.

Mr. Ken Rodgers teaches Computer Science as well as being the Director of Student Activities and overseeing student government.

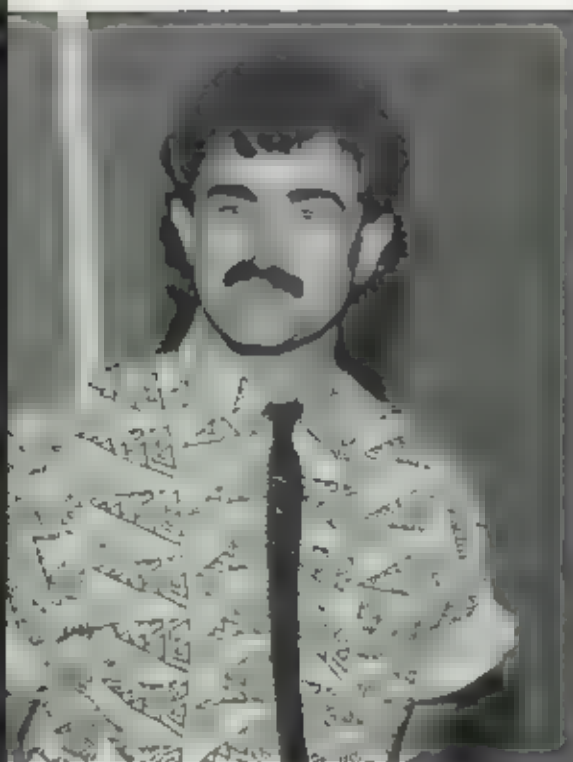

Dr. Karl Sauter teaches German and Algebra II. He also moderates the German Club and the German Honor Society.

Mr. James Schwartz is our new junior English teacher, taking over the American Literature and American Dream classes.

Mr. Charles Settle is our new United States History teacher teaching this class to juniors

Mr. Terry Terrazone teaches both World History I and II to freshmen and sophomores as well as being our head varsity football coach

Mr. Chris Valente is our Civics teacher, who has been here at St. Francis for over twenty years

I enjoyed your comments in class. You made many valuable contributions in period. Good luck!
John

“Que Tenemos Para Hoy?”

Dr. Gelabert

by Wilfredo Hernandez

Dr. Jorge Gelabert is not just your ordinary Spanish teacher. Born in Cuba and of Spanish descent, Dr. Gelabert is a well — educated, well — rounded man who truly believes in St. Francis academics. During his lifetime, Dr. Gelabert has made numerous visits to the United States, but the visit he made eight years ago from Cuba was a permanent one which soon found Dr. Gelabert teaching at St. Francis High.

Dr. Gelabert arrived in 1980 at this school. This is his seventh year here, and he loves it. In the previous years, Dr. Gelabert has taught Spanish II, III, and IV, AP Spanish Language, and AP Spanish Literature and Advanced Composition. This year, the “Doc” has made some modifications in his Spanish

department. Spanish for Spanish Speaking Students 1 and 2, which he founded upon his arrival at St. Francis were two consecutive years of Spanish education for the Spanish speaker. This year, Dr. Gelabert decided to combine the education in both classes and condense it into one, instead of two years of education to form only one class of Spanish instruction.

Dr. Gelabert is presently the Department Chairman of Foreign Language. When asked about his feelings concerning foreign language education and education in general at St. Francis, he answered, “St. Francis is constantly making innovations or improvements. No institution of this nature can remain unmodified. In the foreign language

department, we try to make changes which will adapt to the need of the individuals planning to go to college.”

Dr. Gelabert is a most interesting man. Although a Cuban — Spaniard in nationality and at heart, he regards himself as a true American citizen. “As long as communism exists in Cuba, I cannot and will not return.”

As well as speaking Spanish, Dr. Gelabert also speaks English and a substantial amount of French. All in all, the Spanish teacher trusts in the power of St. Francis academics. His students view him as a humble man with good priorities. The “Doc” continues to be valuable to the St. Francis Foreign Language Department. This one is a thumbs up!

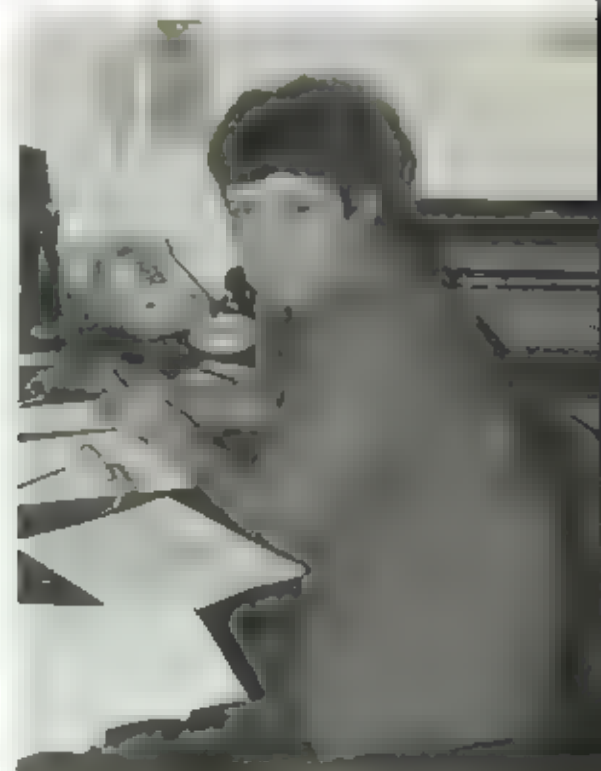

Mrs. Donna Huckaby is our new underclassman counselor who also teaches the senior Marriage class.

Mrs. Roxanna Emme is the guidance office secretary, offering students a handful of pretzels during break and lunch.

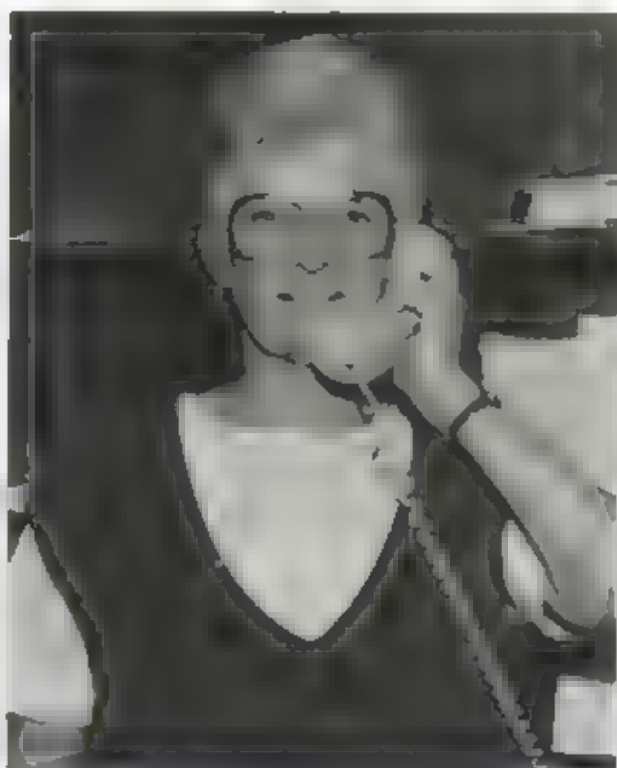

Mrs. Dorris Miller is our helpful front office secretary.

Mrs. Carmelita Dean is St. Francis treasurer, working hard in the Development Office keeping track of the school's money.

Mrs. Ellen McKenna is Mr. Moran's secretary.

Mrs. Pam Wurtzel is the assistant financial manager.

A Professional Wrestling Botanist Expert

Father Chris

by Warren Banta

Father Chris Kearney teaches sophomore biology here at St. Francis. He was born on October 12, 1942. He worked very hard as a child: three paper routes, mowing lawns, and taking care of pools. However, soon after he entered the eighth grade, he decided to join the simple, dedicated life of a Roman Catholic priest. "It seemed like the plausible thing to do," Fr. Chris explained. In following his dream of becoming a priest, he found his way to our beloved St. Francis High School where he spent

three years as a student. During his stay here, he did not compete in athletics or student government and so was not very popular. "I was a nerd," said Fr. Chris, "but a humble one." After he graduated, he completed four years of collegiate study at St. Anthony College in Hudson, New Hampshire. Later, he fulfilled his clerical studies at the Capuchin Theological during another four hard-earned years. In addition to his biological studies, he earned a BA in philosophy, a BD in divinity, and an MTH in theology, and a teaching

credential in life sciences.

After some thought, he chose to return to St. Francis where he is now teaching the tough class of biology. He enjoys gardening and loves to wrestle. Sometimes, you might find him tangled in a match with a poor unsuspecting soul in an open classroom after school. If you think you have the guts to wrestle him, Fr. Chris said he would gladly accept any challenge as long as you know that he would win. "I don't like to lose," replied Fr. Chris, "it's too embarrassing."

They Give More Than Just Homework. They're The St. Francis Faculty

by Chris Stelzer

Noblesse oblige is the obligation of people in authority to act generously with others. The ideals of noblesse oblige apply aptly for the staff of St. Francis. Here are highly educated and talented individuals who voluntarily give up their personal time and energy to help others. St. Francis is full of teachers who dedicate themselves to the betterment of SF students, not only intellectually, but spiritually and emotionally as well.

The degree of dedication and comradery among our teachers is the envy of other schools. Where else can you find

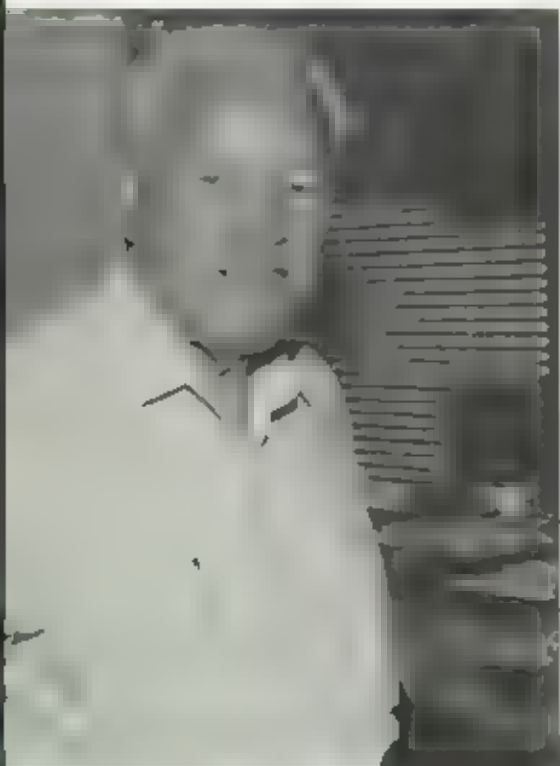

teachers who are willing to dedicate so much of themselves to helping students as well as the community through after school help, moderating clubs and organizations (including the new SPARC community service groups), and many other activities.

It takes a truly selfless person to give up time with his or her family and friends in order to devote themselves to helping others, setting an example for us students to follow. The majority of teachers at St. Francis come and stay for these reasons and for the chance to be a part of the SF community.

Looking around campus, one can see

many examples of people who give themselves to provide a better school life for students. Among these are Mr. Rodgers and Ms. Jacoy, who do much of the planning concerning rallies; Mr. Arigan, who moderates some of the most active organizations on campus; Mr. McCabe, who provides us with music and organizes the singing at student liturgies; and Mr. Neelan, who along with the Math Club, moderates the CSF and the Asian — American Club. These teachers and many others devote their time and expertise to the betterment of the student body.

Mrs. Elena D'Amico is the campus Ministry secretary.

Mr. Brian Callcott is one of SE's custodians who also assigns jobs to detention students.

Mrs. Mollie Powell is Fr. Tom's secretary in the development office.

Mr. Ben Varona has the immense job of keeping track of the attendance at SE. He also gives out change and answers students' questions.

Mr. Wayne Rebo is another of SE's custodians often seen riding around campus in his Volks — Waynegon.

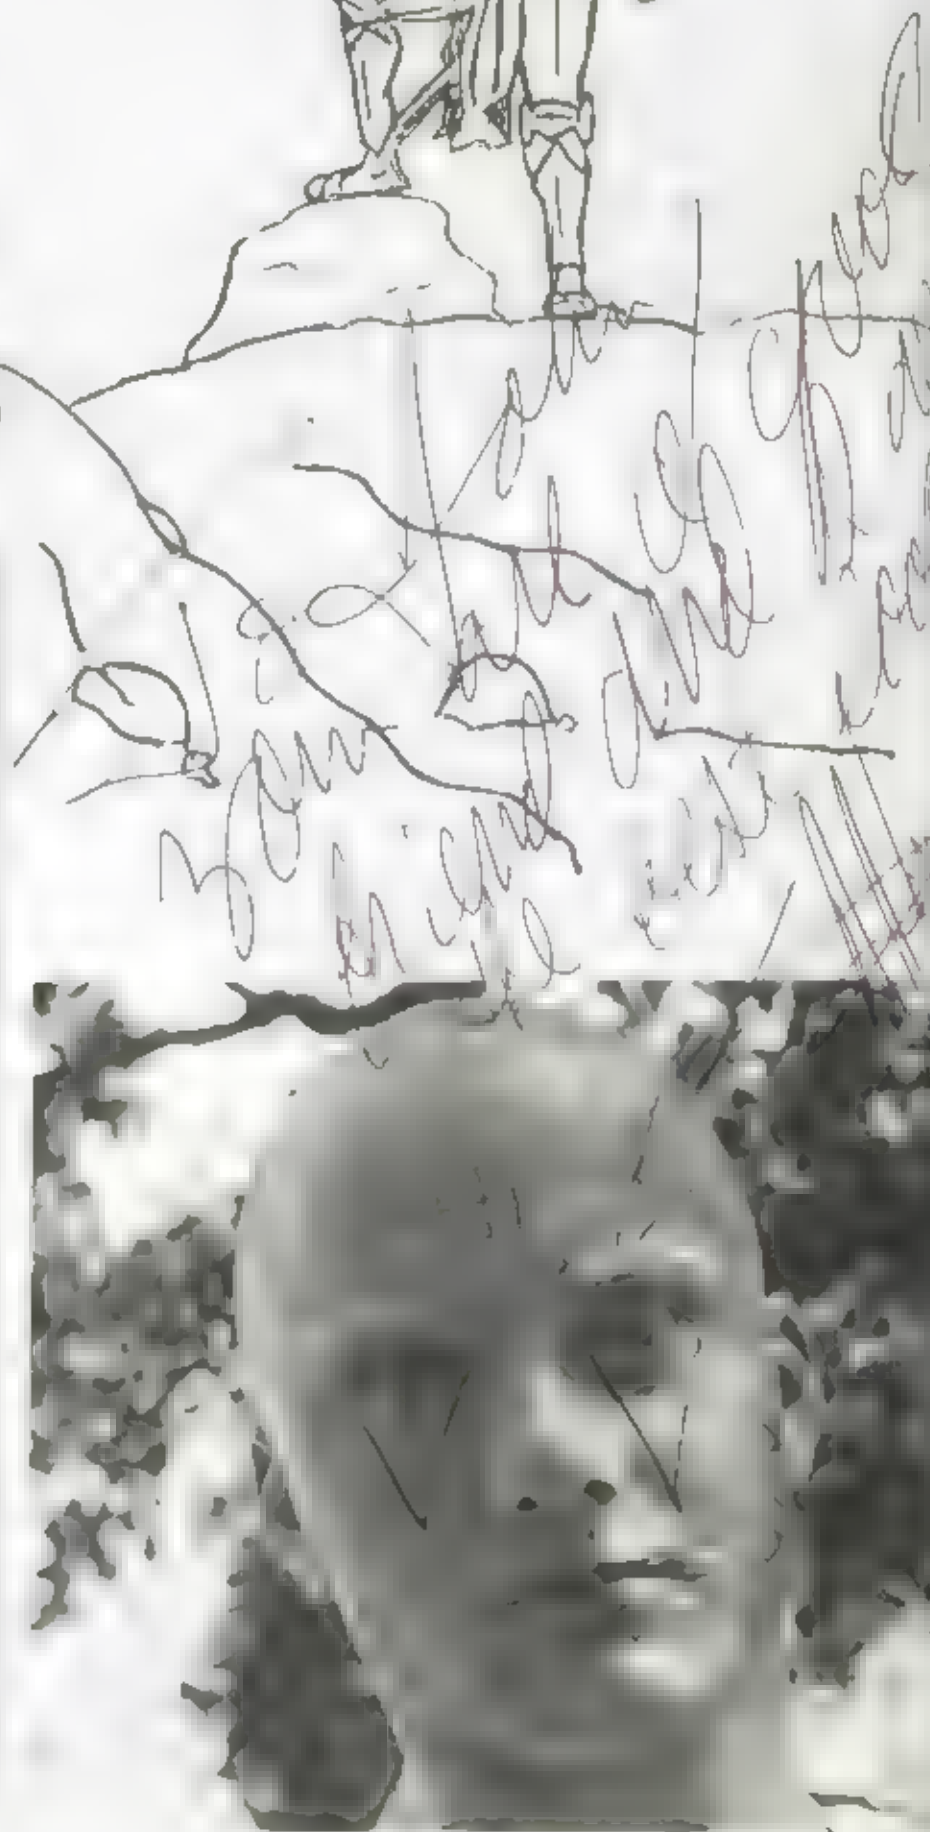

Mrs. Marilyn Cutting is Fr. Martin's secretary in the Foreign Mission Office.

Wrestling Fr. Chris

by Joseph Molina

In room 107 there may sometimes be heard the sounds of people wrestling the sounds of heads and entire bodies pounding on the ground and on the hard tile floor.

It makes the average St. Francis student think of the many times Fr. Chris has humbled you, challenging you to a wrestling match.

He will take on you and a friend, or just you, a moments notice. There is no way to win. If he gets you in a head lock with his massive arms, you are done for. Just give up.

The Restroom

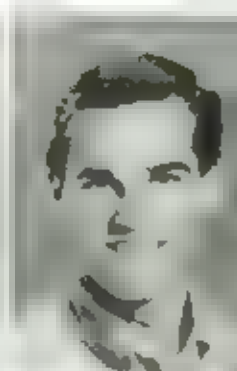

by Darryl and Warren Banta

The time: 10:07 AM — break. The place: the St. Francis restroom. After a tall glass of milk at breakfast and repeated visits to the drinking fountain, you body signals that you have retained an excess of liquid and must relieve yourself. You enter the doorway to the restroom and immediately notice the strong scent of ammonia. In the corner beside the trash cans, wads of paper towels are scatter across the floor, apparently the misses of would — be basketball players. Upon further examination, you observe several wet paper towel balls clinging to the ceiling and one of the walls. The bathroom is filled with students, and you must wait for an opening. While waiting, you check yourself in the mirror and begin to smooth down your hair until it is just right. Some students leave, and you notice an open stall. After you finish, you go to the sink to wash your hands. To your dismay, you realize that there are no more paper towels. As you wipe the water off onto your shirt, the bell rings and you rush out of the restroom.

Thus ends a common occurrence in a St. Francis restroom. Although most students will not always share the same experience, these things do occur frequently. However, life goes on, students study, and the toilets flush.

Shoes

by Bill Moran

Are shoes more than a fashion statement? Yes, shoes keep our feet warm and conceal our foot odor, but more importantly, they identify our personalities. The first thing people look at who have never met you before is your feet. Your shoes are more than just clothes. They are worn every day and are more closely related to your personality. Creepers, High tops, boots, wing tips, etc. There are so many different ones out there. Shoes keep you in touch with the rest of the world. Wherever you go, they go with you. They can be changed more often than your hair, but it is more expensive, if you are a girl.

The Summer Crew

by Warren Banta

We finally did it. The school year is coming to an end. Three months of vacation, fun, and no school are almost here. All that hard work finally paid off. When summer comes, life will be pure relaxation. But what will become of our school? It won't just clean itself up. Someone has to keep our school beautiful. This job is reserved for a group of young men who are known as the Summer Crew.

The Summer Crew works five days a week from 8:00 A.M. to 5:00 P.M. These dedicated workers do the menial tasks normally done by the "Saturday" students. They are paid from \$3.50 to \$5.00 per hour, depending on how many Summer Crews they have worked already. See Coach Harris if you are interested in this job.

Chris Reyes, Pay Zalamaya, Darko and Leo Dragicevic, Jerry Neglia, Paul Walleck, Joe Molina, and Eric Franken were the eight members of last year's crew. They trimmed plants, cleaned the lenses of the lights in every room, pulled weeds, and woke up early all for the sake of our school. The work done by the Crew is tough but its veterans would gladly do it again for higher pay. All in all, the Summer Crew is a dirty job. We should be glad that among us, there are those willing to take on "The Summer Crew."

Run, Freshman, Run!

by Chris Stelzer

As the lunch bell rings, any senior (or those who are lucky enough to get out of class early) can see an interesting spectacle — hundreds of students, especially freshmen, running toward the pizza table. Perhaps motivated by hunger or even by the sheer novelty of the chance to have dry pizza every day for lunch, at least ninety percent of these students have no chance whatsoever of getting even one slice of pizza. Many still return day after day attempting to get a slice of pizza. Some may even endeavor to rush from the lower levels only to find a crowd of would-be pizza eaters struggling to purchase their lunch.

The newcomer to the pizza sale may find it to be frustrating to find that there is not actually a line. There is only a huge crowd made up of the seniors and juniors moving to the front of the table, pushing aside the sophomores and freshmen who try to get their upperclassmen friends to buy them a few slices of some of the most overpriced pizza known to mankind. It is almost funny to watch underclassmen rush out of class each day as they try to buy one of the most valued commodities on campus — pizza.

Twins

by Wilfredo Hernandez

Have you ever wondered why and how it is you see one person in two places at the same time? It seems that this year it has happened to me on campus a whole bunch. It's weird! You're going to a certain place or doing something, like eating lunch, and you see one guy that just sticks out for some reason. A minute later, you could swear on the Bible that you see that same boy, only now in different clothes.

So you stop and wonder. You think to yourself, "What's going on?" But your mind dismisses the wonder with logical explanations: two guys that look similar or someone that had a change of clothes because of a date after school. Then, when all is cool and fine, it happens again. This time, with a different person. You see him waiting in a classroom or getting a drink of water or even at his locker. Then, one minute later, you see the same person jogging on the field, playing ball, or talking with a teacher, only in different clothes. So you say to yourself, "Hold everything!" Curiosity tells you to pursue the matter, but you're either too lazy or you come up with new explanations, this time you use imagination: asexual reproduction, of course! There are four methods. These guys probably do it day and night. It's not impossible, right?

Fission, you say. No, too predictable. These guys are discrete about this sort of thing. Maybe budding, you think. Again you know that budding is too obvious. All right then, it's vegetative propagation but you remember they aren't plants. A last resort: spore production is possible. No, that's not a classy move. So you get frustrated and decide that you've had it. When your anger subsides, you give up and accept the situation as it is. It's alright, you think, I'm just going nuts.

Well, your not. Unlike you, I know the truth. I see this guy one morning get out of a car. The same guy gets out of the car a few seconds later. There are two of them and they are wearing different clothes. They kiss their mother goodbye so they aren't asexually reproduced. I know the answer right there and then. It is divine revelation or something. God says to me, "They are twins." Now you know the truth. Don't bother wondering any more.

Saturdays

by Wilfredo Hernandez

"Bang!" I slammed my locker and zipped up my bookbag. The bell rang, and I knew I would hear another one in about fifty — five minutes. I went over to the rail and looked at the field. A ball flew through the air. The football team was practicing in their yellow jerseys. I looked at my watch and thought. It was 1:57 P.M.

"Today," I said to myself "I'll do it today. I don't have any time tomorrow morning." I made my way up the steps on my way to room 103. Then I remembered that infamous little white paper. It was in my wallet which I left in my locker. I ran down the steps to my locker to get it. I remembered how Mr. Brang had given it to me yesterday. I went back up the steps to room 103. While I was going in, I eyed a man sitting at a desk in the corner, shaking his head. It was Mr. Preston, correcting algebra tests. I sat down at a desk and looked at the clock on the wall. One minute later, the room was packed with other students.

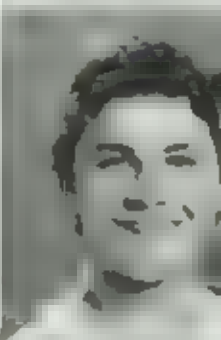

The room was full, and I wanted to leave. I hated this sort of punishment. The door opened a few seconds later, and I saw a black shoe enter like a snake from nowhere. Then, Mr. Brang appeared with a smile. The next three hours are referred to as . . .

Freshman Unity

by Paul Kieffaber

Big Brother / Little Brother was a program designed to introduce freshmen to their new environment. Hopefull, the senior and freshman that were paired together would become good friends throughout the entire year. The goal was to have a complete, united student body. This year St. Francis is without this program. There were several reasons for its discontinuation. One of these was the lack of participation by both classes. After the first two days, the two people no longer associated with each other. Seniors, who were expected to provide some transportation for the freshmen, only took their "brother" to the games, if even that much, but not the dances. Fr. David tried to think of many ideas to keep the program alive, but none of these were accepted by the students.

Initiation was a tradition feared by most SF freshmen. It was also one that was discontinued about four years ago because of the injuries that were common during this time. Since the school was liable for all of these injuries, the practice of initiation had to stop. Also, the practice of hazing was made illegal by a state law.

Unity Week was designed to bring the freshman class together, both as a unit and as the Class of 1992. Freshmen were asked to wear a certain thing or do something different each day so that everyone would recognize that the class had spirit. This year's freshmen have a great deal of pride in themselves and in their school. Hopefully, that pride will continue to grow in the years to come.

My First Day of School

by J. L. Lasso

As I came out of the very delectable shower at 6:00 A.M., I was clad in that to-day was the first of many black school days. Since I made my last hair cut the night before, I was very complacent. I got all of my A.P. class books in order and waited for my ride in a very good mood. When my ride to school came, I received four late I was embarrassed that my ride had not been hurt.

It was lunch time when I arrived at school. I joined my classmates in a conversation. We all told buoyant tales of teachers and studies. All the freshmen were just as busy as the sophomores shaved our heads. By the end of the day it was in ecstasy to see that I had piles and piles of homework and reports due the following day. Then suddenly I woke from bed screaming, yelling, and sweating and then realized it was only a nightmare.

Scared of High School

by Staff Writer

Even after you have recovered from the freshman jitters, high school can still be a frightening place. The transition from being a big, bad eighth grader to a mere freshman can sometimes be a harrowing experience. Even the biggest egos can be shattered, and the true reality of your unimportance becomes apparent.

Many freshmen try to compensate by individualizing. In the following three years, however, these people often end up conforming in the face of peer pressure. Fashion sometimes takes priority over more important things, such as personality and education.

These people should become leaders and not followers. To try something new is not bad, but doing only what everyone else does will not get you anywhere. A typical trendy teenager looks only at the exterior while a mature adult is capable of looking deeper. If you are unable to grow out of this phase, you will have a hard time growing into a truly mature Christian.

College is a problem which is apparent in many college students. This is a time of transition, and many newcomers are still stuck in the adolescent stage. Seniors and graduate students are socially more mature than these so-called adults.

How to Spot a Freshman

by Warren Banta

We all know that there are freshmen in our school; St. Francis is full of them. We all love to tease our first year underclassmen (for seniors, the word "tease" is an understatement). But just how do you spot a freshman? This is such an easy question for such a strange kind of person. There are countless ways for finding one. The most obvious characteristic a freshman has is that he always seems to have a bookbag bigger than he is. This strange phenomenon occurs in most freshmen but has a strange way of disappearing once he becomes a sophomore. Also, a freshman can never really find his way through our school. He is the one you see running back and forth across the school campus trying frantically to make it to class on time. A true freshman will ask the obvious, like "Where's the office?" or "Who's Mr. Varona?" However, the most commonly asked question is asked when he barges into a chemistry class one second before the bell rings and asks, "Is this algebra?" This is the most dreaded moment for a freshman. To prevent this from happening, he will always carry two maps of the school and one copy of his schedule of classes. Now you know how to spot a freshman.

Getting to Class

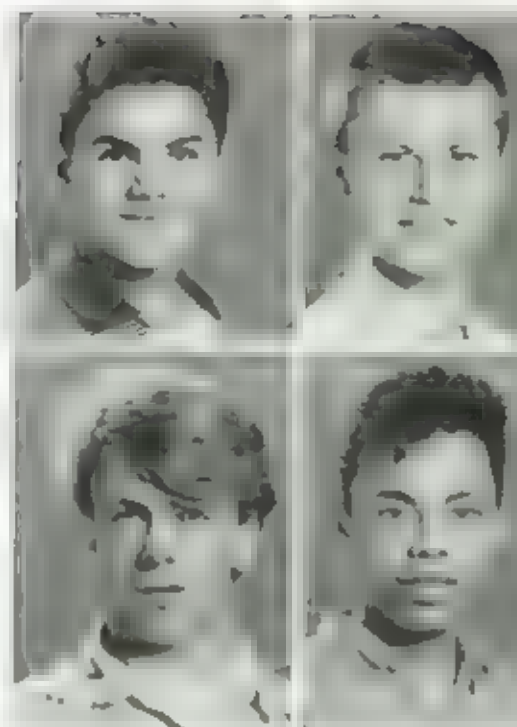

by Joseph Molina

Two minutes until the bell, and you start pushing your books into your bag. The teacher stops you and tells you to put the books back on your desk. By the time you get your book back onto your desk, the bell rings. You now start your journey to your next class.

You are in room 302. You now have three and a half minutes to get to room 105. Through the crowd you weave, trying to stop at your locker to pick up the book that you forgot. Once you get to your locker, you find that you can only remember two of the numbers in the combination. You struggle to pull the third out of your mind. Your friend comes by and tells you your combination. Not wondering how he got it, you use it. It works, you grab the book, and go, now running on the upper campus. You begin running across the Junior Lawn but all for naught because three of them come out and kick you off. You now have only twenty seconds to run down the stairs and jump into your seat. You hurdle the freshmen benches and almost fall on your face. At the stairs are new obstacles — people running out of the bathroom and down the stairs. Running down the stairs with your feet out of control, you have only five more stairs, and you start to fall. You quickly change it into a jump. You land, still running. Five seconds left. You continue running into the classroom and toward the far wall, jumping into your seat when the bell rings. Glad that this is your easiest class, you breathe a sigh of relief.

TABLE OF CONTENTS

The Outcome	192
Scrolls	195
Merchants	201

—outcome—

Here's to the Class of 1988

One of my many quests is now complete. This book is one of the most difficult projects I have undertaken, yet I am still very glad that I did it, and I am very proud of it. My feelings for St. Francis and all of the guys in my class has grown over these past four years, and I am lucky to be able to write one of the final notes in this book.

All of my friends who are reading this, I want you to know that we will always be in touch. Many of the people in this class I hope everyone will get to know. There is only one Ed Klem, there is only one Bobby Carlson, one Mike Williams, one Brian Lucken, one Peete, and only one Steve Brady. I could say this for the rest of the class, but I don't have enough room. Everyone else who I know like Mark, Ted, Chris, Philip, Hab, Navy, etc. don't get mad that I did not write out your full names.

This has been one the most difficult years for me to live through. Academically, Socially, Spiritually, and Physically I have been pushed to the edge. I have learned to live off of the pressure and hardship, and my only break from this reality was to be with my friends. This to me is one of the meanings of life. I love to make decisions, but being carefree is one of the most wonderful things, and I could find this with my friends.

This book caused a great deal of inconvenience for me, but it was all worth it. I am lucky to be able to create something which has a part of me in it for the rest of you to see.

Many other things helped me pull through the year, like Led Zeppelin, Kairos, Pink Floyd, The Dead, my family, and many other particular persons, you know who you are. I hope the rest of you will be able to find the inspiration as I have to pull yourself through life. When you can find those people and things, I hope they stay with you for a long time. Just like Jerry says, "Inspiration, move me brightly." It is what will pull you through.

This quest is complete, it's time to ramble on. I try not to live in the past, even though I know that what makes up a man is his history. No one will ever forget high school life, and I still don't know if these have really been the best years of my life, for my life is not done. I cannot stop now, though, because still "I look for my dream and a pocket full of gold!"

“What a long, strange trip it’s been.”

This has been an incredible four years to say the least. I’ve gone through a lot and experienced many different people. I think I know now who I am and where I belong, and I didn’t find this out alone. All the people I’ve met are responsible for making it happen. They caused me to look inward and examine myself. I never realized how valuable friendship is until my junior year. Before that I was very unfeeling and calculating, but I began to change. There are a certain few who will remain really special to me, and I will remember them always. I’d like to thank — William: You were my conscience, and without your nagging I might not be here now. Thanks for being there. “You want some?” Huh? “I’ll take you all on!” Kevin: For all the fun we had in the beginning and we still do now. “Why are these two men smiling?” — Fortune 500. Hilary: Thank you for the hyperactive times and conversations. (Holly Hobbie) “God, Damien, stop being so pessimistic.” Joe: We had some serious trip out sessions with Damien. I’ll never forget them (and neither will my body). “Yeah dude, but . . .” Damien: You are the biggest pessimistic realist I have ever met, and we agreed on a hell of a lot of things. Thanks for keeping me thinking. “Am I crazy or is everyone else crazy?” Courtney: Only one year of friendship, and you are one of my best friends. You’ve helped me through my freaked out emotional periods, and I’ll always owe you. I love you. “Michael and I are in another fight.” “Stevie Nicks” “Okav Bye” Todd: You’re like my brother and we’ll stay buds till we’re six feet under. We’ve gone through everything under the sun together, and I can’t write them all on paper. OK. I see. “Honor bright Mom, I wasn’t out of control.” “Stacey, Stacey” and Josh: I don’t even know what to say to you. You freaked me out pretty well, and you know what you did so I don’t need to repeat it here. I’ll find you and kill you if we don’t keep it going. Thanks for everything, and that’s a lot! “Brent Savagewood”, “I just wanted to tell you I don’t like you”, “What do you wanna do? I don’t care.” “What’s wrong with you?”

James Adolf . . . Dear Son, follow your dreams & be happy.
The Lord Jesus is always at your side, follow His guidance.
We congratulate you and we love you. Mom & Dad.

Mike Soliman — Class of 1988 . . . Congratulations, you give us so many reasons to be proud.
We wish you good luck in College with happiness and success in life.
God bless you. We all love you. Mom & Dad, Monica, Tammy, and Vivian.

Congratulations David Gelfuso & the great class of 1988!! Best of luck! Love, Dad, Mom, & Gina!

Congratulations Bobby and the Class of 1988
Love, Mom, Dad, and Angela

Congratulations Tom and Best Wishes to the Class of '88. The Dunns

Jim, you have made us proud in the way you use the gifts God gave you. We love you, Mom & Pop.

Dear Ed, You are an important part of our family and we love you for being just the way you are.
In a discrete way, let us add that your future options look good! It's in the numbers. Love, Mom and Dad

Dear Steve We're proud of your maturity, exhibited in your humanity and growth into leader, scholar, enthusiast, high achiever, and balanced young adult We regret not sharing in your senior year in LCF and seeing the future of your hard work. Congratulations! We love you The future is yours!
Mom & Dad

Dear Frank, love and best wishes from your sisters Audra and Arianne.
Frank Berritto, We are very proud & wish you happiness & success in you future years. Mom & Dad.

Congratulations to Bobby and all his classmates. Bob & Maureen Carlson.

To our Ivano, Congratulations on what you have accomplished. We are blessed that God has given us such a wonderful son and are very proud of the person you have become. Our wish for your future is every happiness and much success in all that you endeavor. May God continue to bless and guide you all the days of your life. With our love, Papa, Mom, Keki, Princess, and Laddie

Michael Sallinger, you are terrific!! XXOX Dad, Mom, and Scott.

Dear Paul: Congratulations. You have given us much joy for 17 years.
The last four years have been very special for us as we know they have been for you.
Thank you for making us so proud of you. Our love and support go with you always Mum, Dad, and Lorena

Congratulations Paul-Love Dad & Mom, Patty & Mike, Eddie, Janet & Grandma

Dear Jerry, you family wishes you a wonderful future, we are very proud of you; God bless you.

It's life, Bill, but not as we know it. Congratulations, love, Mom, Katie, & Joe

DEAR HABIB,

WE ONLY PRAY FOR YOUR SUCCESS
AND HAPPINESS IN THE FUTURE.

YOU ARE SPECIAL AND AN IMPORTANT
PART OF OUR LIVES. GOD HAS BLESSED
US.

WE ARE VERY PROUD OF YOU.

All of our love,
Mom, Dad, Kal, Roy, Matthew, Aida, and Peter

Ron and Jill Moravitz

SEE YA!

Wichita
Welcome to Southern California,

with

David M. Davis

Wish I could have a dandy summer with
all the joys of sports, music, golf,
tennis, fun, and girls. I will see you
again next year unless you geek out
and don't come back

BRYAN DAVIS

To John,

$\frac{1}{2} \times \frac{1}{2} = \frac{1}{4}$ = if

~~1/2~~ ~~1/2~~

Your friend,
Jeff,
L.A.M.S.

... at the
... the
ones to watch: ... is
the one to beat! Perhaps.
If I will give you a citation! ...
have a great summer! and here a couple
beers ... call me this summer ...
... get together.

Ritchie Cunningham. Well anyways, see ya later. VIN RO

hard in school and relax. By the way, you're a pretty sunny guy, you kinda look like

what's up John, just follow the edges + overread this. Thanks for sitting in front of me

so I can copy. I hope you have a very nice summer, study

Hey John,
 I'm glad to see you this
 year, too bad you missed the
 last two years, they were pretty
 good. It means I have to admit about
 you is a significant amount of fun & it's this school
 anyway, have a good summer, and you're a cool
 guy, and a good friend.
 Your friend,
 Tim

John,

You stink in math, but I
 can let that go. This was a
 good year and next year will
 be even better.

Shirley Zachary

John,

Keep pumpin' those weights
 and maybe some day you
 will have biceps like me
 Later dude,
 Wes Miller

John,
 I hope you have a great
 summer. I hope you
 have a good time.
 Love,
 Jeff Miller

John Miller

Scout

John Miller
 I hope you have a
 good summer. I hope
 you have a good time.
 Love,
 Jeff Miller

John Miller
 I hope you have a
 good summer. I hope
 you have a good time.
 Love,
 Jeff Miller
